Kathleen of the Outer Banks Capt. Gardner Martin Kelley 2012-01-13
Kathleen Olsen called Svenska Flicker by her grandmother is of Swedish stock. The old grandmother wants better than a shack on these beautiful Outer Banks Sea Shores; she wants her to have the whole world, as she did sailing with her husband. Kathleen is guarded well, not allowed to run loose as are many of the young girls of the Outer Banks. She is pure and innocent when a young captain flaunts his skill and daring to bring his schooner, white sails full into the inlet. Kathleen sees the captain and his ship, as her prince charming on his white charger. It was love at first sight and the romance blossoms. Married, the lovers sail on and on. Then Svenska shows a wild streak in her so demure ways and has to be punished. All is forgiven, the crew was happy. Then tragedy strikes, Kathleen dives from aloft in the rigging and hits the rail. Broken and bloody she is almost feed for the sharks. Bunk ridden, Kathleen tries to kill herself; she wants to set her young husband free to live a life without an invalid wife. Captain Kelley saves a man from being killed by muggers while docked in New York. He was once a famed surgeon turned into a drunk; he is signed on as ship doctor. He tends and studies Kathleen. Months later as a skilled surgeon again he operates on Kathleen's ailments. The good doctor is so pleased and once more acclaimed. He makes the down payment on a small freighter for the man that saved his life, and the little lady that gave him back his confidence. The good doctor waved good bye as the small freighter weighed anchor. Kathleen was tucked under her Captains arm as the ship turned into the sinking sun.

Shipwrecks, Disasters and Rescues of the Graveyard of the Atlantic and Cape Fear Norma Elizabeth 2014-05-01 Over the centuries, seamen have feared the waters off North Carolina's Outer Banks. This book chronicles the most famous shipwrecks and rescues in the "Graveyard of the Atlantic."

Encyclopedia of Civil War Shipwrecks W. Craig Gaines 2008-04 On the evening of February 2, 1864, Confederate Commander John Taylor Wood led 250 sailors in two launches and twelve boats to capture the USS Underwriter, a side-wheel steam gunboat anchored on the Neuse River near New Bern, North Carolina. During the ensuing fifteen-minute battle, nine Union crewmen lost their lives, twenty were wounded, and twenty-six fell into enemy hands. Six Confederates were captured and several wounded as they stripped the vessel, set it ablaze, and blew it up

while under fire from Union-held Fort Anderson. The thrilling story of USS Underwriter is one of many involving the numerous shipwrecks that occupy the waters of Civil War history. Many years in the making, W. Craig Gaines's *Encyclopedia of Civil War Shipwrecks* is the definitive account of more than 2,000 of these American Civil War--period sunken ships. From Alabama's USS Althea, a Union steam tug lost while removing a Confederate torpedo in the Blakely River, to Wisconsin's Berlin City, a Union side-wheel steamer stranded in Oshkosh, Gaines provides detailed information about each vessel, including its final location, type, dimensions, tonnage, crew size, armament, origin, registry (Union, Confederate, United States, or other country), casualties, circumstances of loss, salvage operations, and the sources of his findings. Organized alphabetically by geographical location (state, country, or body of water), the book also includes a number of maps providing the approximate locations of many of the wrecks -- ranging from the Americas to Europe, the Arctic Ocean, and the Indian Ocean. Also noted are more than forty shipwrecks whose locations are in question. Since the 1960s, the underwater access afforded by SCUBA gear has allowed divers, historians, treasure hunters, and archaeologists to discover and explore many of the American Civil War-related shipwrecks. In a remarkable feat of historical detective work, Gaines scoured countless sources -- from government and official records to sports diver and treasure-hunting magazines -- and cross-indexes his compilation by each vessel's various names and nicknames throughout its career. An essential reference work for Civil War scholars and buffs, archaeologists, divers, and aficionados of naval history, *Encyclopedia of Civil War Shipwrecks* revives and preserves for posterity the little-known stories of these intriguing historical artifacts.

Shipwrecks of the Outer Banks James D. Charlet 2020-02-15 More than 6,000 ships have met their doom in the waters along the North Carolina coast, weaving a rich history of tragedy, drama, and heroics along these picturesque beaches. Men have lost their lives and fortunes, and heroes have been made where the combination of mixing currents, treacherous coastline and shifting underwater sandbars spells disaster for even the most seasoned sailor. These are the stories of daring rescues, tragic failures, enduring mysteries, buried treasure, and fascinating legends. *Shipwrecks and Lost Treasures - Outer Banks* Bob Brooke 2007-10 A collection of fascinating true stories about the mysteries of shipwrecks and lost treasure in the Outer Banks.

The Civil War on the Outer Banks Fred M. Mallison 1998 The ports at Beaufort, Wilmington, New Bern and Ocracoke, part of the Outer Banks (a chain of barrier islands that sweeps down the North Carolina coast from the Virginia Capes to Oregon Inlet), were early involved in the chaos that grew into the Civil War. Though smaller than their counterparts in South Carolina, the small river ports were useful for the import of war materiel and the export of cash producing crops, through their use of the inlets that led from sounds to sea. Written from official records, contemporary newspaper accounts, personal journals of the soldiers, and many unpublished manuscripts and memoirs, this is a full accounting of the Civil War along the North Carolina coast.

Ocracoke Shipwreck Database and Remote Sensing Survey 2005 "This opportunity was afforded when the NOAA National Marine Sanctuary Program, the Office of Naval Research, and the U. S. Navy Submarine Forces Atlantic teamed to initiate a search for the U. S. Navy's, first submarine, the U. S. S. Alligator, lost in 1863 south of Cape Hatteras. ... The Ocracoke database and remote sensing survey project produced a database of about 2,000 shipwrecks lost off the North

Carolina coast. Fieldwork centered on the area of Ocracoke Inlet because of the concentration of vessels lost there in the colonial period likely to be historically significant. The project provided the opportunity for graduate students in the East Carolina University Program in Maritime Studies and PhD students from the Coastal Resources Management Program to participate in historical research and fieldwork aboard vessels." -- pages 140, 141, 142.

Blackbeard's Sunken Prize Mark U. Wilde-Ramsing 2018-04-10 In 1717, the notorious pirate Blackbeard captured a French slaving vessel off the coast of Martinique and made it his flagship, renaming it Queen Anne's Revenge. Over the next six months, the heavily armed ship and its crew captured all manner of riches from merchant ships sailing the Caribbean to the Carolinas. But in June 1718, with British authorities closing in, Blackbeard reportedly ran Queen Anne's Revenge aground just off the coast of what is now North Carolina's Fort Macon State Park. What went down with the ship remained hidden for centuries, as the legend of Blackbeard continued to swell in the public's imagination. When divers finally discovered the wreck in 1996, it was immediately heralded as a major find in both maritime archaeology and the history of piracy in the Atlantic. Now the story of Queen Anne's Revenge and its fearsome captain is revealed in full detail. Having played vital roles in the shipwreck's recovery and interpretation, Mark U. Wilde-Ramsing and Linda F. Carnes-McNaughton vividly reveal in words and images the ship's first use as a French privateer and slave ship, its capture and use by Blackbeard's armada, the circumstances of its sinking, and all that can be known about life as an eighteenth-century pirate based on a wealth of artifacts now raised from the ocean floor.

Shipwrecks of the Outer Banks National Geographic Maps 2012-01-01 Shipwrecks of the Outer Banks is a stunning map illustrating the known shipwrecks of the Atlantic Coast from Cape Henry, Virginia to Cape Fear, North Carolina. The shipwrecks are clearly marked atop beautiful bathymetric and coastal detail. Each wreck site is symbolized to define the class, type and name of vessel accompanied by the date of sinking. Icons also indicate whether a ship was lost due to conflict or natural causes. Locations of lifesaving stations and lighthouses, along with navigational beacons are also marked. Bathymetric and coastal features are clearly labeled. Captions and drawings are used to highlight unique historical events. Whether a naval buff, educator, amateur historian, mariner or someone simply enamored with the captivating power of the sea, Shipwrecks of the Outer Banks would make a great gift or a perfect addition to your map collection. Shipwrecks of the Outer Banks is available in four different versions: rolled; rolled in a clear plastic presentation tube; laminated; or folded in a polysleeve bag. Each map is printed in the United States on high-quality paper and is printed with environmentally-friendly low VOC inks. Net proceeds from the sale of this map go to support the nonprofit mission of the National Geographic Society.

Shipwrecks and Submerged Cultural Resources In and Around Pensacola, Florida Douglas E. Campbell 2016-10-20 The Maritime Education and Research Society (MERS) is a non-profit 501(c)(3) organization whose aims and objectives are to research and to advance education and training in the techniques pertaining to the study of

various maritime fields of endeavor for the benefit of the public. This MERS Research Publication No. 003 (MRP 003) researches and catalogs the ships, aircraft and other items of interest that now mostly rest underwater along Florida's Gulf Shores from Perdido Bay to Cape San Blas - across six Florida counties. The book is in chronological order, beginning with the possible wreck of some Spanish ships in 1533 "between Pensacola and Mobile Bay" to the present. This research describes more than 700 individual seafaring vessels and aircraft wrecks as well as hundreds of other items used in making artificial reefs - automobile hulks, reef balls, bridge rubble, dismantled oil rigs, etc. *The Nautical Cyclopedia* Gary Gentile 1995 A compendium of data, definitions, descriptions, information, & trivial knowledge about ships, boats, & man's commercial & recreational involvement with the sea. More than a simple dictionary of words, this volume is a blend of terms & phrases used by marine architects, ship building consultants, naval personnel, merchant seamen, oceanographers, & the like. Written in plain English, using language which the average reader can understand, drawing analogies from everyday life, & profusely illustrated in color, this book is ideally suited for those who are gripped by the lore of the sea: divers, history buffs, armchair explorers, ship enthusiasts, readers of nautical tales, & people of all ages. This handy reference manual is an indispensable guide through the esoteric terminology of the mariner's trade--but written so it can be understood by everyone. Thus a bulkhead is described as a waterproof wall, a hull is equivalent to the floor & walls of a basement, a gudgeon is a hinge, & metacentric height is...well, not every concept can be easily explained in layman's terms. Also included are alternative spellings, proper pronunciations, usage examples, synonyms, antonyms, & comparatives. Available direct (postage paid) from the publisher: GGP, P.O. Graveyard of the Atlantic David Stick 2000-11-09 This is a factual account, written in the pace of fiction, of hundreds of dramatic losses, heroic rescues, and violent adventures at the stormy meeting place of northern and southern winds and waters -- the Graveyard of the Atlantic off the Outer Banks of North Carolina.

Mysterious Tales of Coastal North Carolina Sherman Carmichael 2018 Master storyteller Sherman Carmichael ventures into the Tar Heel State to deliver strange and mysterious tales along the coast. Read about shipwrecks such as that of the SS Liberator, which still sits at the bottom of the ocean off the coast of Diamond Shoals, and legendary storms like the 1911 Water Spouts, which were described as tornadoes spinning wildly atop the ocean. Find out why the Cape Hatteras Lighthouse is said to be haunted by a large black cat. Learn about the origins of Boo Hag, a fiendish creature that sucks the life out of her victims as they sleep at night--a tale that originates from the rich Gullah culture of the Carolinas. Join Carmichael as he contemplates these stories and more from the mysterious side of North Carolina's beloved coastal counties.

Outer Banks Shipwrecks Mary Ellen Riddle 2017-04-03 Ever since ships began navigating the coast of North Carolina, the area has maintained a reputation for being dangerous. Today, the region that stretches from the Currituck Outer Banks south to Bogue Banks is referred to as the "Graveyard of the Atlantic." From the 1585 grounding of the English ship Tiger off the Outer Banks to the 2012 loss of the Bounty, more than 2,000 shipwrecks have occurred in the Graveyard of the Atlantic. Weather, geography, war, piracy, and human error have all contributed to this dense shipwreck zone. The stories behind the shipwrecks illustrate the best and worst of mankind, showing courage and compassion as well as the atrocities of war. This history informs readers about commerce, technology, war, environment, maritime life, and the complexity of the human element.

The Outer Banks Sea Gypsies Capt. Gardner Martin Kelley 2011-08-01 This story of adventure is of the last days of the cargo sailing schooners that carried freight to all ports of the world. Captain Ficketts son, Ron is swept overboard, to drift ashore on the desolate Outer Banks of North Carolina. The ship is wrecked, later several miles below Cape Hatteras (The Graveyard of the Atlantic). The captain is murdered as he tries to get ashore. Johnny Mapp, one of the many squatters, remnants of Sir Walter Raleigh's Lost Colony, sees the murder. He was worried of being implicated should an investigation begin. He uses the ship tool chest loot and his share of the lumber cargo to build a raft houseboat. He liked the simple way of life here on this barrier of ocean side sand with oak trees and myrtle bushes. Johnny, with his family leaves it all behind; they have adventure and learning to do as the raft moves south. The young daughter is kidnapped by hard case rum runners from Cuba; to sell to the White Slave Market. She escapes her abusers, and adapts to the roll

of a mute, Tiar of the Street Kids. She does what is necessary to stay alive, hoping to get back to her family, somewhere along the waterway. Now the young girl is with child; she wants to go home and see her mother. She has acquired the carnal knowledge of a Havana Whore. Some good luck comes her way. She hears of a plot to kill an old sea dog for his small sailing yacht. She saves the old captain's life and he rewards her by sailing her home to her mother, to care for and raise the boy child. Cissy becomes Queen Tiar of the Rum Runners. She returns to her mother at the Pink Plantation that she bought with her captors' money to live with her family. This is her story too. Ron hears the truth of his father's murder from Johnny Mapp, he gets revenge and justice. The waves roll up and down the sand at the Outer Banks as it has done, and will do, forever more.

The Outer Banks of North Carolina, 1584-1958 David Stick 2015-01-01 The Outer Banks have long been of interest to geologists, historians, linguists, sportsmen, and beachcombers. This long series of low, narrow, sandy islands stretches along the North Carolina coast for more than 175 miles. Here on Roanoke Island in the 1580s, the first English colony in the New World was established. It vanished soon after, becoming the famous "lost colony." At Ocracoke, in 1718, the pirate Blackbeard was killed; at Hatteras Inlet and Roanoke Island important Civil War battles were fought; at Kitty Hawk and Kill Devil Hills the Wright brothers experimented with gliders and in 1903 made their epic flight. The Graveyard of the Atlantic, scene of countless shipwrecks, lies all along the ever-shifting shores of the Banks. This is the fascinating story of the Banks and the Bankers; of whalers, stockmen, lifesavers, wreckers, boatmen, and fishermen; of the constantly changing inlets famous for channel bass fishing; and of the once thriving Diamond City that disappeared completely in a three-year period.

Encyclopedia of Western Atlantic Shipwrecks and Sunken

Treasure Victoria Sandz 2006-10-11 From aerial survey to zoology, Part I of this two-part encyclopedia covers all aspects of underwater archeology, treasure hunting and salvaging. For example, entries are included for different types of artifacts, notable treasure hunters, the various salvaging equipment, and techniques in mapping and excavating. Part II covers the shipwrecks themselves, dividing them into 13 geographical categories. Beginning with the northernmost category (Canada) and ending with the southernmost (South America), every known shipwreck--both identified and unidentified--receives an entry in alphabetical order under its appropriate geographical category. Entries are by name, such as Andrea Gail, Titanic, and Queen Ann's Revenge. Unidentified is used when a shipwreck's name remains unknown. Entries give the nationality (e.g., Spanish, British, American), type (schooner, frigate, brig are three), function (examples: slave transportation, piracy, fishing), location and history of the shipwreck.

[Outer Banks Scenic Byway](#) Douglas Stover 2016-04-25 The Outer Banks National Scenic Byway stretches the length of North Carolina's 200-mile barrier islands. The unique maritime culture shared by the 21 coastal villages led to the road's designation as a National Scenic Byway in 2009. The route is entered from the north at Whalebone Junction in Nags Head, North Carolina, and from the south at the North River Bridge on US 70 East, just past Beaufort, North Carolina. Encompassing 142.5 driving miles, six and a half hours of travel time, and two ferries, the byway traverses Hatteras Island, Ocracoke, and Down East in Dare County and Hyde and Carteret Counties. This book explores the region's rich maritime history, culture, and traditions, such as boatbuilding, decoy carving, fishing, lighthouse-keeping, and living with the powerful forces of water and wind. Travelers can experience local seafood, ascend three lighthouses, and discover outdoor trails and endless miles of marsh and beaches offering bird-watching and solitude.
