The Spirit of Freedom Charles Villa-Vicencio 2023-09-01 This collection of interviews explores the role of religion in the lives of eminent South Africans who led the struggle against apartheid. Nelson Mandela, Chris Hani, Desmond Tutu, Nadine Gordimer, and seventeen other political, religious, and cultural leaders share the beliefs and values that informed the moral positions they adopted, often at great cost. From all ethnic, religious, and political backgrounds, these men and women have shaped one of the greatest political transformations of the century. What emerges from the interviews are reflections on all aspects of life in an embattled country. There are stories of the homelands and townships, and tales of imprisonment and exile. Dedicated communists relate their intense youthful devotion to Christianity; Muslim activists discuss the complexity of their relationships with their communities. As the respondents grapple with difficult questions about faith, politics, and authority, they expose a more personal picture: of their daily lives, of their pasts, and of the enormous conflicts that arise in a society that continually strains the moral fiber of its citizens. Taken together, these interviews reveal the many-faceted vision that has fueled South Africa's struggle for democracy.

Encyclopedia of New Religious Movements Peter Clarke 2004-03 New Religious Movements (NRMs) can involve vast numbers of followers and

in many cases are radically changing the way people understand and practice religion and spirituality. Moreover, many are having a profound impact on the form and content of mainstream religion. The *Encyclopedia of New Religious Movements* provides uniquely global coverage of the phenomenon, with entries on over three-hundred movement from almost every country in the world. Coverage includes movements that derive from the major religions of the world and to neo-traditional movements, movements often overlooked in the study of NRMs. In addition to the coverage of particular movements there are also entries on topics, themes, key thinkers and key ideas, for example the New Age Movement, Neo-Paganism, New Religion and gender, NRMs and cyberspace, NRMs and the law, the Anti-Cult Movement, Swedenborg, Jung, Teilhard de Chardin, Lovelock, Gurdjieff, al-Banna, Qutb. The marked global approach and comprehensiveness of the encyclopedia enable an appreciation of the innovative energy of NRMs, of their extraordinary diversity, and the often surprising ways in which they can propagate geographically. The most ambitious publication of its sort, the *Encyclopedia of New Religious Movements* is a major addition to the reference literature for students and researchers of the field in religious studies and the social sciences. Entries are cross-referenced with short bibliographies for further reading. There is a full index. [Terrains of Exchange](#) Nile Green 2014 Examines how encounters

The Arya Samaj Movement in South Africa Thillayvel Naidoo 1992 The Arya Samaj movement is essentially a religious institution but became a significant force in India's religious and secular struggle for social and cultural self-determination. Its founding in 1875 presaged the creation of independent India in 1947. This work does not attempt a detailed examination of the movement but provides an outline of its growth and philosophy in the light of the work of its founder Swami Dayanand Saraswati. the complex of institutions and upliftment programmes initiated by the Samaj and the major historical forces which acted to

shape the movement are a cause for considerable pride. The Arya Samaj was one of several socio-religious movements which were founded in the nineteenth century. It was however responsible for constructing some of the best known educational institutions in north India. The repercussions of this were felt by emigrant Indian communities in such places as mauritius, South Africa and Guyana. What started then as a small religious sect has now grown into a religious denomination of considerable influence. In South Africa the Arya Pratinidhi Sabha is one of the best known Hindu organisations wielding influence among the north Indian segment of the Hindu population.

Global Hindu Diaspora Kalpana Hiralal 2017-08-22 This book examines Hinduism from both a historical and contemporary perspective. It provides some interesting insights into factors that shaped and defined Hinduism in the diaspora. It also examines the challenges facing Hinduism in the twenty-first century. In recent years the growing conversions of Hindus to other religions, the complexities of caste, the impact of AIDS, and the need to reinvigorate the youth in Hindu teachings are just some of the issues that it faces. What shape and form will Hinduism take in the twenty-first century? What will Hinduism look like in the future? These relevant questions are the subject of debate and deliberations amongst religious scholars, academics and politicians. This edited collection addresses some of these questions as well as the relationship between religion and diaspora within historical and contemporary perspectives.

Burning the Dead David Arnold 2021-02-02 Burning the Dead traces the evolution of cremation in India and the South Asian diaspora across the nineteenth and twentieth centuries. Through interconnected histories of movement, space, identity, and affect, it examines how the so-called traditional practice of Hindu cremation on an open-air funeral pyre was culturally transformed and materially refashioned under British rule, following intense Western hostility, colonial sanitary acceptance, and Indian adaptation. David Arnold examines the critical reception of Hindu cremation abroad, particularly in Britain, where India formed a primary

reference point for the cremation debates of the late nineteenth century, and explores the struggle for official recognition of cremation among Hindu and Sikh communities around the globe. Above all, Arnold foregrounds the growing public presence and assertive political use made of Hindu cremation, its increasing social inclusivity, and its close identification with Hindu reform movements and modern Indian nationhood.

Religion and Identity in the South Asian Diaspora Rajesh Rai 2017-07-05

Religious identity constitutes a key element in the formation, development and sustenance of South Asian diasporic communities. Through studies of South Asian communities situated in multiple locales, this book explores the role of religious identity in the social and political organization of the diaspora. It accounts for the factors that underlie the modification of ritual practice in the process of resettlement, and considers how multicultural policies in the adopted state, trans-generational changes and the proliferation of transnational media has impacted the development of these identities in the diaspora. Also crucial is the gender dimension, in terms of how religion and caste affect women's roles in the South Asian diaspora. What emerges then from the way separate communities in the diaspora negotiate religion are diverse patterns that are strategic and contingent. Yet, paradoxically, the dynamic and evolving relationship between religion and diaspora becomes necessary, even imperative, for sustaining a cohesive collective identity in these communities. This book was published as a special issue of South Asian Diaspora.

Antinomies of Modernity Vasant Kaiwar 2003-03-31 Antinomies of Modernity asserts that concepts of race, Orient, and nation have been crucial to efforts across the world to create a sense of place, belonging, and solidarity in the midst of the radical discontinuities wrought by global capitalism. Emphasizing the continued salience at the beginning of the twenty-first century of these supposedly nineteenth-century ideas,

the essays in this volume stress the importance of tracking the dynamic ways that race, Orient, and nation have been reworked and used over time and in particular geographic locations. Drawing on archival sources and fieldwork, the contributors explore aspects of modernity within societies of South Asia, the Middle East, and Africa. Whether considering how European ideas of Orientalism became foundational myths of Indian nationalism; how racial caste systems between blacks, South Asians, and whites operate in post-apartheid South Africa; or how Indian immigrants to the United States negotiate their identities, these essays demonstrate that the contours of cultural and identity politics did not simply originate in metropolitan centers and get adopted wholesale in the colonies.

Colonial and postcolonial modernisms have emerged via the active appropriation of, or resistance to, far-reaching European ideas. Over time, Orientalism and nationalist and racialized knowledges become indigenized and acquire, for all practical purposes, a completely "Third World" patina. Antinomies of Modernity shows that people do make history, constrained in part by political-economic realities and in part by the categories they marshal in doing so. Contributors. Islam, Hinduism, and Judaism in South Africa David Chidester 1997-08-07 A comprehensive guide to three global religions that have established strong local communities in South Africa, this work is a valuable resource for scholars, students in religious studies, African studies, anthropology, and history. Beginning with a general introduction to the immigrant origins, minority status, and global connections of each tradition, the book proceeds to organize and generously annotate the literature according to religion. This volume, combined with two other annotated bibliographies, *African Traditional Religion in South Africa* and *Christianity in South Africa* (both Greenwood, 1997), will become the standard reference text for South African religions. With special attention to historical and social conditions, this work examines the distinctively South African forms of these important minority religions in South Africa. In each section, an introductory essay identifies significant themes. The bibliography annotations that follow are concise yet detailed essays, written in an engaging and accessible style and supported by an exhaustive index. The book, therefore, provides a full and complex profile of three religious traditions that are firmly located in South African history and society.

'Sisters in the Struggle' Kalpana Hiralal 2023-02-10 'Sisters in the struggle': Women of Indian Origin in South Africa's Liberation Struggle 1900-1994 unveils an uncharted historical terrain, highlighting the contributions of Indian women towards non-racialism and equality and their experiences within diverse political parties; therefore, shifting the post-apartheid liberation stories which have been dominated by the journey of the ANC to other political organisations who collectively played a significant role in South Africa's road to democracy. In this book, Hiralal presents a refreshing perspective of Indians, particularly women, as contributors and activists in the struggle. The book elucidates that the struggle against apartheid was a collective endeavour among the oppressed races and not a one-sided endeavour by the ANC. The book, thus, examines the participation of Indian women against apartheid and colonialism within gendered and political frameworks.

Melancholia of Freedom Thomas Blom Hansen 2012-07-22 The end of apartheid in 1994 signaled a moment of freedom and a promise of a nonracial future. With this promise came an injunction: define yourself as you truly are, as an individual, and as a community. Almost two decades later it is clear that it was less the prospect of that future than the habits and horizons of anxious life in racially defined enclaves that determined postapartheid freedom. In this book, Thomas Blom Hansen offers an in-depth analysis of the uncertainties, dreams, and anxieties that have accompanied postapartheid freedoms in Chatsworth, a formerly Indian township in Durban. Exploring five decades of township life, Hansen tells the stories of ordinary Indians whose lives were racialized and framed by the township, and how these residents domesticated and inhabited this urban space and its institutions, during apartheid and after. Hansen demonstrates the complex and ambivalent nature of ordinary township

life. While the ideology of apartheid was widely rejected, its practical institutions, from urban planning to houses, schools, and religious spaces, were embraced in order to remake the community. Hansen describes how the racial segmentation of South African society still informs daily life, notions of race, personhood, morality, and religious ethics. He also demonstrates the force of global religious imaginings that promise a universal and inclusive community amid uncertain lives and futures in the postapartheid nation-state.

Social Movements and the Indian Diaspora Movindri Reddy 2015-11-19 With the elevation of Islam and Muslim transnational networks in international affairs, from the rise of Al Qaeda to the revolutions in North Africa and the Middle East, the study of Diasporas and transnational identities has become more relevant. Using case studies from Fiji, Mauritius, Trinidad and South Africa, this book explores the diaspora identities and impact of social movements on politics and nationalism among indentured Indian diaspora. It analyses the way in which diasporas are defined by themselves and others, and the types of social movements they participate in, showing how these are critical indicators of the threat they are perceived to pose. The book examines the notions of national and transnational identity, and how they are determined by the placement of Diasporas in the transnational locality. It argues that the transnationality intrinsic to diaspora identities mark them as others in the nation-state, and simultaneously separates them from the perceived motherland, thus displacing them from both states and situating them in a transnational locality. It is from this placement that social movements among Diasporas gain salience. As

outsiders and insiders, they are well placed to offer a formidable challenge to the host state, but these challenges are limited by their hybrid identities and perceived divided loyalties. Providing an in-depth analysis of Indian Diasporas, the book will be of interest to those studying South Asian Studies, Migration and Diaspora Studies.

Freedom Fighters of India (in Four Volumes) M G Agrawal 2008 In the long drawn political struggle for the attainment of swaraj several leaders representing various regions of our sub-continent played their historic role. Each volume contains the significant phase of the movement which generated the spirit of patriotism among the millions of people. This multivolume work illuminates the role played by the Freedom Fighters during the freedom struggle. In fact, besides majority community, all minorities have played important role in freedom struggle. Dalit leaders equally played important role in 1857. This multivolume work thus highlights the contributions of people from all

sections of society in the freedom movement during Indian freedom. This is an attempt to draw upon their remembrance of the freedom struggle. Efforts have been made to include Freedom Fighters from various regions. The reminiscences of these unsung heroes reveal deep dedication and spirit with which they fought against the atrocities of the British risking their life and profession. The history of Freedom Movement would be incomplete without mentioning the contribution of women. In the Volume IV, we can study about women who participated in the freedom struggle and made rich contribution in various ways. Some of them were imprisoned, fined and suffered for freedom, and their contributions cannot be overlooked. The great contributions of these ladies and lords should be brought to the knowledge of the present generation, and this would be the best way to pay homage to them. This multivolume is a tribute to the Freedom Fighters in India's freedom movement.
