Scheidungsrituale Andrea Marco Bianca 2017-08-01 Rituale spielen nicht nur bei Taufen, Hochzeiten und Beerdigungen eine wichtige Rolle. Auch bei Scheidungen wird vermehrt der Wunsch nach einer symbolhaften Handlung geäußert. Andrea Marco Bianca beschäftigt sich mit den zentralen Aspekten und Wirkungen von Scheidungsritualen sowie deren Praxis in Kirche und Gesellschaft. Den ersten Teil bildet eine Auseinandersetzung mit Ritualtheorien und Scheidung als psychosozialen Prozess. Danach folgt als Kernstück eine globale Bestandsaufnahme von rund 300 Scheidungsritualen aus den Bereichen Kirche, Religion, Therapie, Mediation und säkularer Gesellschaft. Im dritten Teil stellt der Autor eine empirische Untersuchung aus den USA vor und setzt sich mit praktisch-theologischen Ansätzen auseinander. Zum Schluss entwickelt er Perspektiven für eine glaubwürdige Praxis, die sich durch eine möglichst hohe Authentizität in der Wahrnehmung der Beteiligten, Adäquatheit in der seelsorglichen Vorbereitung und Effektivität in der rituellen Begehung auszeichnet.

Entangled Pieties En-Chieh Chao 2017-08-03 This book explores the

social life of Muslim women and Christian minorities amid Islamic and Christian movements in urban Java, Indonesia. Drawing on anthropological perspectives and 14 months of participant observation between 2009 and 2013 in the multi-religious Javanese city of Salatiga, this ethnography examines the interrelations between Islamic piety, Christian identity, and gendered sociability in a time of multiple religious revivals. The novel encounters between multiple forms of piety and customary sociality among "moderate" Muslims, puritan Salafists, born-again Pentecostals, Protestants, and Catholics require citizens to renegotiate various social interactions. En-Chieh Chao argues that piety has become a complex phenomenon entangled with gendered sociality and religious others, rather than a preordained outcome stemming from a self-contained religious tradition.

Living in the Shadow of the Cross Paul Kivel 2013-10-01 How our dominant Christian worldview shapes everything from personal behavior to public policy (and what to do about it) Over the centuries, Christianity has accomplished much which is deserving of praise. Its institutions have fed the hungry, sheltered the homeless, and advocated for the poor. Christian faith has sustained people through crisis and inspired many to work for social justice. Yet although the word "Christian" connotes the epitome of goodness, the actual story is much more complex. Over the last two millennia, ruling elites have used Christian institutions and values to control those less privileged throughout the world. The doctrine of Christianity has been interpreted to justify the killing of millions, and its leaders have used their faith to sanction participation in colonialism, slavery, and genocide. In the Western world, Christian influence has inspired legislators to continue to limit women's reproductive rights and has kept lesbians and gays on the margins of society. As our triple crises of war, financial meltdown, and environmental destruction intensify, it is imperative that we dig beneath the surface of Christianity's benign reputation to examine its contribution to our social problems. *Living in the Shadow of the Cross* reveals the ongoing, everyday impact of Christian power and privilege on our beliefs, behaviors, and public policy, and emphasizes the potential for people to come together to resist

domination and build and sustain communities of justice and peace. Paul Kivel is the award-winning author of *Uprooting Racism* and the director of the Christian Hegemony Project. He is a social justice activist and educator who has focused on the issues of violence prevention, oppression, and social justice for over forty-five years.

In Good Faith Maria Polonchek 2017-08-03 More Americans are religiously unaffiliated than ever before, but secular parents face particular challenges raising children outside religion. This book balances a personal story with research and exploration, using nonreligious sources to cover topics traditionally answered for by religion, including morality, awe, death, meaning, and tradition.

Consumer Rites Leigh Eric Schmidt 1995 Reexamining the story of holidays in the United States, Leigh Schmidt shows that commercial appropriations of these occasions were actually as religious in form as they were secular. The new rituals of America's holiday bazaar offered a luxuriant merger of the holy and the profane - a heady blend of fashion and faith, merchandising and gift giving, profits and sentiments. In this richly illustrated book that captures both the blessings and ballyhoo of American holiday observances from the mid-eighteenth century through the twentieth, the author offers a reassessment of the "consumer rites" that various social critics have long decried for their spiritual emptiness and banal sentimentality.

Celebrating Life Debra Elford 1992

Formational Children's Ministry (ēmerision: Emergent Village resources for communities of faith) Ivy Beckwith 2010-01-01 Much ministry to children looks more like mere entertainment than authentic spiritual formation. But what if children's ministries were rooted in a mind set whereby we taught children, with our words and actions, how the story of God, the story of church history, the story of the local community, and the story of the child intersect and speak to one another? What if children's ministry was less about downloading information into kids' heads and more about leading them into these powerful, compelling stories? Beckwith aims to help ministers and parents create a ministry that captures children's imaginations not just to keep them occupied, but to live as citizens of the kingdom of God. In addition to providing theological reasons for formational children's ministry, the book offers examples of how Ivy and other practitioners are implementing a formational model.

Science, Religion and Communism in Cold War Europe Paul Betts 2016-05-14 Religion and science were fundamental aspects of Eastern European communist political culture from the very beginning, and remained in uneasy tension across the region over the decades. While both topics have long attracted a great deal of scholarly attention, they almost invariably have been studied discretely as separate stories. Religion, Science and Communism in Cold War Europe is the first scholarly effort to explore the delicate interface of religion, science and communism in Cold War Europe. It brings together an international team of researchers who address this relationship from a number of national viewpoints and thematic perspectives, ranging from mysticism to social science, space exploration to the socialist lifecycle, and architectural heritage to pop culture.
