contribution to our  
understanding of ourselves.

This book explores the realm of human behavior in social situations and the way that we appear to others. Dr. Goffman uses the metaphor of theatrical performance as a framework. Each person in everyday social intercourse presents himself and his activity to others, attempts to guide and control the impressions they form of him, and employs certain techniques in order to sustain his performance, just as an actor presents a character to an audience. The discussions of these social techniques offered here are based upon detailed research and observation of social customs in many regions.

### **Letters to a Young Journalist**

Samuel G. Freedman 2011-11-08 Over the course of a thirty-year career, Samuel Freedman has excelled both at doing journalism and teaching it, and he passionately engages both of these endeavors in the pages of this book. As an author and journalist, Freedman has produced award-winning books, investigative series,

opinion columns, and feature stories and has become a specialist in a wide variety of fields. As a teacher, he has shared his expertise and experience with hundreds of students, who have gone on to succeed in both print and broadcast media. In *Letters to a Young Journalist*, Freedman conducts an extended conversation with young journalists—from kids on the high school paper to graduates starting their first jobs. Whether he's talking about radio documentaries or TV news shows, Internet blogs, or backwater beats, shoeleather research or elegant prose, his goal is to explore the habits of mind that make an excellent journalist. It is no secret that journalism's mission is seriously imperiled these days, and Freedman's provocative ideas and fascinating stories offer students and journalists at all levels of experience wise guidance and professional inspiration.

*Laboratory Life* Bruno Latour

2013-04-04 This highly original work presents laboratory science in a deliberately skeptical way: as an anthropological approach to the culture of the scientist. Drawing on recent work in literary criticism, the authors study how the social world of the laboratory produces papers and other "texts," and how the scientific vision of reality becomes that set of statements considered, for the time being, too expensive to change. The book is based on field work done by Bruno Latour in Roger Guillemin's laboratory at the Salk Institute and provides an

important link between the sociology of modern sciences and laboratory studies in the history of science.

**Alpana Pours** Alpana Singh

2014-05-01 "A primer on everything the wine-phobic woman needs to know . . .

Probably the only wine book out there that could be excerpted in Cosmo."

—Chicago Reader Alpana Singh is uniquely qualified to talk about wine, contemporary women and relationships. At age twenty-six, she became the youngest woman to be inducted into the world's most exclusive sommelier organization, the Court of

Master Sommeliers. She spent

five years as sommelier at a world-famous four-star restaurant, Everest of Chicago. While there she closely observed the sometimes humorous, sometimes absurd, social interactions between men and woman at all stages of their relationships. Her mental journal of these "social observations" came in handy as she wrote *Alpana Pours*. *Alpana Pours* reaches readers in playful language they will understand, and in a highly entertaining manner they will enjoy. Women want to know how to select wine when entertaining important clients, pair wine with food they and their partner are preparing together, choose the right wines for hostess gifts, bridal showers, a first meeting with a boyfriend's parents and what wine to, or not to, order on a first date. *Alpana Pours* supplies tips on these and a myriad of other topics including "dating" and "dealing with guys." The book's gender riff on wine and lifestyle is unique and will definitely grab

reader's attention. "Singh's quirky writing makes reading about the correct wine and food pairing more fun than it should be . . . Singh blends wine culture with everyday life, while still illuminating the mysteries and myths of wine. The author's friendly tone welcomes readers who don't know their pinot noir from their peanut butter."
