social life in all of its forms. These essays
describe a variety of speech play genres,
formulate the "rules" for play with language, and
discuss the relevance of speech play to current
issues in linguistic theory, cognitive
development, and the ethnography of speaking.

Following Tradition Simon Bronner 1998-04
Following Tradition is an expansive examination of the history of tradition—"one of the most common as well as most contested terms in English language usage"—in Americans' thinking and discourse about culture. Tradition in use becomes problematic because of "its multiple meanings and its conceptual softness." As a term and a concept, it has been important in the development of all scholarly fields that study American culture. Folklore, history, American studies, anthropology, cultural studies, and others assign different value and meaning to tradition. It is a frequent point of reference in popular discourse concerning everything from politics to lifestyles to sports and entertainment. Politicians and social advocates appeal to it as prima facie evidence of the worth of their causes. Entertainment and other media mass produce it, or at least a facsimile of it. In a society that frequently seeks to reinvent itself, tradition as a cultural anchor to be revered

or rejected is an essential, if elusive, concept. Simon Bronner's wide net captures the historical, rhetorical, philosophical, and psychological dimensions of tradition. As he notes, he has written a book "about an American tradition—arguing about it." His elucidation of those arguments makes fascinating and thoughtful reading. An essential text for folklorists, Following Tradition will be a valuable reference as well for historians and anthropologists; students of American studies, popular culture, and cultural studies; and anyone interested in the continuing place of tradition in American culture.

Index to Children's Songs 1979 This is an index to more than 5,000 songs and variations contained in 298 children's books published between 1909 and 1977. A few collections, published primarily as adult books but containing a large number of children's songs, have also been included. Only song books that contain music as well as lyrics have been

indexed, with the exception of a few individual songs published in picture book format without music. The Index is divided into three parts. The first part, the LIST OF BOOKS INDEXED arranged alphabetically by author, contains complete bibliographical information on every song book, and assigns every one a location code. The TITLE AND FIRST LINE INDEX, contains song titles and first lines in one alphabet. First lines are printed in italic to distinguish them from titles, which are printed in roman. Each entry includes a title, or a first line, followed by a location code and page number. The SUBJECT INDEX lists song titles only, under more than 1,000 subject headings and cross references, alphabetically arranged. INDEX TO CHILDREN'S SONGS should prove a practical reference tool for all those who wish to find the music or lyrics of songs for children and young people-librarians, teachers in elementary and secondary schools, music instructors, children's entertainers, camp counselors, parents, and

young people themselves. In particular, the wide range of headings in the Subject Index will be useful to anyone who must prepare programs for special occasions, whether in school or elsewhere.

The Games Black Girls Play Kyra D. Gaunt
2006-02-06 Illustrates how black musical styles are incorporated into the earliest games African American girls learn--how, in effect, these games contain the DNA of black music. Drawing on interviews, recordings of handclapping games and cheers, and her own observation and memories of gameplaying, Gaunt argues that black girls' games are connected to long traditions of African and African American musicmaking, and that they teach vital musical and social lessons that are carried into adulthood. - from publisher information.

What the Children Said Jeanne Pitre Soileau

2021-08-23 Jeanne Pitre Soileau vividly presents children's voices in *What the Children Said: Child Lore of South Louisiana*. Including over six hundred handclaps, chants, jokes, jump-rope rhymes, cheers, taunts, and teases, this book takes the reader through a fifty-year history of child speech as it has influenced children's lives. *What the Children Said* affirms that children's play in south Louisiana is acquired along a network of summer camps, schoolyards, church gatherings, and sleepovers with friends. When children travel, they obtain new games and rhymes and bring them home. The volume also reveals, in the words of the children themselves, how young people deal with racism and sexism. The children argue and outshout one another, policing their own conversations, stating their own prejudices, and vying with one another for dominion. The first transcript in the book tracks a conversation among three related boys and shows that racism is part of the family interchange. Among second-grade boys and girls

at a Catholic school, another transcript presents numerous examples in which boys use insults to dominate a conversation with girls, and girls use giggles and sly comebacks to counter this aggression. Though collected in the areas of New Orleans, Baton Rouge, and Lafayette, Louisiana, this volume shows how south Louisiana child lore is connected to other English-speaking places: England, Scotland, Ireland, Australia, and New Zealand, as well as the rest of the United States.

The Magic Maker Susan Cooper 2011-10-11 A portrait of Christmas Revels founder John Langstaff reveals influences that shaped the creation of his popular annual celebration, from his mischievous choirboy experiences and early career as a recital singer to his World War II injury and subsequent work as a recording artist, television performer, teacher and children's author.
