

Showbiz Goes To War

Whispering the Strategies of Language: An Mental Quest through **Showbiz Goes To War**

In a digitally-driven earth where displays reign supreme and immediate conversation drowns out the subtleties of language, the profound strategies and psychological subtleties concealed within phrases usually go unheard. Yet, nestled within the pages of **Showbiz Goes To War** a charming literary treasure pulsing with fresh thoughts, lies an exceptional journey waiting to be undertaken. Written by a talented wordsmith, this wonderful opus invites visitors on an introspective trip, gently unraveling the veiled truths and profound influence resonating within ab muscles material of each and every word. Within the emotional depths of this poignant evaluation, we can embark upon a heartfelt exploration of the book is core subjects, dissect its charming writing type, and succumb to the powerful resonance it evokes heavy within the recesses of readers hearts.

Albion's Dance Karen Eliot
2016 Exploring the ballet boom in Britain during WWII, this book asks how art and artists thrive during conflict. Author Karen Eliot shows how ballet in Britain flourished during war, exhibiting a surprising heterogeneity and vibrant populism. The book focuses especially on the roles of dance

critics, male and female dancers, producers, audiences, and choreographers.

is relentless, cold-hearted, street-smart and vicious beyond description. But will his treacherous acumen also become his undoing? From a young age he's been told by his mother, AMELIA, that he's the heir to the family's dynasty, but the young wolf lacks the patience to wait. With big plans, Showbiz hits the grimy, unforgiving ghettos of New York on a twofold mission. First he must conquer the game from borough to borough. Then, he'll attempt the unthinkable. With ruthless and lethal aggression, Showbiz comes for his father's throne. Love, loyalty nor a familial bond can dissuade him. But Chico is not to be tested without severe consequences. Who will survive this interpersonal war, father or son? Only one can be KING OF NEW YORK.

Showbiz Politics Kathryn Cramer Brownell 2014-11-24
Conventional wisdom holds that John F. Kennedy was the first celebrity president, in no small part because of his innate television savvy. But, as

Kathryn Cramer Brownell shows, Kennedy capitalized on a tradition and style rooted in California politics and the Hollywood studio system. Since the 1920s, politicians and professional showmen have developed relationships and built organizations, institutionalizing Hollywood styles, structures, and personalities in the American political process. Brownell explores how similarities developed between the operation of a studio, planning a successful electoral campaign, and ultimately running an administration. Using their business and public relations know-how, figures such as Louis B. Mayer, Bette Davis, Jack Warner, Harry Belafonte, Ronald Reagan, and members of the Rat Pack made Hollywood connections an asset in a political world being quickly transformed by the media. Brownell takes readers behind the camera to explore the negotiations and relationships that developed between key Hollywood insiders and presidential

Innovation Victor Emeljanow
2017-10-14 This book examines the relationship between wartime conflict and theatre practices. Bringing together a diverse collection of essays in one volume, it offers both a geographically and historically wide view of the subject, taking examples from Britain, Australia and America to the Middle East, Korea and China, and spanning the fifth century BCE to the present day. It explores the ways in which theatre practices have been manipulated for use in political and military propaganda, such as the employment of scenographers to work on camouflage and the application of acting methods in espionage training. It also maps the change in relationships between performers and audiences as a result of conflict, and the emergence of new forms of patronage during wartime theatre-going, boosting morale at periods when social structures and identity were being destabilized.

Journalism and Celebrity

Bethany Usher 2020-10-18 This insightful book traces the development of journalism and celebrity and their relationship to and influence on political and social spheres from the beginnings of capitalist democracy in the 18th century to the present day. Journalism and Celebrity provides the first account of its kind, revealing the people, places, platforms, and production practices that created celebrity journalism culture, following its origins in the London-based press to its reinvention by the American mass media. Through a transdisciplinary approach to theory and method, this book argues that those who place celebrity in binary to what journalism should be often miss the importance of their mutual dependency in making our societies what they are. Including historical and contemporary case studies from the UK and US, this book is excellent reading for journalism, communication, media studies, and history students, as well as scholars in the fields of journalism,

troupe and its evolution from the roots of European popular traditions such as the commedia dell'arte and minstrelsy, to links between music hall and contemporary popular culture. Tony Lidington will explore how pierrot troupes grew from a single idea into a major international cultural industry and how it boosted morale and national identity during the two World Wars, before sublimating into contemporary pop music and comedy. Tony's continuing practice as research provides an experiential framework for the historical and ethnographic analysis of the form. This book will be of vital interest to students, researchers, and performers of outdoor (al fresco) arts, clowning and comedy, minstrelsy, vernacular music-making and music hall.

The Road Movie Book Steven Cohan 2002-01-04 The Road Movie Book is the first comprehensive study of an enduring but ever-changing Hollywood genre, its place in American culture, and its

legacy to world cinema. The road and the cinema both flourished in the twentieth century, as technological advances brought motion pictures to a mass audience and the mass produced automobile opened up the road to the ordinary American. When Jean Baudrillard equated modern American culture with 'space, speed, cinema, technology' he could just as easily have added that the road movie is its supreme emblem. The contributors explore how the road movie has confronted and represented issues of nationhood, sexuality, gender, class and race. They map the generic terrain of the road movie, trace its evolution on American television as well as on the big screen from the 1930s through the 1980s, and, finally, consider road movies that go off the road, departing from the US landscape or travelling on the margins of contemporary American culture. Movies discussed include: * Road classics such as It Happened One Night, The Grapes of Wrath, The Wizard of

Cinema's Military Industrial Complex Haidee Wasson 2018-01-23 The vast, and vastly influential, American military machine has been aided and abetted by cinema since the earliest days of the medium.

The US military realized very quickly that film could be used in myriad ways: training, testing, surveying and mapping, surveillance, medical and psychological management of soldiers, and of course, propaganda. Bringing together a collection of new essays, based on archival research, Wasson and Grieveson seek to cover the complex history of how the military deployed cinema for varied purposes across the the long twentieth century, from the incipient wars of US imperialism in the late nineteenth century to the ongoing War on Terror. This engagement includes cinema created and used by and for the military itself (such as training films), the codevelopment of technologies (chemical, mechanical, and digital), and the use of film (and related mass media) as a key aspect of American "soft power," at home and around the world. A rich and timely set of essays, this volume will become a go-to for scholars interested in all aspects of how the military creates and uses

Sport and the Home Front

Matthew Taylor 2020-05-31

Sport and the Home Front contributes in significant and original ways to our understanding of the social and cultural history of the Second World War. It explores the complex and contested treatment of sport in government policy, media representations and the everyday lives of wartime citizens. Acknowledged as a core component of British culture, sport was also frequently criticised, marginalised and downplayed, existing in a constant state of tension between notions of normality and exceptionality, routine and disruption, the everyday and the extraordinary. The author

argues that sport played an important, yet hitherto neglected, role in maintaining the morale of the British people and providing a reassuring sense of familiarity at a time of mass anxiety and threat.

Through the conflict, sport became increasingly regarded as characteristic of Britishness; a symbol of the 'ordinary' everyday lives in defence of which the war was being fought. Utilised to support the welfare of war workers, the entertainment of service personnel at home and abroad and the character formation of schoolchildren and young citizens, sport permeated wartime culture, contributing to new ways in which the British imagined the past, present and future. Using a wide range of personal and public records - from diary writing and club minute books to government archives - this book breaks new ground in both the history of the British home front and the history of sport.

Real Lives, Celebrity Stories

Bronwen Thomas 2015-07-30 Explores the processes by which we narrate our own lives and the lives of others; our motives; and the role of media.

Transnational Celebrity Activism in Global Politics

Liza Tsaliki 2014-05-27 In recent years, celebrities from George Clooney to Bono to Angelina Jolie have attempted to play an increasingly important role in global politics. Celebrity activism is an ever-growing, internationally visible phenomenon—yet the impact of these high-profile humanitarians on public

awareness, government support, and mobilization of resources remains under-researched. Bringing together a diverse group of contributors from media studies and public diplomacy, Transnational Celebrity Activism aims to fill that void with a new interdisciplinary framework for the analysis of celebrity activism in international relations.
