Thirty-Five Years of Rifle Practice, 1851-1886, Vol. 1 of 6 (Classic Reprint) Cornelius D. Westbrook 2017-12-25 Excerpt from Thirty-Five Years of Rifle Practice, 1851-1886, Vol. 1 of 6 The improved shooting of the champion military rifles at Creedmoor justifies this inference. Their methods of loading, however, are not upon record, and the public very generally believe that the excellent shooting, of which they hear, is due to the use of a rifle of superior excellence, or to a training through years of experience, aided by exceptional natural advantages. Such was, undoubtedly, the view taken by the public of the extraordinary performances of the match rifle teams sent to Ireland some ten years since. But subsequent experience has convinced hundreds and thousands that equal, and even better shooting, was attainable with rifles, furnished by a score of manufacturers, with factory car tridges. To obtain such shooting, however, with self-loaded cartridges and self-fabricated bullets, is not quite so easy; and to turn these elegant match rifles to practical use, or to Obtain practical shooting, for the sportsman or soldier, of equal nicety from them, or from sporting or military rifles, seems to be out of the question altogether, to the public generally. And yet it is hoped that, from a perusal of these pages, such results can be attained. We have alluded to two international contests between this. Country and England. The first was in 1877, when match rifles were used. The second was in 1882, and again in 1883, when military rifles were used. Criticism Sargent Shooter 2020-06-24 This book is about criticism. It is a road of many interesting events, happenings, circumstances, and occurrences. We can see ourselves as we observe the contents of this writing. This book identifies many types of criticism. Perhaps some you have never considered. Take a look at this fat-bellied word. It is simple writing. It is not intended to be professional with every dot and comma placed at exact locations. It is rather a series of briefs randomly placed on paper just for the fun of it. I am positive we have all stood on both the good and bad sides of this word. Sometimes we are the inflictor. In other instances we are the receiver. Often it is delivered in private. Now and then it is issued by several people at the same time. This word is a part of every living person. Criticism occurs more often than we realize. It is often desired, rejected, considered, or stored for future use. It is a powerful word that can be deceptive. It can lead us into temptation or draw us out of harm's way. It can lay dormant for years or rapidly fly off a tongue. Criticism is always present. It never takes a break. It may withdraw for a period of time but it is just gathering more information to be utilized at the right time. This book looks in most of the nooks and crannies to uncover criticism in an enjoyable fashion. Criticism can be so deceptive that it is difficult to see what is really taking place at any given time. This book cannot wait for you to get into the contents it shares. It will make you giggle, laugh, sigh, and perhaps moan. This writing will grab your attention as you invest a little time taking a look at criticism. This book will relate to the reader in a way that is personal and at times intense.

Standoff Jamie Thompson 2020-09-22 Standoff is award-winning journalist Jamie Thompson's gripping account of a deadly night in Dallas, told through the eyes of those at the center of the events, who offer a nuanced look at race and policing in America On the evening of July 7, 2016, protesters gathered in cities across the nation after police shot two black men, Philando Castile and Alton Sterling. As officers patrolled a march in Dallas, a young man stepped out of an SUV wearing a bulletproof vest and carrying a high-powered rifle. He killed five officers and wounded eleven others. It fell to a small group of cops to corner the shooter inside a community college, where a fierce gun battle was followed by a stalemate. Crisis negotiator Larry Gordon, a 21-year department veteran, spent hours bonding with the gunman—over childhood ghosts and death and shared experiences of racial injustice in America—while his colleagues devised an unprecedented plan to bring the night to its dramatic end. Thompson's minute-by-minute account includes intimate portrayals of the negotiator, a surgeon who operated on the fallen officers, a mother of four shot down in the street, and the SWAT officers tasked with stopping the gunman. This is a deeply affecting story of real people navigating a terrifying crisis and a city's

attempts to heal its divisions.

Secrets of Mental Marksmanship Linda K. Miller 2010-02-01 There is one thing that all marksmen—whether they're soldiers, cops, hunters, or competitive shooters—agree on: only hits count. Depending on your role, it may be more important to be faster or it may be more important to be precise, but in the end it's the shooter who can achieve perfect shots on demand, all the time, who wins. To fire a perfect shot, you need to bring together a mix of very specific conditions into that single moment when the trigger breaks. Some of the required conditions are technical, some of them are physical, but the requirements that are most important—and most elusive—are the mental skills. Once you have mastered the mental skills required to fire the perfect shot, you will find they're the same for any gun, any time, anywhere. *Secrets of Mental Marksmanship* is a detailed guide to developing conscious and subconscious powers that will elevate your marksmanship practice, training, and performance to the level of expert shooters. Keith Cunningham and Linda Miller—both champion shooters and master instructors, with decades of experience in the field and on the range—provide a set of tools that can be used to acquire and access the mental skills needed to perform to the best of your ability. True stories from military and law-enforcement professionals, seasoned hunters, and world-class competitors illustrate key points about marksmanship in the field, on the range, and on the streets. By mastering the tools, skills, and lessons outlined in this book, you will be able to get into "the zone" and produce the perfect shot under pressure and on demand, whenever you look through the sights of a gun.

He is an artist photographing the poor, impoverished to heighten the public's awareness. God has redeemed, is redeeming, the searing pain of your loss. Your story greatly encourages me." --Rankin Wilbourne, senior pastor, Pacific Crossroads Church, Santa Monica, California
