Louis Comfort Tiffany and Laurelton Hall Alice Cooney Frelinghuysen 2006 Laurelton Hall, Louis Comfort Tiffany's (American, 1848-1933) extraordinary country estate in Oyster Bay, New York, completed in 1905, was the epitome of

Tiffany's achievement and in many ways defined this multifaceted artist. Tiffany designed every aspect of the project inside and out, creating a total aesthetic environment. This publication accompanies an exhibition that reveals Tiffany's most personal art, bringing into focus this

remarkable artist who lavished as much care and creativity on the design and furnishing of his home and gardens as he did on all the wide-ranging media in which he worked. Although the house tragically burned to the ground in 1957, many of its surviving architectural elements and interior characteristics are included in this volume. Also featured are Tiffany's personal collections of his own work-breathtaking stained-glass windows, paintings, glass and ceramic vases-as well as the artist's collections of Japanese, Chinese, and Native American works of art. -- Metropolitan Museum of Art website. [The Art Work of Louis C. Tiffany \(Classic Reprint\)](#) 2018-11-24 Excerpt from The Art Work of Louis C. Tiffany This volume is not written for the public, but for the children of Louis Comfort Tiffany and at their request. Much concerning their own father which may be known to his fellow artists or to workers in various fields of art, or to persons in different employments and separate ranks of life, is unknown to them. No

reason for surprise in this: it is the commonest thing in the world to find that the last persons to be informed of what a professional man has achieved in his life work are his children. For the former, more than any other man, uses his home as a rest and refuge from the ideas that beset him at his daily task. With his nearest and dearest he rarely if ever talks shop. What more natural, then, for them to discover with something of a shock that if anything should happen to their father they would be left without a record of the various lines of endeavor he pursued? It is this condition confronting them which caused their father to listen to their reproaches and overcome his natural dislike for anything that savors of self-seeking and agree to the printing of a book which is to some extent a biography but primarily a record. Louis Comfort Tiffany Joan Elliot Price 1996 "Louis Comfort Tiffany: The Painting Career of a Colorist" traces the four developmental stages of Tiffany's (1848-1933) painting style. Citing the impact of George Inness and Samuel Colman upon Tiffany's early career, this book explains how Tiffany combines traditional painting methods, influenced by the color and prismatic iridescence of glass, and theories of color-light optics, to create shimmering pastels and paintings. Tiffany's final work uses jewel-like color to illustrate landscapes, interiors, and images of virtuous women. The paintings are a visual record of his journeys to Europe, North Africa, and Canada.

American Art Pottery Alice Cooney Frelinghuysen 2018-09-25 p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana} At the height of the Arts and Crafts era in Europe and the United States, American ceramics were transformed from industrially produced ornamental works to handcrafted art pottery. Celebrated ceramists such as George E. Ohr, Hugh C. Robertson, and M. Louise McLaughlin, and prize-winning potteries, including Grueby and Rookwood, harnessed the potential of the medium to create an astonishing range of dynamic forms and experimental glazes. Spanning the period from the 1870s to the 1950s, this volume chronicles the history of American art pottery through more than three hundred works in the outstanding collection of Robert A. Ellison Jr. In a series of fascinating chapters, the authors place these works in the context of turn-of-the-century commerce, design, and social history. Driven to innovate and at times fiercely competitive, some ceramists

strove to discover and patent new styles and aesthetics, while others pursued more utopian aims, establishing artist communities that promoted education and handwork as therapy. Written by a team of esteemed scholars and copiously illustrated with sumptuous images, this book imparts a full understanding of American art pottery while celebrating the legacy of a visionary collector.

American Glass John Stuart Gordon 2018-01-01

"Glass can be decorative or utilitarian, and its forms often reflect technological innovations and social change. Drawing on an insightful selection from the Yale University Art Gallery and other collections at Yale, *American Glass* illuminates the vital and often intimate roles that glass has played in the nation's art and culture.

Spectacularly illustrated, the publication showcases eighteenth-century mold-blown vessels, nineteenth-century pressed glass, innovative studio work, and luminous stained-glass windows by John La Farge and Louis

Comfort Tiffany, the latter reproduced as a lush gatefold. These are considered alongside beguiling objects that broaden our expectations of glass and speak to the centrality of the medium in American life, including one of the oldest complex microscopes in the United States, an early Edison light bulb, glass-plate photography, jewelry, and more. With an essay on the history of collecting American glass and discussions of each object that present new scholarship, this engaging book tells the long and rich history of glass in America--from prehistoric minerals to contemporary sculptures"--Dust jacket front flap.

Tiffany's Glass Mosaics Kelly A. Conway
2017-04-25 Louis C. Tiffany was one of America's most acclaimed artists and businessmen working in the late nineteenth and early twentieth centuries. He directed an artistic empire in the design and creation of leaded-glass windows, lamps, blown glass vessels, objects of luxury, and mosaics--one of his most innovative expressions in the medium of glass. Tiffany's Glass Mosaics features essays from noted scholars and curators who, for the first time, investigate the breadth of mosaic production at the company from the 1880s

through the 1930s. A detailed appendix lists all of the known public, ecclesiastical, and residential commissions executed by Tiffany's firm. The publication is richly illustrated with objects from major museums, libraries, and private collections in the United States and Europe. Many of these large-scale murals have never before been photographed or published.

The "Lost" Treasures of Louis Comfort Tiffany Hugh McKean 2002 This book reevaluates Tiffany's art in terms of his personal work-including pieces in all the media that attracted him over the course of his prolific career; stained glass, of course, but also mosaics, blown glass, pottery, jewelry, and enamels. Tiffany's pioneering efforts in interior design are covered, as are his easel paintings

and his doomed but inspiring dream of creating a permanent residential retreat for working artists. Hugh F. McKean also provides intimate insight into Tiffany's personality, his domestic life, his financial dealings, and his unusual philosophy of art.

Clara and Mr. Tiffany Susan Vreeland
2012-03-20 NATIONAL BESTSELLER It's 1893, and at the Chicago World's Fair, Louis Comfort Tiffany makes his debut with a luminous exhibition of innovative stained-glass windows that he hopes will earn him a place on the international artistic stage. But behind the scenes in his New York studio is the freethinking Clara Driscoll, head of his women's division, who conceives of and designs nearly all of the iconic leaded-glass lamps for which Tiffany will long be remembered. Never publicly acknowledged, Clara struggles with her desire for artistic recognition and the seemingly insurmountable challenges that she faces as a professional woman. She also yearns for love and

companionship, and is devoted in different ways to five men, including Tiffany, who enforces a strict policy: He does not employ married women. Ultimately, Clara must decide what makes her happiest—the professional world of her hands or the personal world of her heart.

The Lamps of Louis Comfort Tiffany Louis Comfort Tiffany 2005-10-19 This is the first book devoted to Tiffany lamps in more than 20 years. Experts in the field have made a selection of exceptional lamps-many of which have rarely been seen or published-and each one has been newly photographed with the latest photographic techniques to reveal in extraordinary detail the artistic quality and high craftsmanship of these masterpieces of decorative art. Martin Eidelberg and Alice Cooney Frelinghuysen have contributed essays on the history of the lamps, enlarging our understanding of Louis Comfort Tiffany's achievement. They have also drawn upon a host of previously unpublished photographs,

paintings, and watercolors by Tiffany and other artists in his employ, as well as on working drawings and studio photographs, to evoke the lost gardens and interiors of Tiffany's country estate, Laurelton Hall, that so inspired him. They outline the development and manufacture of the Tiffany lamp from freehand sketch to the finished form, as well as the chief decorative themes in Tiffany's glass masterpieces and their relation to the work of other fin de siècle glassmakers. In this book, light, color, and the inspiration of nature co-mingle to produce a deliciously sensuous experience.

Collecting Inspiration: Edward C. Moore at Tiffany & Co. Medill Higgins Harvey

2021-07-06 Edward C. Moore (1827-1891) was the creative leader who brought Tiffany & Co. to unparalleled originality and success during the late nineteenth century. A silversmith, designer, and prodigious collector, Moore sought out exceptional objects from around the world, which he then used as inspiration for Tiffany's innovative silver designs. This informative, richly illustrated volume, the first study of Moore's life, collection, and influence, presents more than 170 examples from his vast collection, ranging from Greek and Roman glass to Spanish vases, Islamic metalwork, and Japanese textiles. These are juxtaposed with sixty magnificent silver

objects created by the designers and artisans at Tiffany who were inspired by Moore's acquisitions. Included among them are the world-famous Bryant Vase drawing upon Greek examples, a love cup featuring ornate "Saracenic" decoration, and a chocolate pot incorporating novel techniques influenced by Japanese ceramics and lacquerware. The illuminating texts have been enriched by groundbreaking research into contemporary sources such as newspapers and periodicals, the Tiffany & Co. Archives, and a newly identified technical manual and supervisor's diaries, all of which provide an intimate look at the firm's design processes and Moore's role in shaping them. A valuable contribution to the history of American decorative arts, *Collecting Inspiration* illuminates both the legendary Tiffany aesthetic and the legacy of a significant collector, designer, and entrepreneur of the Gilded Age. The Essential William Warmus 2001-09-01 In a portrait filled with surprises, we learn about the

A New Light on Tiffany Martin P. Eidelberg 2007 Louis Comfort Tiffany (1848-1933) is celebrated today as one of the most influential creative designers of the late 19th- and early 20th-centuries. *A New Light on Tiffany: Clara Driscoll and the Tiffany Girls* presents the celebrated works of Tiffany Studios in an entirely new context, focusing on the "Tiffany Girls", the 27 women who laboured behind the scenes to create the masterpieces now inextricably linked to the Tiffany name. Recently discovered

correspondence written by Ohio-born Clara Driscoll, head of the so-called "Women's Glass Cutting Department" at Tiffany Studios, reveals in convincing and vivid detail how it was in fact Driscoll who generated designs for such masterpieces as the famous Wisteria, Dragonfly and Peony goods. At the heart of the book are over 50 Tiffany lamps, windows, ceramics, enamels and mosaics, supplemented by a wide array of related documents and archival photographs.
