The Victorian Geopolitical Aesthetic Lauren M. E. Goodlad 2015 How did realist fiction alter in the effort to craft forms and genres receptive to the dynamism of an expanding empire and globalizing world? Do these nineteenth-century variations on the "geopolitical aesthetic" continue to resonate today? Crossing literary criticism, political theory, and longue duree history, *The Victorian Geopolitical Aesthetic* explores these questions from the standpoint of mid-nineteenth-century novelists such as Wilkie Collins, George Eliot, Gustave Flaubert, and Anthony Trollope as well as successors including E. M. Forster and the creators of recent television serials. By looking at the category of "sovereignty" at multiple scales and in diverse formal, geographic, and historical contexts, Lauren M. E. Goodlad shows that the ideological crucible for "high" realism was not a hegemonic liberalism. It was, rather, a clash of modern liberal ideals struggling to distinguish themselves from a powerful conservative vision of empire while striving to negotiate the inequalities of power along lines of race, gender, nationality, and ethnicity which a supposedly universalistic liberalism had helped to generate. The material occasion for the mid-Victorian era's rich realist experiments was, thus, the transition from an informal empire of trade that could be celebrated as "liberal" to a neo-feudal imperialism that only Tories could warmly embrace. In this way the book places realism's "geopolitical aesthetic" at the heart of recurring modern experiences of breached sovereignty, forgotten history, and subjective exile. The Coda, titled "The Way We Historicize Now," concludes the book with connections to recent debates about "surface reading" "distant reading," and the hermeneutics of suspicion.

*Myths and Memories* Cindy Lane 2015-02-27 This book examines the perceptions of European travelling writers about southern Western Australia between 1850 and 1914. There was a narrow vision of space and people in the region, shaped by their individual personalities, their position in society, and the prevailing discourses and ideologies of the age. Christian, Enlightenment, and Romantic philosophies had a major influence on their responses to the land - its cultivation and conservation, and its aesthetic qualities - and on their views of both indigenous and settler colonial society - their class and assumptions of race and ethnicity. The travelling men and women perpetuated an idealised view of a colonised landscape, and a "pioneer" community that eliminated class struggle and inequality, even though an analysis of their observations suggests otherwise. Nevertheless, although limited, their narratives are invaluable as a reflection of opinions, attitudes and knowledge prevalent during an age of imperialism. Their perspectives reveal unique viewpoints that differ from those of immigrants who wrote about their hopes and fears in making a new life for themselves. These travellers were economically secure, literate and educated; foundations which provide an insight into the way power and privilege, implicit in their writings, governed the way they imagined Western Australia in the colonial and immediate post-federation period. The tinted lenses through which European travelling writers narrowly observed space and people, presented a

mythical, imagined sense of southern Western Australia.

**Anthony Trollope** Nicholas Birns 2021-10-20 Anthony Trollope's novels and stories entertain while vividly bringing the Victorian era to life. His deep empathy for the underdog led him to subvert conventions, exploring the lives of women, as well as men, and choosing as heroes and heroines outsiders who would be viewed with suspicion by his readers. Trollope's profound insight to human nature made him the first novelist in English to develop three dimensional characters and to create the novel sequence. This literary companion introduces readers to his life and work. A-to-Z entries explore Trollope's short story collections, and nonfiction contributions, as well as important themes in the works. This companion also includes fresh voices of contributors that bring in their contemporary insights to bear on Trollope's achievements, facilitating the understanding of Trollope's perspectives in relation to feminism, queer studies, and transnationalism.

Victorian Literature and Postcolonial Studies Patrick Brantlinger 2009-02-25 This book surveys the impact of the British Empire on nineteenth-century British literature from a postcolonial perspective. It explains both pro-imperialist themes and attitudes in works by major Victorian authors, and also points of resistance to and criticisms of the Empire such as abolitionism, as well as the first stirrings of nationalism in India and elsewhere. Using nineteenth-century literary works as illustrations, it analyzes several major debates, central to imperial and postcolonial studies, about imperial historiography and Marxism, gender and race, Orientalism, mimicry, and subalternity and representation. And it provides an in-depth examination of works by several major Victorian authors-Dickens, Charlotte Bronte, Disraeli, Tennyson, Yeats, Kipling, and Conrad among them - in the imperial context. Key Features:\*Links literary texts to debates in postcolonial studies\*Discusses works not included in standard literary histories\*Provides in-depth discussions and comparisons of major authors: Disraeli and George Eliot; Dickens and Charlotte Bronte; Tennyson and Yeats\*Provides a guide to further reading and a timeline

**The Gold Crusades** Douglas Fetherling 1997-01-01 Among the hordes of starry-eyed 'argonauts' who flocked to the California gold rush of 1849 was an Australian named Edward Hargraves. He left America empty-handed, only to find gold in his own backyard. The result was the great Australian rush of the 1850s, which also attracted participants from around the world. A South African named P.J. Marais was one of them. Marais too returned home in defeat - only to set in motion the diamond and gold rushes that transformed southern Africa. And so it went. Most previous historians of the gold rushes have tended to view them as acts of spontaneous nationalism. Each country likes to see its own gold rush as the one that either shaped those that followed or epitomized all the rest. In *The Gold Crusades: A Social History of Gold Rushes, 1849-1929*, Douglas Fetherling takes a different approach. Fetherling argues that the gold rushes in the United States, Canada, Australia, New Zealand, and South Africa shared the same causes and results, the same characters and characteristics. He posits that they were in fact a single discontinuous event, an expression of the British imperial experience and nineteenth-century liberalism. He does so with dash and style and with a sharp eye for the telling anecdote, the out-of-the-way document, and the bold connection between seemingly unrelated disciplines. **The Politics of Gender in Anthony Trollope's Novels** Deborah Denenholz Morse 2016-12-05 Bringing together established critics and exciting new voices, *The Politics of Gender in Anthony Trollope's Novels* offers original readings of Trollope that recognize and repay his importance as source material for scholars working in diverse fields of literary and cultural studies. As the editors observe in their provocative introduction, Trollope more than any of his contemporaries is studied by scholars from disciplines outside literary studies. The contributors here draw together work from economics, colonialism and ethnicity, gender studies, new historicism, liberalism, legal studies, and politics that convincingly argues for the eminence of Trollope's writings as a vehicle for the theoretical explorations of Victorian culture that

currently predominate. The essays variously examine imperial and postcolonial themes in the context of economic, cultural, aesthetic, and demographic influences; show how gender-sensitive readings expose Trollope's critique of capitalism's influence; address Trollope and sexuality in the context of queer studies, the law, archetypal constructions, and classical feminism; and offer new approaches to narrative theory through examination of Victorian understandings of male and female psychology. Regenia Gagnier's concluding chapter revisits the collection's critical strands and reflects on the implications for future studies of Trollope.

**Eco-Cultural Networks and the British Empire** James Beattie 2014-12-18 19th-century British imperial expansion dramatically shaped today's globalised world. Imperialism encouraged mass migrations of people, shifting flora, fauna and commodities around the world and led to a series of radical environmental changes never before experienced in history. *Eco-Cultural Networks and the British Empire* explores how these networks shaped ecosystems, cultures and societies throughout the British Empire and how they were themselves transformed by local and regional conditions. This multi-authored volume begins with a rigorous theoretical analysis of the categories of 'empire' and 'imperialism'. Its chapters, written by leading scholars in the field, draw methodologically from recent studies in environmental history, post-colonial theory and the history of science. Together, these perspectives provide a comprehensive historical understanding of how the British Empire reshaped the globe during the 19th and 20th centuries. This book will be an important addition to the literature on British imperialism and global ecological change.

**The Making and Remaking of Australasia** Tony Ballantyne 2022-11-03 This book explores the emergence of 'Australasia' as a way of thinking about the culture and geography of this region. Although it is frequently understood to apply only to Australia and New Zealand, the concept has a longer and more complicated history. 'Australasia' emerged in the mid-18th century in both French and British writing as European empires extended their reach into Asia and the Pacific, and initially held strong links to the Asian continent. The book shows that interpretations and understandings of 'Australasia' shifted away from Asia in light of British imperial interests in the 19th century, and the concept was adapted by varying political agendas and cultural visions in order to reach into the Pacific or towards Antarctica. *The Making and Remaking of Australasia* offers a number of rich case studies which highlight how the idea itself was adapted and moulded by people and texts both in the southern hemisphere and the imperial metropole where a range of competing actors articulated divergent visions of this part of the British Empire. An important contribution to the cultural history of the British Empire, Australia, New Zealand and Pacific Studies, this collection shows how 'Australasia' has had multiple, often contrasting, meanings.
