Hearings United States. Congress. House 1955
From Global Poverty to Global Equality

Pablo Gilabert 2012-03-29 Do we have positive duties to help others in need or are our moral duties only negative, focused on not harming them? Are any of the former positive duties, duties of justice that respond to enforceable rights? Is their scope global? Should we aim for global equality besides the eradication of severe global poverty? Is a humanist approach to egalitarian distribution based on rights that all human beings as such have defensible, or must egalitarian distribution be seen in an associativist way, as tracking existing frameworks such as statehood and economic interdependence? Are the eradication of global poverty and the achievement of global equality practically feasible or are they hopelessly utopian wishes? This book argues that there are basic positive duties of justice to help eradicate severe global poverty; that global egalitarian principles are also reasonable even if they cannot be fully realized in the short term; and that there are dynamic duties to enhance the feasibility of the transition from global poverty to global equality in the face of nonideal circumstances such as the absence of robust international institutions and the lack of a strong ethos of cosmopolitan solidarity. The very notion of feasibility is crucial for normative reasoning, but has received little explicit philosophical

discussion. This book offers a systematic exploration of that concept as well as of its application to global justice. It also arbitrates the current debate between humanist and associativist accounts of the scope of distributive justice. Drawing on moral contractualism (the view that we ought to follow the principles that no one could reasonably reject), this book provides a novel defense of humanism, challenges several versions of associativism (which remains the most popular view among political philosophers), and seeks to integrate the insights underlying both views.

Research Shortcuts Judi Kesselman-Turkel 2003-10-27 There are proper ways to research a paper...and there are the ways most students do it: laboriously, tediously, and inefficiently. Here are the techniques and shortcuts that the pros use. They will enable students to find their way to the best resources for their own projects. From preparing the preliminary outline, work file, and bibliography, *Research Shortcuts* proceeds to using the appropriate resource guides, as well as modern aids to research. It also discusses shortcuts that reach the experts: writing letters that get questions answered, and making face-to-face (or telephone) interviews pay off. A final section is devoted to using the research data: first drafts, choosing specific quotes wisely, paraphrasing, and final drafts.
[Hearings, Reports and Prints of the House Committee on the Judiciary](#) United States. Congress. House. Committee on the Judiciary 1955

Shortcut Man p.g. sturges 2011-12-06 In the City of Angels, not everyone plays by the rules. Henry is a "shortcut man," someone who find solutions that may not always be legal. When he gets an assignment from porn producer Artie Benjamin, his life becomes more complicated. *Criminal Justice* George F. Cole 1988

The Shadow Docket Stephen Vladeck 2023-05-16 INSTANT NEW YORK TIMES BESTSELLER• An acclaimed legal scholar's "essential" (Linda Greenhouse) exposé of the Supreme Court's increasing use of unsigned, unexplained orders to change the law—all behind closed doors The Supreme Court has always had the authority to issue emergency rulings in exceptional circumstances. But since 2017, the Court has dramatically expanded its use of the behind-the-scenes "shadow docket," regularly making decisions that affect millions of Americans without public hearings and without explanation, through cryptic late-night rulings that leave lawyers—and citizens—scrambling. The Court's conservative majority has used the shadow docket to green-light restrictive voting laws and bans on abortion, and to curtail immigration and COVID vaccine mandates. But Americans of all political stripes should be worried about what the shadow docket portends for the rule of law, argues Supreme Court expert Stephen Vladeck. In this rigorous yet accessible book, he issues an urgent call to bring the Court back into the light.

Research in Personnel and Human

Resources Management M. Ronald Buckley 2015-06-10 This series publishes monograph length conceptual papers designed to promote theory and research on important substantive and methodological topics in the field of human resources management.

Giving Your Life The Justice it Deserves Ankush Kumar 2021-04-08 "Ankush Kumar's book is a helpful guide that tells us how, by doing justice to some basic fundamental principles of life, we unlock the door to successful and meaningful life" Abha lyengar - internationally awarded writer "Very thought provoking! Makes you ponder, introspect and encounter feelings hidden deep within. Becomes all the more effective as it comes from a young thinker" Archana Phull - Sr Journalist This book aims at serving as a handbook to thinkers and readers by giving

them a practical approach to the purpose of life by making them know its worth. Life isn't merely the fulfilling of responsibilities but is much beyond that. It is more importantly the way it should be lived. There are basics, one must understand about life. Jumping into the shortcuts to making it successful isn't the right way. This book helps you understand how life deems to be looked at and how to make most of this one timed opportunity to do everything one wants.

Justice Denied Leonard Downie 1972

Usual Cruelty Alec Karakatsanis 2019-10-29 From an award-winning civil rights lawyer, a profound challenge to our society's normalization of the caging of human beings, and the role of the legal profession in perpetuating it Alec Karakatsanis is interested in what we choose to punish. For example, it is a crime in most of America for poor people to wager in the streets over dice; dice-wagerers can be seized, searched, have their assets forfeited, and be locked in cages. It's perfectly fine, by contrast, for people to wager over international currencies, mortgages, or the global supply of wheat; wheat-wagerers become names on the wings of hospitals and museums. He is also troubled by how the legal system works when it is trying to punish people. The bail system, for example, is meant to ensure that people return for court dates. But it has morphed into a way to lock up poor people who have not been convicted of anything. He's so concerned about this that he has personally sued court systems across the country, resulting in literally tens of thousands of people being released from jail when their money bail was found to be unconstitutional. Karakatsanis doesn't think people who have gone to law school, passed the bar, and sworn to uphold the Constitution should be complicit in the mass caging of human beings—an everyday brutality inflicted disproportionately on the bodies and minds of poor people and people of color and for which the legal system has never offered sufficient justification. *Usual Cruelty* is a profoundly radical reconsideration of the American "injustice system" by someone who is actively, wildly successfully, challenging it. *Avoiding a Full Criminal Trial* Koen Vriend 2016-10-12 In modern societies, full criminal

trials are avoided on many occasions. This book is concerned with mechanisms that either divert from or speed up the proceedings. Koen Vriend argues that the fair trial rights as established by the European Court of Human Rights under Article 6 ECHR provide a normative framework that does not only apply in a full criminal trial, but that it can also be used for diverted and shortened proceedings. He shows that the concept of fairness—as derived from ECtHR case law—is a fundamental principle that underlies all criminal law enforcement. It provides for the appropriate framework to assess whether diverted or shortened proceedings are fair and legitimate. The book is intended for criminal law scholars and practitioners and human rights scholars. Dr. Koen Vriend is a Lecturer of Criminal Law and Criminal Procedural Law at the University of Amsterdam.

Wiretapping United States. Congress. House. Committee on the Judiciary 1955 Committee Serial No. 2. Considers legislation to permit admission of information obtained by authorized wiretaps as court evidence in national security investigations, and to prohibit wiretapping unauthorized by Federal officials.

American Awakening Joshua Mitchell 2022-12-13 America has always been committed to the idea that citizens can work together to build a common world. Today, three afflictions keep us from pursuing that noble ideal. The first and most obvious affliction is identity politics, which seeks to transform America by turning politics into a religious venue of sacrificial offering. For now, the sacrificial scapegoat is the white, heterosexual, man. After he is humiliated and purged, who will be the object of cathartic rage? White women? Black men? Identity politics is the anti-egalitarian spiritual eugenics of our age. It demands that pure and innocent groups ascend, and the stained transgressor groups be purged. The second affliction is that citizens oscillate back and forth, in bipolar fashion, at one moment feeling invincible on their social media platforms and, the next, feeling impotent to face the everyday problems of life without the guidance of experts and global managers. Third, Americans are afflicted by a disease that cannot quite be named, characterized by an addictive hope that they can find cheap shortcuts that bypass the difficult

labors of everyday life. Instead of real friendship, we seek social media “friends.” Instead of meals at home, we order “fast food.” Instead of real shopping, we “shop” online. Instead of counting on our families and neighbors to address our problems, we look to the state to take care of us. In its many forms, this disease promises release from our labors, yet impoverishes us all. *American Awakening* chronicles all of these problems, yet gives us hope for the future.

Efficiency and Bureaucratisation of Criminal Justice Ed Johnston 2023-03-24 This book tackles the growing issues concerning the managerialism and bureaucratisation of criminal justice systems across a number of jurisdictions. Here, managerialism means the move towards more standardised, bureaucratic and efficiency-driven systems, influenced by a desire to ensure predictability, control risks and, ultimately, economic savings via a more efficient process. The volume explores the phenomenon of managerialism in selected national criminal legal systems, covering all stages of criminal case processing from arrest to the imposition of sanction. The selected countries represent diverse socio-economic, political, cultural and legal traditions including common law, civil law, mixed common and civil law and post-Soviet tradition. The book engages with a variety of relevant theoretical concepts, such as fairness, rationality, efficiency and legitimacy. The authors critically examine whether and to what extent the trend towards managerialism is indeed discernible, and what are its likely effects in the given national criminal legal systems. The book will be of interest to students, researchers and practitioners working in the areas of comparative criminal justice and procedure.

Adolescents' Self-Discovery in Groups Theresa A. Thorkildsen 2016-07-28 Grounded in investigations conducted over the past 25 years, *Adolescents' Self-Discovery in Groups* demonstrates how adolescents can become more active in society based on how they form, maintain, and evaluate groups. By collaborating with youth in a wide range of communities, Thorkildsen details the trajectory of adolescents' development—from a primarily self-oriented perspective to beliefs about and participation in local and global activities. Focused especially on

the potential of schools for catalyzing this development, this volume details youth's affirmations and critiques of educational practices, and uses these evaluations to illustrate adolescents' readiness to fulfill leadership responsibilities. Written for scholars, students, and professionals seeking to understand how adolescents construe their social worlds, *Adolescents' Self-Discovery in Groups* makes a powerful case for group interaction being central to adolescent development.

Soviet Criminal Justice Under Stalin Peter H. Solomon 1996-10-28 *Soviet Criminal Justice under Stalin*, first published in 1997, is a comprehensive account of Stalin's struggle to make criminal law in the USSR a reliable instrument of rule. Using recently declassified archives, Peter Solomon tells the revealing story of non-political justice, on the local scene as well as in the center. Contrary to conventional wisdom, Solomon emphasizes the initial weakness of the Soviet state and the limits of Stalin's capacity to rule. Solomon's study also offers new perspectives on collectivization, the Great Terror, the politics of abortion and the disciplining of the labour force. This book should appeal to anyone interested in the political, social, or legal history of the USSR, judicial reform in post-Soviet states, law in authoritarian regimes, or comparative legal development.

No Shortcuts Jane McAlevey 2016 "An examination of strategies for effective organizing"--

Imagination and Principles M. Coeckelbergh 2007-10-17 What does it mean to say that imagination plays a role in moral reasoning, and what are the theoretical and practical implications? Engaging with three traditions in moral theory and confronting them with three contexts of moral practice, this book comprehensively explores these questions and the relation between imagination and principles.

Shortcuts to Justice Joseph E. Carter 1999-10-01

Contemporary Issues in Global Criminal Justice Ed Johnston 2022 *Contemporary Issues in Global Criminal Justice* provides a holistic analysis of modern criminal justice issues, encompassing the pre-trial, investigative, and post-conviction stages of criminal justice in legal

settings across the world. The contributors acknowledge and examine the vast array of challenges in global criminal justice, from the role of the International Criminal Court to policing, the integration of technology, and how marginalized groups, such as sex workers and those with addictions, are treated in the courts. With contributions from scholars in England and Wales, New Zealand, Croatia, Spain, the Netherlands, Canada, and The Republic of North Macedonia, this book is not limited to one jurisdiction, and highlights that criminal justice is very much a global issue in a state of crisis. From policing to the courts, it is in urgent need of reform. Without a competent criminal justice system, justice does not exist. This book would be of interest to scholars in the legal, criminal justice, and criminology fields.

Reconciliation Curtiss Paul DeYoung 2019-06-18 Rather than settling for cheap shortcuts to harmony, Curtiss Paul DeYoung invites us to embrace a costly reconciliation. *Reconciliation: God's Timeless Call to Justice, Healing, and Transformation* describes what is essential for engaging in the process of costly reconciliation: taking responsibility, seeking forgiveness, repairing the wrong, healing the soul, and creating new ways of relating. Chapters close with a set of study-guide questions for readers who seek a concise, lay-oriented articulation of the biblical mandate for reconciliation across racial, gender, and class lines. This is the 2019 reprint edition of *Reconciliation: Our Greatest Challenge—Our Only Hope*.

Applying Psychology to Criminal Justice

David Carson 2007-08-20 Few things should go together better than psychology and law - and few things are getting together less successfully. Edited by four psychologists and a lawyer, and drawing on contributions from Europe, the USA and Australia, *Applying Psychology to Criminal Justice* argues that psychology should be applied more widely within the criminal justice system. Contributors develop the case for successfully applying psychology to justice by providing a rich range of applicable examples for development now and in the future. Readers are encouraged to challenge the limited ambition and imagination of psychology and law by examining how insights in areas such as offender cognition and decision-making under pressure might inform future investigation and analysis.

The Special Criminal Court: Practice and Procedure

Alice Harrison 2019-09-26 The Special Criminal Court: Practice and Procedure compiles procedural and evidential rules in a coherent and accessible way together with a comprehensive analysis of the offences typically tried before SCC. In light of the fact that the Special Criminal Court is a creature of statute the procedural rules are extraordinarily specific and this title sets these out in a comprehensive and articulate manner so that they are accessible and useful to the practitioner. A relevant body of case law that has built up over the years is also examined in this title including decisions of the Irish courts as well as relevant decisions of the European Court of Human Rights.

Congressional Record United States. Congress 1964

Handbook of Moral Motivation

Karin Heinrichs 2013-06-12 The Handbook of Moral Motivation offers a contemporary and

comprehensive appraisal of the age-old question about motivation to do the good and to prevent the bad. From a research point of view, this question remains open even though we present here a rich collection of new ideas and data. Two sources helped the editors to frame the chapters: first they looked at an overwhelmingly fruitful research tradition on motivation in general (attribution theory, performance theory, self-determination theory, etc.) in relationship to morality. The second source refers to the tension between moral judgment (feelings, beliefs) and the real moral act in a twofold manner: (a) as a necessary duty, and, (b) as a social but not necessary bond. In addition, the handbook utilizes the latest research from a wide range of disciplinary perspectives, wishing to suggest by this that the answer to the posed question will likely not come from one discipline alone. Furthermore, our hope is that the implicit criticism that the narrowly constructed research approach of the recent past has contributed to closing off rather than opening up interdisciplinary lines of research becomes in this volume a strong counter discourse. The editors and authors of the handbook commend the research contained within in the hope that it will contribute to better understanding of humanity as an inherently moral species.

Democracy Without Shortcuts Cristina Lafont 2020-01-12 This book articulates a participatory conception of deliberative democracy that takes the democratic ideal of self-government seriously. It aims to improve citizens' democratic control and vindicate the value of citizens' participation against conceptions that threaten to undermine it. The book critically analyzes deep pluralist, epistocratic, and lottocratic conceptions of democracy. Their defenders propose various institutional "shortcuts" to help solve problems of democratic governance such as overcoming disagreements, citizens' political ignorance, or poor-quality deliberation. However, all these shortcut proposals require citizens to blindly defer to actors over whose decisions they cannot exercise control. Implementing such proposals would therefore undermine democracy. Moreover, it seems naive to assume that a community can reach better outcomes 'faster' if it bypasses the beliefs and attitudes of its citizens. Unfortunately, there are no 'shortcuts' to make a community better than its members. The only road to better outcomes is the long, participatory road that is taken when citizens forge a collective will by changing one another's hearts and minds. However difficult the process of justifying political decisions to one another may be, skipping it cannot get us any closer to the democratic ideal. Starting from this conviction, the book defends a conception of democracy "without shortcuts". This conception sheds new light on long-standing debates about the proper scope of public reason, the role of religion in politics, and the democratic legitimacy of judicial review. It also proposes new ways to unleash the democratic potential of institutional innovations such as deliberative minipublics.

Shortcuts To Justice ebook download or read

online. In today digital age, eBooks have become a staple for both leisure and learning. The convenience of accessing Shortcuts To Justice and various genres has transformed the way we consume literature. Whether you are a voracious reader or a knowledge seeker, read Shortcuts To Justice or finding the best eBook that aligns with your interests and needs is crucial. This article delves into the art of finding the perfect eBook and explores the platforms and strategies to ensure an enriching reading experience.

Table of Contents Shortcuts To Justice
