This updated edition focuses on today's business realities. Edgar Schein draws on a wide range of contemporary research to redefine culture and demonstrate the crucial role leaders play in successfully applying the principles of culture to achieve their organizational goals.

The Narrow Corridor Daron Acemoglu 2020-09-22 "Why is it so difficult to develop and sustain liberal democracy? The best recent work on this subject comes from a remarkable pair of scholars, Daron Acemoglu and James A. Robinson. In their latest book, *The Narrow Corridor*, they have answered this question with great insight." -Fareed Zakaria, *The Washington Post*
From the authors of the international bestseller *Why Nations Fail*, a crucial new big-picture framework that answers the question of how liberty flourishes in some states but falls to authoritarianism or anarchy in others--and explains how it can continue to thrive despite new threats. In *Why Nations Fail*, Daron Acemoglu and James A. Robinson argued that countries rise and fall based not on culture, geography, or chance, but on the power of their institutions. In their new book, they build a new theory about liberty and how to achieve it, drawing a wealth of evidence from both current affairs and disparate threads of world history. Liberty is hardly the "natural" order of things. In most places and at most times, the strong have dominated the weak and human freedom has been quashed by force or by customs and norms. Either states have been too weak to protect individuals from these threats, or states have been too strong for people to protect themselves from despotism. Liberty emerges only when a delicate and precarious balance is struck between state and society. There is a Western myth that political liberty is a durable construct, arrived at by a process of "enlightenment." This static view is a fantasy, the authors argue. In reality, the corridor to liberty is narrow and stays open only via a fundamental and incessant struggle between state and society: The authors look to the American Civil Rights Movement, Europe's early and recent history, the Zapotec civilization circa 500 BCE, and Lagos's efforts to uproot corruption and institute government accountability to illustrate what it takes to get and stay in the corridor. But they also examine Chinese imperial history, colonialism in the Pacific, India's caste system, Saudi Arabia's suffocating cage of norms, and the "Paper Leviathan" of many Latin American and African nations to show how countries can drift away from it, and explain the feedback loops that make liberty harder to achieve. Today we are in the midst of a time of wrenching destabilization. We need liberty more than ever, and yet the corridor to liberty is becoming narrower and more treacherous. The danger on the horizon is not "just" the loss of our political freedom, however grim that is in itself; it is also the disintegration of the prosperity and safety that critically depend on liberty. The opposite of the corridor of liberty is the road to ruin.

Airline Operations and Management Gerald N. Cook 2017-02-03
Airline Operations and Management: A Management Textbook is a survey of the airline industry, mostly from a managerial perspective. It integrates and applies the fundamentals of several management disciplines, particularly economics, operations, marketing and finance, in developing the overview of the industry. The focus is on tactical, rather than strategic, management that is specialized or unique to the airline industry. The primary audiences for this textbook are both senior and graduate students of airline management, but it should also be useful to entry and junior level airline managers and professionals seeking to expand their knowledge of the industry beyond their own functional area.

The Films of Samuel Fuller Lisa Dombrowski 2015-05-15
A cigar-chomping storyteller who signaled "Action!" by shooting a gun, Samuel Fuller has been lionized as one of the most distinctive writer/directors ever to emerge from Hollywood. In such films as *The Steel Helmet*, *Pickup on South Street*, *Shock Corridor*, and *The Big Red One*, Fuller gleefully challenged classical and generic norms—and often standards of good taste—in an effort to shock and arouse audiences. Tackling war, crime, race, and sexuality with a candor rare for any period, Fuller's maverick vision was tested by Hollywood's transition from the studio system to independent filmmaking. Now, in the first full account of all of the director's audaciously original work, author Lisa Dombrowski brings his career into new relief. *The Films of Samuel Fuller* features close analysis of Fuller's pictures and draws on previously untapped production and regulatory files, script notes, and interviews to explore how artistic, economic, and industrial factors impacted Fuller's career choices and shaped the expression of his personal aesthetic. Fans of Fuller and American cinema will welcome this in-depth study of a provocative director who embodied both the unique opportunities and challenges of postwar filmmaking.

The Challenge of Crime in a Free Society United States. President's Commission on Law Enforcement and Administration of Justice 1967
This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

Consumed David Cronenberg 2014-09-30 “An eye-opening dazzler” (Stephen King) about a pair of globetrotting, gore-obsessed journalists whose entanglement in a French philosopher’s death becomes a surreal journey into global conspiracy from legendary filmmaker David Cronenberg. Stylish and camera-obsessed, Naomi and Nathan thrive on the yellow journalism of the social-media age. Naomi finds herself drawn to the headlines surrounding a famous couple, Célestine and Aristide, Marxist philosophers and sexual libertines. Célestine has been found dead, and Aristide has disappeared. Police suspect him of killing her and consuming parts of her body. Yet Naomi sets off to find him, and as she delves deeper into the couple’s lives, she discovers the news story may only skim the surface of the disturbing acts they performed together. Journalist Nathan, meanwhile, is in Budapest photographing the controversial work of an unlicensed surgeon named Zoltán Molnár, once sought by Interpol for organ trafficking. After sleeping with one of Molnár’s patients, Nathan contracts a rare STD called Roiphe’s and travels to Toronto, determined to meet the man who discovered the syndrome. Dr. Barry Roiphe, Nathan learns, now studies his own adult daughter, whose bizarre behavior masks a devastating secret. These parallel narratives become entwined in a gripping, dreamlike plot that involves geopolitics, 3-D printing, North Korea, the Cannes Film Festival, cancer, and, in an incredible number of varieties, sex. *Consumed* is an exuberant, provocative debut novel from one of the world’s leading film directors, a writer of “fierce sculptural intensity” (Jonathan Lethem, *The New York Times Book Review*) who makes it “impossible to look away” (Publishers Weekly).

Pollak's Arm Hans von Trotha 2022-02-15 "Enthralling ... A great read."—Philippe de Montebello, former director of the Metropolitan Museum of Art October 16, 1943, inside the Vatican as darkness descends upon Rome. Having been alerted to the Nazi plan to round up the city’s Jewish population the next day, Monsignor F. dispatches an envoy to a nearby palazzo to bring Ludwig Pollak and his family to safety within the papal premises. But Pollak shows himself in no hurry to leave his home and accept the eleventh-hour offer of refuge. Pollak’s visitor is obliged to take a seat and listen as he recounts his life story: how he studied archaeology in Prague, his passion for Italy and Goethe, how he became a renowned antiquities dealer and advisor to great collectors like J. P. Morgan and the Austro-Hungarian emperor after his own Jewishness barred him from an academic career, and finally his spectacular discovery of the missing arm from the majestic ancient sculpture of Laocoön and his sons. Torn between hearing Pollak’s spellbinding tale and the urgent mission to save the archaeologist from certain annihilation, the Vatican’s anxious messenger presses him to make haste and depart. This stunning novel illuminates the chasm between civilization and barbarism by spotlighting a now little-known figure devoted to knowledge and the power of artistic creation.

No Angel Penny Vincenzi 2004-10-05 An irresistibly sweeping saga of power, family politics, and passion—first in the *Spoils of Time* trilogy from the bestselling author. Celia Lytton is the beautiful and strong-willed daughter of wealthy aristocrats and she is used to getting her way.

She moves through life making difficult and often dangerous decisions that affect herself and others—her husband, Oliver, and their children; the destitute Sylvia Miller, whose life is transformed by Celia’s intrusion; as well as Oliver’s daunting elder sister, who is not all she appears to be; and Sebastian Brooke, for whom Celia makes the most dangerous decision of all. Set against the tumultuous backdrop of London and New York in the First World War, *No Angel* is, as *British Good Housekeeping* wrote, “an absorbing page-turner, packed with believable characters and satisfyingly extreme villains, eccentrics, and manipulators.” Readers of Maeve Binchy, Barbara Taylor Bradford, and Anita Shreve will fall in love with this epic, un-put-downable novel. “Through life and death, exuberance and sorrow, honor and disgrace, Vincenzi perfectly captures the intricacies of her characters and creates plots captivating enough to keep readers eyes’ glued to this long and hearty saga.” —Publishers Weekly “Packed with passion, pain, pace and palaver.” —Daily Mail Praise for Penny Vincenzi “The doyenne of the modern blockbuster.” —Glamour “Soap opera? You bet—but with her well-drawn characters and engaging style, Vincenzi keeps things humming.” —People “Nobody writes smart, page-turning commercial women’s fiction like Vincenzi.” —USA Today “Will draw you in against your better judgment and keep you awake reading all night.” —The Boston Globe

Nightmare Factories Troy Rondinone 2019-09-24 How the insane asylum came to exert such a powerful hold on the American imagination. Madhouse, funny farm, psychiatric hospital, loony bin, nuthouse, mental institution: no matter what you call it, the asylum has a powerful hold on the American imagination. Stark and foreboding, they symbolize mistreatment, fear, and imprisonment, standing as castles of despair and tyranny across the countryside. In the “asylum” of American fiction and film, treatments are torture, attendants are thugs, and psychiatrists are despots. In *Nightmare Factories*, Troy Rondinone offers the first history of mental hospitals in American popular culture. Beginning with Edgar Allan Poe’s 1845 short story “The System of Dr. Tarr and Prof. Fether,” Rondinone surveys how American novelists, poets, memoirists, reporters, and filmmakers have portrayed the asylum and how those representations reflect larger social trends in the United States.

Asylums, he argues, darkly reflect cultural anxieties and the shortcomings of democracy, as well as the ongoing mistreatment of people suffering from mental illness. *Nightmare Factories* traces the story of the asylum as the masses have witnessed it. Rondinone shows how works ranging from *Moby-Dick* and *Dracula* to *One Flew Over the Cuckoo’s Nest*, *Halloween*, and *American Horror Story* have all conversed with the asylum. Drawing from fictional and real accounts, movies, personal interviews, and tours of mental hospitals both active and defunct, Rondinone uncovers a story at once familiar and bizarre, where reality meets fantasy in the foggy landscape of celluloid and pulp.

Brainquake Samuel Fuller 2014-08-12 The bagmen who transport money for organized crime live by a set of rules: no personal relationships, no ties, no women...and never, ever look inside the bag you’re carrying. Paul Page was the perfect bagman, despite suffering from a rare brain disorder. But that ended the day he saw a beautiful Mob wife become a Mob widow. Now Paul is going to break every rule he’s lived by—even if it means he might be left holding the bag.

The David Story: A Translation with Commentary of 1 and 2 Samuel Robert Alter 2009-10-21 “A masterpiece of contemporary Bible translation and commentary.”—Los Angeles Times Book Review, Best Books of 1999 Acclaimed for its masterful new translation and insightful commentary, *The David Story* is a fresh, vivid rendition of one of the great works in Western literature. Robert Alter’s brilliant translation gives us David, the beautiful, musical hero who slays Goliath and, through his struggles with Saul, advances to the kingship of Israel. But this David is also fully human: an ambitious, calculating man who navigates his life’s course with a flawed moral vision. The consequences for him, his family, and his nation are tragic and bloody. Historical personage and full-blooded imagining, David is the creation of a literary artist comparable to the Shakespeare of the history plays.

How I Became a Quant reveals the faces behind the quant revolution, offering you the chance to learn firsthand what it's like to be a quant today. In this fascinating collection of Wall Street war stories, more than two dozen quants detail their roots, roles, and contributions, explaining what they do and how they do it, as well as outlining the sometimes unexpected paths they have followed from the halls of academia to the front lines of an investment revolution.

A Third Face Samuel Fuller 2004 (Applause Books). Winner of Best Non-Fiction for 2002 Award from the Los Angeles Times Book Review! Samuel Fuller was one of the most prolific and independent writer-director-producers in Hollywood. His 29 tough, gritty films made from 1949 to 1989 set out to capture the truth of war, racism and human frailties, and incorporate some of his own experiences. His film *Park Row* was inspired by his years in the New York newspaper business, where his beat included murders, suicides, state executions and race riots. He writes about hitchhiking across the country at the height of the Great Depression. His years in the army in World War II are captured in his hugely successful pictures *The Big Red One*, *The Steel Helmet* and *Merrill's Marauders*. Fuller's other films include *Pickup on South Street*; *Underworld U.S.A.*, a movie that shows how gangsters in the 1960s were seen as "respected" tax-paying executives; *Shock Corridor*, which exposed the conditions in mental institutions; and *White Dog*, written in collaboration with Curtis Hanson (*L.A. Confidential*), a film so controversial that Paramount's then studio heads Jeffrey Katzenberg and Michael Eisner refused to release it. In addition to his work in film, Samuel Fuller (1911-1997) wrote eleven novels. He lived in Los Angeles with his wife and their daughter. *A Third Face* was completed by Jerome Henry Rudes, Fuller's longtime friend, and his wife, Christa Lang Fuller. "Fuller wasn't one for tactful understatement and his hot-blooded, incident-packed autobiography is accordingly blunt ... *A Third Face* is a grand, lively, rambunctious memoir." Janet Maslin, *The New York Times*; "Fuller's last work is a joy and an important addition to film and popular culture literature." *Publishers Weekly*; "If you don't like the films of Sam Fuller, then you just don't like cinema." Martin Scorsese, from the book's introduction

Expanded Cinema Gene Youngblood 2020-03-03 Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential *Expanded Cinema* was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for

understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far-ranging study traces the evolution of cinematic language to the end of fiction, drama, and realism. Vast in scope, its prescient formulations include "the paleocybernetic age," "intermedia," the "artist as design scientist," the "artist as ecologist," "synaesthetics and kinesthetics," and "the technosphere: man/machine symbiosis." Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood's radical observations in comprehensive perspective. Providing an unparalleled historical documentation, *Expanded Cinema* clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.

The Image of the City Kevin Lynch 1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

In Lonely Places Imogen Sara Smith 2014-01-10 Although film noir is traditionally associated with the mean streets of the Dark City, this volume explores the genre from a new angle, focusing on non-urban settings. Through detailed readings of more than 100 films set in suburbs, small towns, on the road, in the desert, borderlands and the vast, empty West, the author investigates the alienation expressed by film noir, pinpointing its motivation in the conflict between desires for escape, autonomy and freedom--and fears of loneliness, exile and dissolution. Through such films as *Out of the Past*, *They Live by Night* and *A Touch of Evil*, this critical study examines how film noir reflected radical changes in the physical and social landscapes of postwar America, defining the genre's contribution to the eternal debate between the values of individualism and community.

Sam Fuller Lee Server 1994 The 25 films written and directed by Sam Fuller (e.g., *Shock Corridor*, *The Naked Kiss* and *White Dog*) are a combination of social commentary, bold plotting, brutal violence and dazzling cinematic technique. For each of the films, there is a critical analysis and an extensive plot synopsis. Also provided is a comprehensive filmography of his work.

Massive Pissed Love Richard Hell 2015-10-01 Richard Hell may best be known as a punk icon, a founding member of seminal bands Television, the Heartbreakers, and The Voidoids, but for decades he's been a prominent voice in American letters. Through his novels *Go Now* and *Godlike*, and his critically acclaimed autobiography, *I Dreamed I Was a Very Clean Tramp*, Hell has proven himself as a talented and insightful writer across many genres, in many forms. But one might argue that Richard's true genius lies in shorter form as a writer on culture. "Love comes in spurts," Hell once sang, and that could well describe the intensity of his penetrating and wickedly droll criticism. *Massive Pissed Love* is a collection of Hell's ruminations on art, literature, and music, among other things, that's like a candy box of reading treats, a bag of shiny marbles, a cabinet of mementos and uncanny fetishes. However one thinks of it, it's a joy to read from start to finish and a deeply necessary addition to the oeuvre of one of the sharpest minds and sensibilities at work today.

Toxic Psychiatry Peter R. Breggin, M.D. 2015-12-22 Prozac, Xanax, Halcion, Haldol, Lithium. These psychiatric drugs--and dozens of other short-term "solutions"--are being prescribed by doctors across the country as a quick antidote to depression, panic disorder, obsessive-compulsive disorder, and other psychiatric problems. But at what cost? In this searing, myth-shattering exposé, psychiatrist Peter R. Breggin, M.D., breaks through the hype and false promises surrounding the "New Psychiatry" and shows how dangerous, even potentially brain-damaging, many of its drugs and treatments are. He asserts that: psychiatric drugs are spreading an epidemic of long-term brain damage; mental "illnesses" like schizophrenia, depression, and anxiety disorder have never been proven to be genetic or even physical in origin, but are under the jurisdiction of medical doctors; millions of schoolchildren, housewives, elderly people, and others are labeled with medical diagnoses and treated with authoritarian interventions, rather than being patiently listened to, understood, and helped. *Toxic Psychiatry* sounds a passionate, much-needed wake-up call for everyone who plays a part, active or passive, in America's ever-increasing dependence on harmful psychiatric drugs.
