The Bunker James P. O'Donnell 2001 A compulsively readable account of Hitler's last days, written by one of the first Americans to enter Hitler's bunker after the fall of Berlin

Sex, Freedom, and Power in Imperial Germany, 1880-1914 Edward Ross Dickinson 2014-02-17 This is a study of debate over sexuality and sexual morality that roiled politics in Germany between 1880 and 1914. All parties involved understood it to be a debate over the most fundamental question of modern political life: how to secure both national power and individual freedom in the context of rapid social and cultural change.

Fontane and Cultural Mediation Robertson Ritchie 2017-07-05 In the mid-1880s, the Realist author and Anglophile Theodor Fontane observed: nowhere is so much translation done as in Germany. Characterizing Germany as a special locus of literary translation and reception, Fontane contests a prejudice which has since become a significant problem for

nineteenth-century German studies, namely the frequent assessment of the epoch as narrowly national. The present collection of essays by thirteen eminent literary scholars and historians is intended to correct this prejudice: it demonstrates that literary life and production in the nineteenth century were governed by complex networks of intercultural exchange, influence and translation, and it does justice to this complexity through its range of complementary critical approaches, focussing on Fontane, Anglo-German relations, translation, and European reception. In so doing, this book not only offers a nuanced appreciation of literary production and reception in the nineteenth century, but also demonstrates the continued relevance of that period for Germanists today.

A History of Philosophy: History of modern philosophy Friedrich Ueberweg 1874

Conflict and Compromise in East Germany, 1971-1989 J. Madarász 2003-08-08 This extensively researched empirical analysis of the

GDR in the years 1971-1989 challenges current historical interpretations of GDR history. It focuses on four social groups - youth, women, writers and Christians - to highlight the stability of this socialist society until 1987. The strength of the regime is shown to have been based on a continuously negotiated process of give-and-take involving major parts of the population.

Death in Berlin M. M. Kaye 2015-12-01 Set against a background of war-scarred Berlin in the early 1950s, M. M. Kaye's Death in Berlin is

a consummate mystery from one of the finest storytellers of our time. Miranda Brand is visiting Germany for what is supposed to be a month's vacation. But from the moment that Brigadier Brindley relates the story about a fortune in lost diamonds--a story in which Miranda herself figures in an unusual way--the vacation atmosphere becomes transformed into something more ominous. And when murder strikes on the night train to Berlin, Miranda finds herself unwillingly involved in a complex chain of events that will soon throw her own life into peril. "Leisurely, well-plotted, affable entertainment." - Kirkus Reviews

Labor Bulletin of the Commonwealth of Massachusetts Massachusetts. Dept. of Labor and Industries. Division of Statistics 1914

Born to Die in Berlin Alex Carlson 2017-03-07 He was the best CIA operative in Berlin. Today, a year after he left the Agency following the brutal murder of his station chief, all Rhys Adler wants is to be left alone in the city he can't tear

himself away from. But the new station chief lures him back into service with the promise that stopping a terrorist plot might provide the key to solving his former boss' murder and bringing the killers to justice. EDGE-OF-THE-SEAT READING-A WELL-PLOTTED THRILLER Complicating Adler's return is the new American ambassador in Berlin, who is either treasonously ambitious or quite simply an idiot. Adler can't figure him out, nor does he want to, but the ambassador's actions require Adler's intervention and questions emerge about the ambassador's connection to the plot that Adler is trying to prevent. AS MANY TWISTS AND TURNS AS THE CITY'S STREETS The stakes rise when the local threat proves to have geopolitical implications. As Adler races through the gritty streets and colorful neighborhoods of Berlin, he realizes that nothing is as it seems, making it difficult to decide what his priorities are and where his loyalties lie.

[Constructing Imperial Berlin Miriam Paeslack 2019-01-15](#) How photography and a modernizing Berlin informed an urban image—and one another—in the late nineteenth and early twentieth centuries Since the fall of the Berlin Wall, the city that once visually epitomized a divided Europe has thrived in the international spotlight as an image of reunified statehood and urbanity. Yet research on Berlin's past has focused on the interwar years of the Weimar Republic or the Cold War era, with much less attention to the crucial Imperial years between 1871 and 1918. Constructing Imperial Berlin is the first book to critically assess, contextualize, and frame urban and architectural photographs of that era. Berlin, as it was pronounced Germany's capital in 1871, was fraught with questions that had previously beset Paris and

London. How was urban expansion and transformation to be absorbed? What was the city's understanding of its comparably short history? Given this short history, how did it embody the idea of a capital? A key theme of this book is the close interrelation of the city's rapid physical metamorphosis with repercussions on promotional and critical narratives, the emergence of groundbreaking photographic technologies, and novel forms of mass distribution. Providing a rare analysis of this significant formative era, Miriam Paeslack shows a city far more complex than the common clichés as a historical and aspiring place suggest. Imperial Berlin emerges as a modern metropolis, only half-heartedly inhibited by urban preservationist concerns and rather more akin to North American cities in their bold industrialization and competing urban expansions than to European counterparts. *Annalen Naturhistorisches Museum (Austria)* 1911

Art of Rome, Etruria, and Magna Graecia
German Hafner 1969 In his clear and often exciting narrative, Professor German Hafner analyzes twelve centuries of brilliant creative endeavor and traces the intricate pattern of cultural and artistic relationships between the various regions of Italy, Greece, and the lands of the Orient. To an Italy that was a welter of small tribes and cities struggling for supremacy, Greek settlers early brought their culture. They created ceramics, statues, paintings, and buildings worthy of the highest achievements of their homeland before lapsing into barbarism as the Romans embarked on their long climb to world rule. The Romans absorbed the cultural elements of the peoples the conquered -- especially of the Greeks, and not least the Etruscans -- until step by step Italy came to form a single artistic unit with its center at Rome. The standard of what we now regard as distinctively Roman art spread throughout the Empire. Beautifully illustrated in this book are the

dancers, wrestlers, warriors, horsemen, centaurs, gods, goddesses, and other themes that, throughout Antiquity, moved the peoples of the Mediterranean lands to the heights of artistic achievement. -- From publisher's description.

Bericht Über Die Verwaltung Der Stadt Berlin in Den Jahren ... Berlin (Germany). Magistrat 1863
Every Man Dies Alone Hans Fallada 2010-03-30
A New York Times Book Review Notable Book of the Year "To read Every Man Dies Alone, Fallada's testament to the darkest years of the 20th century, is to be accompanied by a wise, somber ghost who grips your shoulder and whispers in your ear: 'This is how it was. This is what happened.'" —The New York Times Book Review "I very much enjoyed the rediscovery of Hans Fallada ... a wonderful novel. Compelling." —Ian McEwan This never-before-translated masterpiece—by a heroic best-selling writer who saw his life crumble when he wouldn't join the Nazi Party—is based on a true story. It presents

a richly detailed portrait of life in Berlin under the Nazis and tells the sweeping saga of one working-class couple who decides to take a stand when their only son is killed at the front. With nothing but their grief and each other against the awesome power of the Reich, they launch a simple, clandestine resistance campaign that soon has an enraged Gestapo on their trail, and a world of terrified neighbors and cynical snitches ready to turn them in. In the end, it's more than an edge-of-your-seat thriller, more than a moving romance, even more than literature of the highest order—it's a deeply stirring story of two people standing up for what's right, and for each other. *** This is a Hybrid Book. Melville House HybridBooks combine print and digital media into an enhanced reading experience by including with each title additional curated material called Illuminations — maps, photographs, illustrations, and further writing about the author and the book. The Melville House

Illuminations are free with the purchase of any title in the HybridBook series, no matter the format.

Berlin Alexanderplatz Alfred Döblin

2004-01-01 Alfred Döblin (1878-1957) studied medicine in Berlin and specialized in the treatment of nervous diseases. Along with his experiences as a psychiatrist in the workers' quarter of Berlin, his writing was inspired by the

work of Holderlin, Schopenhauer and Nietzsche and was first published in the literary magazine, Der Sturm. Associated with the Expressionist literary movement in Germany, he is now recognized as one of the most important modern European novelists. Berlin Alexanderplatz is one of the masterpieces of modern European literature and the first German novel to adopt the technique of James Joyce. It tells the story of Franz Biberkopf, who, on being released from prison, is confronted with the poverty, unemployment, crime and burgeoning Nazism of 1920s Germany. As Franz struggles to survive in this world, fate teases him with a little pleasure before cruelly turning on him. Foreword by Alexander Stephan Translated by Eugene Jolas>
