The Nature of Love, Volume 3 Irving Singer

2009-02-27 The final volume of Singer's trilogy

discusses ideas about love in the work of writers ranging from Kierkegaard, Nietzsche, and Tolstoy to Freud, Proust, D. H. Lawrence, Shaw, and others in the contemporary world. Irving Singer's trilogy The Nature of Love has been called "majestic" (New York Times Book

Review), "monumental" (Boston Globe), "one of the major works of philosophy in our century" (Nous), "wise and magisterial" (Times Literary Supplement), and a "masterpiece of critical thinking [that] is a timely, eloquent, and scrupulous account of what, after all, still makes the world go round" (Christian Science Monitor). In the third volume, Singer examines the pervasive dialectic between optimistic idealism and pessimistic realism in modern thinking about the nature of love. He begins by discussing "anti-Romantic Romantics" (focusing on Kierkegaard, Nietzsche, and Tolstoy), influential nineteenth-century thinkers whose views illustrate much of the ambiguity and self-contradiction that permeate thinking about love in the last hundred years. He offers detailed studies of Freud, Proust, Shaw, D. H. Lawrence, and Santayana, and he maps the ideas about love in Continental existentialism, particularly those of Sartre and de Beauvoir. Singer finally envisages a future of cooperation between

pluralistic humanists and empirical scientists. This last volume of Singer's trilogy does not pretend to offer the final word on the subject, any more than do most of the philosophers he discusses, but his masterful work can take its place beside their earlier investigations into these vast and complex questions.

D.H. Lawrence: Resurrection in Three Novellas
Richard Colton Stevenson 1961

The Story-Shaped World Brian Wicker
2014-01-13 Story-telling, since its earliest beginnings, has drawn its power not simply from the intrinsic fascination of a skilful narrative but from the fact that human beings are compelled to make 'fictions' if they are to explain and come to terms with the world they experience. This holds true, as Mr Wicker shows in the course of a profound and wide-ranging enquiry, for the complex and often sophisticated novels and anti-novels of our own day just as much as for such traditional forms as myth and fairy-tale. The world remains 'story-shaped'.

St. Mawr & The Man Who Died D.H. Lawrence 1959-02-12 These two brilliant novels are deservedly among Lawrence's most popular works. Both are at the same time exciting narratives and striking expressions of Lawrence's philosophy. *St. Mawr* is the story of a splendid stallion in whose vitality the heroine finds the quality that is lacking in the men she knows. It is also the first of Lawrence's writing to be partially set in America, on a ranch in Arizona. *The Man Who Died*, originally published in Paris as "The Escaped Cock" and later retitled and revised, has as its main character Christ, who does not die on the cross but escapes to wander through the country seeking the meaning of human existence, which he finally discovers in a temple of Isis by the waters of Lebanon.

A Bibliography of D. H. Lawrence Warren Roberts 2001-04-19 This pre-eminent bibliography for D. H. Lawrence was extensively revised, updated and expanded by Paul Poplawski for publication in 2001. *The Nature of Love* Irving Singer 1984 "In this concluding volume of his impressive study of the history of Western thought about the nature of love, Irving Singer reviews the principal efforts that have been made by 20th-Century thinkers to analyze the phenomenon of love. . . . [T]he bulk of the book is taken up with critical accounts of the modern thinkers who have systematically called into question the possibility itself of love as a union of distinct human selves. For the most part, these critiques are effectively executed, and they bring a high level of critical acumen to bear on skeptical theses about love that are now too often accepted as truisms."—Frederick A. Olafson, Los Angeles Times Book Review "Irving Singer . . . has developed a method of historical

analysis flexible enough to deal with all kinds of love, from Greek homosexual love in Plato, to the philia and agape of the New Testament, to the courtly love of medieval romance, to the Romantics, for whom love was magic. . . . [This] final volume brings us to the present. In 'The Modern World,' Singer offers readings of Freud, Proust, and Sartre, among others. He shows how their work was formed in reaction to the 19th-century ideal of 'merging' of the identities of lover and beloved. More often than not, the great modern writers portray love as impossible, as a field of failure and regret. . . . This masterpiece of critical thinking is a timely, eloquent, and scrupulous account of what, after all, still makes the world go round."—Thomas D'Evelyn, *Christian Science Monitor* "This is the third of a three-volume history of the philosophy of love. It begins with Kierkegaard, Tolstoy, and Nietzsche in the nineteenth century and treats Freud, Proust, Bergson, D. H. Lawrence, G. B. Shaw, Santayana, Sartre, and others in the

twentieth. Although the author's approach is primarily historical, he intersperses critical remarks throughout. Most of the major themes which are discussed by philosophers of love make their way into this history, including friendship, sexual love, and the distinction between love that is based on the value of the beloved and love that bestows value on the beloved. Singer devotes a number of pages to his own views on falling in love, being in love, and staying in love. . . . Singer's exposition is lucid and organized; his criticisms are insightful."—Ethics "In this third volume of historical overview of the development of the Western conception of love, Singer uses writers, philosophers, and psychologists to provide the reader with an overview of love in the late 19th and 20th century. . . . Analyzing authors such as Tolstoy, Proust, D. H. Lawrence, and Shaw and philosophers such as Nietzsche, Kierkegaard, Sartre, and Santayana, as well as Freud, Singer . . . links each contributor's thoughts to the

influence of previous writers and also provides some psycho-historical insight into their personal lives that might have been either a source or direct result of their views. In this final volume, Singer proceeds to look at not just the 'great men' influence but also provides a chapter overviewing scientific contributions to our understanding of love. . . . Singer's work is a significant contribution to understanding the social construction of important, abstract social and personal values. By tracing love through different historical periods through a variety of voices, Singer has created a rich history of the struggle between the ideal and the real, between the dreams of what love should provide and the reality of what relationships have been in each historical period. By personalizing the voice through psychohistorical analysis, Singer also provides insight into the shaping of ideas through the intimate struggles of the shapers."—Mark V. Chaffee, *Contemporary Psychology*

Tennessee Williams Robert F. Gross 2002 Tennessee Williams' plays are performed around the world, and are staples of the standard American repertory. His famous portrayals of women engage feminist critics, and as America's leading gay playwright from the repressive postwar period, through Stonewall, to the growth of gay liberation, he represents an important and controversial figure for queer theorists. Gross and his contributors have included all of his plays, a chronology, introduction and bibliography.

Primitive Passions Marianna Torgovnick 1998-10 In this provocative and illuminating book, Marianna Torgovnick explores the psychology of our profound attraction to cultures we call

"primitive". Whether located in Africa, the South Pacific, or the American Southwest, the primitive has become synonymous in the Western imagination with a range of emotions and experiences thought to be lost in modern life: reverence for the land and for nature; strong communal bonds; sexual plentitude; and, perhaps most intriguing, and ecstatic sense of connection to the universe and the life force. Torgovnick investigates the numerous ways we have turned toward the primitive out of spiritual hunger for such deeply human experiences - a hunger that could once be satisfied within the West's own mystical traditions but that often no longer can be. Brilliantly encompassing religion, art, psychology, literature, and other aspects of our culture, *Primitive Passions* offers new insight into our ideas of spirituality and gender, and, ultimately, into the hidden but vital parts of ourselves.

The Prose Elegy John B. Vickery 2009-05-15
Traditional English poetic elegists offer both writers and readers hope. After lamenting an individual's death and confronting the mortality of all living things, these poets seek consolation from religion, philosophy, or culture for the inevitability of death. The modern prose elegy, however, follows a different path -- one that determinedly questions all possible resolutions. In *The Prose Elegy*, John B. Vickery continues the work he began in *The Modern Elegiac Temper*, which examined the form in British and American poetry. He now considers the works of American and British fiction writers from Henry James to Joan Didion and reveals how the elegy expanded into prose and why it evolved so as to deal not only with death but also with other forms of loss. Focusing on individual works,

Vickery explores both the forms the elegy takes throughout the twentieth century and the skeptical and uncertain attitudes of writers struggling to confront the trauma of loss. He offers detailed interpretations of the elegiac components in the works of novelists James Joyce, William Faulkner, Virginia Woolf, and Ernest Hemingway, each of whom forged a distinctive style, as well as chroniclers of a pervasive stoicism, such as Malcolm Lowry and Joan Didion, and writers as nuanced as Sherwood Anderson, F. Scott Fitzgerald, James Agee, and Ford Madox Ford. For these writers, Vickery shows, sorrow intrudes upon the personal, intellectual, and cultural aspects of daily living. By exploring how loss touches each of these areas, their books probe intellectual boundaries and discover new elegiac themes. Truman Capote and John Updike, for example, view memory -- which can disappear quickly -- as inherently sad. They therefore elegize memory. What consoles writers of the modern elegy

changes too. In place of Milton's religion or Shelley's philosophy, twentieth-century writers also seek comfort from what also saddens them: family, marriage, and ideas of the self. In *The Prose Elegy*, Vickery convincingly demonstrates that the elegy remains a dominant mode throughout British and American literature -- with perhaps greater pertinence to our lives than ever before.

St. Mawr D. H. Lawrence 2014-12-10 This early work by D. H. Lawrence was originally published in 1925 and we are now republishing it with a brand new introductory biography. *St Mawr* is a short novel, first published in 1925. The heroine of the story, Lou Witt, leaves her fruitless marriage and a cynical post-First World War England. Her sense of alienation is associated with her encounter with a high-spirited stallion, the *St Mawr* whose name provides the title for this tale. David Herbert Lawrence was born on 11 September 1885 at Eastwood, a small mining town in the North of England. He was a prolific

novelist and poet, responsible for some of the finest modernist works of the twentieth century. **Science Fiction and Fantasy Literature, Vol 1** R. Reginald 2010-09 *Science Fiction and Fantasy Literature, A Checklist, 1700-1974, Volume one of Two*, contains an Author Index, Title Index, Series Index, Awards Index, and the Ace and Belmont Doubles Index.

Sex Drives Laura Catherine Frost 2002 Salvador Dalí's autobiography confesses that "Hitler turned me on in the highest," while Sylvia Plath maintains that "every woman adores a Fascist." Susan Sontag's famous observation that art reveals the seamier side of fascism in bondage, discipline, and sexual deviance would certainly appear to be true in modernist and postwar literary texts. How do we account for eroticized representations of fascism in anti-fascist literature, for sexual desire that escapes the bounds of politics? Laura Frost advances a compelling reading of works by D. H. Lawrence, Virginia Woolf, Jean Genet, Georges Bataille,

Marguerite Duras, and Sylvia Plath, paying special attention to undercurrents of enthrallment with tyrants, uniforms, and domination. She argues that the first generation of writers raised within psychoanalytic discourse found in fascism the libidinal unconscious through which to fantasize acts--including sadomasochism and homosexuality--not permitted in a democratic conception of sexuality without power relations. By delineating democracy's investment in a sexually transgressive fascism, an investment that persists to this day, Frost demonstrates how politics enters into fantasy. This provocative and closely-argued book offers both a fresh contribution to modernist literature and a theorization of fantasy.
