The Armstrongs Derek James Stewart
2017-07-11 The Armstrongs were the number one "Riding" family on the Anglo/Scots Border during the 16th century. They were the most destructive of the Border reivers... and can arguably be called Britain's worst ever family. The book follows two narratives... The first delves into the history of the Armstrongs; origins, where they lived, their society and how they survived across a violent frontier... The second narrative is a gazetteer of family biographies - A who's who of raiders and marauders based on court cases and criminal trials. Tales of ransom, murder, arson, blackmail and theft are explored, drawing out the family's story during this unique period.

Wha daur Meddle wi Me Derek James Stewart
2018-02-13 The Elliots were one of the main "Reiving" families on the Anglo/Scots Border. A family born into fire and steel - who caused centuries of fear and destruction as they ruled the roost from horseback with lance and sword. The book follows two narratives... The first delves into the history of the Elliots; where they lived, origins, exploits and how they survived across this harsh community. The second promotes a fascinating gazetteer of family biographies across the Border Line. Using accounts drawn from first hand sources, escapades of theft, blackmail, murder and destruction are documented. Who indeed would meddle with them?

Cop Under Fire David Clarke Jr. 2017-02-28
America has become increasingly divided and

polarized in recent years. With growing racial tension, animosity toward law enforcement professionals, government corruption, and disregard for the constitutional process, there seems to be no easy answer in sight. But Milwaukee County Sheriff David Clarke knows where we must begin: we must stop blaming others; look at our problems with open eyes; take ownership of our family, community, and country; and turn to God for solutions. Deeply rooted in Sheriff Clarke's personal life story, this book is not a dry recitation of what has gone wrong in America with regard to race. It's about the issues that deeply affect us today-both personally and politically-and how we can rise above our current troubles to once again be a truly great people in pursuit of liberty and justice for all. "The principles Sheriff Clarke stands for are the same principles this nation was built on. He's much more than the Milwaukee County Sheriff. He's America's Sheriff . . . and Cop Under Fire is a must-read for people who love this great country." -SEAN HANNITY, FOX News Channel "Clarke is a unique voice today: fearless in his contempt for political correctness and eloquent in his articulation of core American values." -HEATHER MACDONALD, Thomas W. Smith Fellow at the Manhattan Institute and author of The War on Cops "Sheriff David Clarke provides a much-needed voice of reason in tackling America's challenges. He speaks his mind, and his no-nonsense approach to law and order is exactly what we need to make our country safer." -CHRIS W. COX, Executive Director, NRA Institute for Legislative Action "Even in a predominantly liberal community, his message of law and order, accountability, and self-empowerment resonates. He is one of America's most important cultural voices." -MARK BELLING, Talk Radio Host for 1130 WISN-AM in Milwaukee and columnist for newspapers including the Milwaukee Post "At a time when America seems to have lost its way, Sheriff David Clarke offers critically important leadership, both as one of the nation's top cops and as a much-needed public truth teller." -MONICA CROWLEY, PH.D., FOX News Channel, The Washington Times "I implore all to read Cop Under Fire . . . Sheriff Clarke is a tremendous leader, follower, and a strong voice of reason

who needs to be heard by all!" -KRIS "TANTO" PARONTO, Former U.S. Army Ranger (2nd Battalion, 75th Regiment), Security and Military Consultant, and Hero of the Benghazi Attack *Men on Strike* Helen Smith 2014-12-09 American society has become anti-male. Men are sensing the backlash and are consciously and unconsciously going "on strike." They are dropping out of college, leaving the workforce and avoiding marriage and fatherhood at alarming rates. The trend is so pronounced that a number of books have been written about this "man-child" phenomenon, concluding that men have taken a vacation from responsibility simply because they can. But why should men participate in a system that seems to be increasingly stacked against them? As *Men on Strike* demonstrates, men aren't dropping out because they are stuck in arrested development. They are instead acting rationally in response to the lack of incentives society offers them to be responsible fathers, husbands and providers. In addition, men are going on strike, either consciously or unconsciously, because they do not want to be injured by the myriad of laws, attitudes and hostility against them for the crime of happening to be male in the twenty-first century. Men are starting to fight back against the backlash. *Men on Strike* explains their battle cry.

The Allies Fight Back World History 2020-11-25 The Germans and their Japanese allies have gone from victory to victory since the start of the war, but in the autumn of 1942, that begins to change. On the small Pacific island of Guadalcanal, US forces drive back the Japanese to capture a key airfield. Meanwhile, on the Eastern Front, Hitler's blitzkrieg slams to a halt at Stalingrad, stopped by the Russian winter and a Red Army determined to defend every street. As the war enters its fourth year, the conflict becomes ever more brutal. Both sides try to break their enemies' spirits by carpet-bombing civilian-filled cities. The Nazis also break the Geneva Convention. As a result, more than half of all Soviet prisoners of war die in German captivity. This issue covers the dramatic moments that turned the war in favour of the Allies - both on the Eastern Front and in the Pacific. World History invites you on a fascinating journey to bygone eras, allowing you

to explore the greatest events in history. Take a trip back in time - to the frontlines of World War 2, to the Viking raids, and the religious rituals of ancient Egypt. World History is for everyone who would like to know more about the exciting and dramatic events of the past.

Fight Back Legal Abuse Rose Colombo

2010-07-30 Rose Colombo hit the news when she asked the question, "How much justice can you afford?" Colombo said she walked into the courtroom of no justice wealthy and walked out of the courtroom poor after she was thrust into the dark side of justice and felt as if she had been stripped of her freedom and thrown into a concentration camp with no rights. Most people know nothing about the legal system. We must not go down to their level but must force them to come up to our level.

Man Enough Frank Pittman 1994-10-01 How does a boy learn to be a man? A man learns masculinity primarily from his father. But generations of boys who grow up without caring fathers or male mentors to emulate are left to guess what "men" are really like. They rely on cultural icons--larger-than-life images--as models of masculinity. As a result, they grow up mirroring overblown myths of manhood. Obsessed with being "man enough," they become philanderers, controllers, and competitors--constantly overcompensating for their loss of a true role model, yet sorely unprepared for family life. In *Man Enough*,

psychiatrist and family therapist Frank Pittman explores what it is like to grow up male today. With great poignancy, humor, and candor, he weaves together case studies from his practice, examples from literature and films, plus personal vignettes from his own experiences as a father to examine these hyper-masculine men and to illustrate how they developed and how they can change. Dr. Pittman asserts that men can move past proving their masculinity and start practicing it by striving with the other guys rather than against them, achieving equality and intimacy with their mates--and by fathering. A man raises himself as he raises children and learns to understand and forgive his parents as he becomes one. An important book for men and women, *Man Enough* offers a new approach to issues of commitment, caring and control and creates a positive model for the fathers of tomorrow's men.

"Attack-tics" is a system of conflict resolution based on the principles of aikido, the non-violent martial art Morihei Ueshiba created after World War II. Not all conflicts are contests, say Dobson and Miller, and not all conflicts are equally threatening.

Why We Fight Josh Rosenblatt 2019-01-15 Shortlisted for the William Saroyan International Prize for Writing A physical and philosophical meditation on why we are drawn to fight each other for sport, what happens to our bodies and brains when we do, and what it all means Anyone with guts or madness in him can get hit by someone who knows how; it takes a different kind of madness, a more persistent kind, to stick around long enough to be one of the people who does the knowing. Josh Rosenblatt was thirty-three years old when he first realized he wanted

to fight. A lifelong pacifist with a philosopher's hatred of violence and a dandy's aversion to exercise, he drank to excess, smoked passionately, ate indifferently, and mocked physical activity that didn't involve nudity. But deep down inside there was always some part of him that was attracted to the idea of fighting. So, after studying Muay Thai, Krav Maga, Brazilian jiu-jitsu, and boxing, he decided, at age forty, that it was finally time to fight his first—and only—mixed martial arts match: all in the name of experience and transcending ancient fears. An insightful and moving rumination on the nature of fighting, *Why We Fight* takes us on his journey from the bleachers to the ring. Using his own training as an opportunity to understand how the sport illuminates basic human impulses, Rosenblatt weaves together cultural history, criticism, biology, and anthropology to understand what happens to the human body and mind when under attack, and to explore why he, a self-described "cowardly boy from the suburbs," discovered so much meaning in putting his body, and others', at risk. From the psychology of fear to the physiology of pain, from Ukrainian shtetls to Brooklyn boxing gyms, from Lord Byron to George Plimpton, *Why We Fight* is a fierce inquiry into the abiding appeal of our most conflicted and controversial fixation, interwoven with a firsthand account of what happens when a mild-mannered intellectual decides to step into the ring for his first real showdown.

Women Criminals [2 volumes] Vickie Jensen 2011-11-10 A unique, two-volume study that examines female crime and the women who commit it. The two-volume *Women Criminals: An Encyclopedia of People and Issues* addresses both key topics and key figures in women's crime. The first volume provides topical essays about areas critical to the understanding of female criminals, such as the definition of women's crime, explanations of women's criminality, ethnic and age diversity in female criminals, and responses of the criminal justice system. The second volume comprises biographical entries profiling women who are

obviously criminals, such as Aileen Wuornos and Myra Hindley, and also women who were victims of circumstance, unjust laws, or narrowly applied definitions of crime, such as Rosa Parks, Harriet Tubman, and Sophie Scholl. In addition to highlighting the breadth of women's criminality, these portraits provide a holistic, multifaceted understanding of the dynamics of women's crime and why it occurs, connecting the individual stories to the larger social-scientific perspectives. Care has been taken to include the women's own voices and perspectives where possible and to address the intentions and reasoning of the system that responded to their criminality.
