Inside Crown Court Jacobson, Jessica 2016-06-01 With a new Foreword by David Ormerod of the Law Commission. Within the criminal justice system of England and Wales, the Crown Court is the arena in which serious criminal offences are prosecuted and sentenced. On the basis of up-to-date ethnographic research, this timely book provides a vivid description of what it is like to attend court as a victim, a witness or a defendant; the interplay between the different players in the courtroom; and the extent to which the court process is viewed as legitimate by those involved in it. This valuable addition to the field brings to life the range of issues involved and is aimed at students and scholars of criminal justice, policy-makers and practitioners, and interested members of the general public.

Debating Restorative Justice Chris Cunneen 2010-08-25 'Debating Law' is a new, exciting series that gives scholarly experts the opportunity to offer contrasting perspectives on significant topics of contemporary, general interest. In this first volume of the series Carolyn Hoyle argues that communities and the state should be more restorative in responding to harms caused by crimes, antisocial behaviour and other incivilities.

She supports the exclusive use of restorative justice for many non-serious offences, and favours approaches that, by integrating restorative and retributive philosophies, take restorative practices into the 'deep end' of criminal justice. While acknowledging that restorative justice appears to have much to offer in terms of criminal justice reform, Chris Cunneen offers a different account, contending that the theoretical cogency of restorative ideas is limited by their lack of a coherent analysis of social and political power. He goes on to argue that after several decades of experimentation, restorative justice has not produced significant change in the criminal justice system and that the attempt to establish it as a feasible alternative to dominant practices of criminal justice has failed. This lively and valuable debate will be of great interest to everyone interested in the criminal justice system.

Entanglements of Life with the Law John R. Campbell 2020-11-09 This book examines the quality and nature of justice dispensed in London's magistrates' courts which are the lowest level of the United Kingdom's Criminal Justice System. In 2016, approximately 230,000 individuals were prosecuted for a criminal offence in these courts, of whom about seventy percent pleaded guilty and were sentenced. Curiously, about eighty-five percent of those who pleaded 'not guilty' were subsequently tried, found guilty and sentenced. This book addresses a central paradox of criminal justice: how is it that magistrates are able to reach a guilty verdict despite the elusive and complex nature of 'truth' and reality? Research, together with observations of 238 remand hearings and 23 trials has led the author to arrive at some uncomfortable conclusions about a legal system undermined by government austerity policies and lacking in transparency. This book shows that the police fail to investigate most offences, that the Crown Prosecution Service is reliant on the cases which the police want prosecuted, that the quality of legal representation is poor, that magistrates' decisions may be unjust, and that most defendants are not able to understand or participate in their hearing. Strikingly, a large percentage of defendants are from London's 'precariat'. They are young men who are destitute or who rely on unstable incomes; they are semi-literate, from Black and Ethnic Minority Communities, and their basic rights as citizens are being eroded. Because many are repeat offenders, they are recycled through the Criminal Justice System with limited assistance to address the problems which cause offending. Magistrates' courts dispense 'summary justice' in very short hearings which means that defendants have a limited opportunity to defend themselves. In short, summary justice lacks basic due process rights in a legal process which bears a striking resemblance to 'justice' in authoritarian, non-democratic societies.

Vulnerability in Police Custody Roxanna Dehaghani 2019-02-13 This book provides a nuanced and timely contribution to the question of vulnerability in police custody. It addresses the implementation of the appropriate adult safeguard in respect of adult suspects and explores police decision-making in this context. Drawing on empirical research carried out in England, the work takes a socio-legal approach to examine how and why police custody officers implement or not the appropriate adult safeguard. The book's core arguments are addressed within three parts. Part I examines how vulnerability is constructed philosophically and practically, firstly within the broader literature, thereafter at common law and in statute, and finally by police custody officers. Part 2 discusses how vulnerability is identified and how decisions are made in response to vulnerability. Part 3 critically assesses the theoretical understandings of police decision-making and criminal justice. Here it is argued that current theories on police decision-making hold explanatory power yet have significant shortcomings in relation to vulnerability and the appropriate adult safeguard. The book thus presents new theoretical insights and, on the basis of these insights, asserts that the current regime of regulation must be reconsidered, while police compliance may only be ensured if vulnerability is radically reconceptualised.

The Bodyguards of Lies Christopher Whelan 2022-10-20 This book uses real-world examples, case studies, and commentary from practitioners to reveal the many and varied strategies American and

English lawyers use to protect truth. It shows how they tackle their conflicting duties, and highlights the 'tragic choices' lawyers everywhere routinely make through their 'power of decision'. What emerges are new ways of understanding the critical role lawyers play in society - and their professional responsibilities. 'Truth is so precious it should always be protected by a bodyguard of lies.' Churchill said this about wartime deception plans, but lawyers' clients may think their truth - especially an 'inconvenient truth' - is so precious it too should be protected. Lawyers are 'bodyguards of lies' when they use so-called 'tricks of the trade' not only to keep clients' secrets but to construct a reality that is far from real. But should they? Lawyers have a divided loyalty. The book presents a unique and fascinating account of what happens when lawyers' duties to clients conflict with their duties to the legal system, and looks in detail at the ethical codes and laws that regulate their conduct.

Criminal Justice in China Mike McConville 2011-01-01 .Criminal Justice in China is the most comprehensive work to date on the functioning of China's criminal justice system. This book is essential reading for anyone who wants to understand any aspect of the system. There are important insights on virtually every page, including in depth study of the role of police, procuracy, courts, and defense lawyers. The book will be of value to anyone interested in governance in China.'

Access to Justice in Magistrates' Courts Lucy Welsh 2022-01-27 This book examines access to justice in summary criminal proceedings by considering the ability of defendants to play an active and effective role in the process. 'Access to justice' refers not just to the availability of legally aided representation, but also to the ability of defendants to understand and effectively participate in summary criminal proceedings more generally. It remains a vital principle of justice that justice should not only be done, but should also be seen to be done by all participants in the process. The book is based on socio-legal research. The study is ethnographic, based on observation conducted in four magistrates' courts in South East England and interviews with both defence lawyers and Crown prosecutors. Setting out an argument that defendants have always been marginalised through particular features of magistrates'

court proceedings (such as courtroom layout and patterns of behaviour among the professional workgroups in court), the political climate in relation to defendants and access to justice that has persisted since 2010 has further undermined the ability of defendants to play an active role in the process. Ultimately, this book argues that recent governments have demanded ever more efficiency and cost saving in criminal justice. In that context, principles that contribute to access to justice for defendants have been seriously undermined.

The Oxford Handbook of Criminal Process Darryl K. Brown 2019-02-22 The Oxford Handbook of Criminal Process surveys the topics and issues in the field of criminal process, including the laws, institutions, and practices of the criminal justice administration. The process begins with arrests or with crime investigation such as searches for evidence. It continues through trial or some alternative form of adjudication such as plea bargaining that may lead to conviction and punishment, and it includes post-conviction events such as appeals and various procedures for addressing miscarriages of justice. Across more than 40 chapters, this Handbook provides a descriptive overview of the subject sufficient to serve as a durable reference source, and more importantly to offer contemporary critical or analytical perspectives on those subjects by leading scholars in the field. Topics covered include history, procedure, investigation, prosecution, evidence, adjudication, and appeal.

The Law of Disclosure Ed Johnston 2020-12-18 This edited collection explores the topic of disclosure of evidence and information in the criminal justice process. The book critically analyses the major issues driving the long-standing problem of dysfunctional disclosure practice, with contributions from academics, lawyers, former police officers, and current police policymakers. The ultimate objective is to review the key problems at the investigative, trial and post-conviction stages of criminal proceedings, and to suggest a way forward through potential routes of reform, both legal and cultural. The collection represents a significant and novel contribution to the policy debate regarding disclosure, and advances thought on resolving this issue in a fair and sustainable manner. The book provides a valuable resource for academics, practitioners and policymakers working on this vital aspect of criminal procedure.

Changing Contours of Criminal Justice Mary Bosworth 2016-11-03 Celebrating the 50th Anniversary of the Oxford Centre for Criminology, this edited collection of essays seeks to explore the changing contours of criminal justice over the past half century and to consider possible shifts over the next few decades. The question of how social science disciplines develop and change does not invite any easy answer, with the task made all the more difficult given the highly politicised nature of some subjects and the volatile, evolving status of its institutions and practices. A case in point is criminal justice: at once fairly parochial, much criminal justice scholarship is now global in its reach and subject areas that are now accepted as central to its study - victims, restorative justice, security, privatization, terrorism, citizenship and migration (to name just a few) - were topics unknown to the discipline half a century ago. Indeed, most criminologists would have once stoutly denied that they had anything to do with it. Likewise, some central topics of past criminological attention,

like probation, have largely receded from academic attention and some central criminal justice institutions, like Borstal and corporal punishment, have, at least in Europe, been abolished. Although the rapidity and radical nature of this change make it quite impossible to predict what criminal justice will look like in fifty years' time, reflection on such developments may assist in understanding how it arrived at its current form and hint at what the future holds. The contributors to this volume have been invited to reflect on the impact Oxford criminology has had on the discipline, providing a unique and critical discussion about the current state of criminal justice around the world and the origins and future implications of contemporary practice. All are leading internationally-renowned criminologists whose work has defined and often re-defined our understanding of criminal justice policy and literature.

These telling essays show how cause lawyering is indispensable to the legitimization of professional authority.

The Criminal Process Andrew Ashworth 2010 The Criminal Process is an authoritative and highly stimulating treatment of the key issues in criminal process and procedure, authored by two of the leading figures in the field.

Bureaucracy, Law and Dystopia in the United Kingdom's Asylum System John R. Campbell 2016-12-01 The central concern of this book is to find answers to fundamental questions about the British asylum system and how it operates. Based on ethnographic research over a two-year period, the work follows and analyses numerous asylum appeals through the

British courts. It draws on myriad interviews with individuals and a thorough examination of many state and non-state organizations to understand how the system works. While the organization of the book reflects the formal asylum process, a focus on specific legal appeals reveals the 'political' factors at play as different institutions and actors seek to influence judicial decision-making and overturn/uphold official asylum policy. The final chapter draws on the author's ethnographic findings of the UK's 'asylum field' to re-examine research on the Refugee Determination System in the US, Canada and Australia which has narrowly focused on judicial decision-making. It argues that analysis of Refugee Determination Systems must be situated and studied as part of a wider, political, semi-autonomous 'asylum field' which needs to be better understood. Providing an in-depth ethnographic study of a national asylum system and of immigration law and practice, the book will be an invaluable resource for academics, researchers and policy-makers in the UK and beyond working in this highly topical area.

Lawyers at Work Herbert M. Kritzer 2015-03-11 This collection of articles and essays by Herbert Kritzer draws on his extensive research related to lawyers and legal practice conducted over the last 35 years. That research has applied existing theoretical frameworks and developed innovative ways of thinking about how to understand what it is that lawyers do. The chapters reflect the wide range of both qualitative and quantitative research methods he has employed, and draw on his work on the Civil Litigation Research Project, a massive study funded by the U.S. Department of Justice under the Carter administration, and continues through subsequent studies of lawyer-client relationships in Canada, contingency fee legal practice, and insurance defense practice. This book is for scholars and practitioners interested in understanding the work of lawyers in day-to-day litigation-like settings—and those concerned about what the future might hold for the structure of the legal profession and the nature of legal practice. "Lawyers at Work is a masterful collection, by one of the leading and award winning empirical researchers on legal institutions and the legal profession today, on the 'black box' of law practice. Spanning decades of research, Professor

Kritzer presents data and findings on how lawyers bill, develop relationships with clients and opponents, manage scientific expertise, negotiate, and conduct their everyday work in a wide variety of case types. He explores and exposes the differences in both theories and data about the legal profession from virtually every major study there is on what lawyers actually do. If anyone wants to know about the real practices of lawyers in the past and present, and with important projections about the future, this is a must read. We can speculate about what lawyers really do, but Kritzer has the actual ‘facts.’” — Carrie Menkel-Meadow, Chancellor’s Professor of Law and Political Science, University of California, Irvine, and A.B. Chettle Professor of Law, Dispute Resolution and Civil Procedure, Georgetown University Law Center “Through wide-ranging field research over 35 years Kritzer has done more than anyone to document the craft of lawyers at work. This extraordinary compilation finds the whole in a professional lifetime of research, cementing Kritzer’s reputation as pioneer and master of empirical legal research.” — Tom Baker, William Maul Measey Professor of Law and Health Sciences, University of Pennsylvania Law School “Bert Kritzer has long been recognized as one of the most astute scholarly commentators on the U.S. legal profession. This collection of papers allows readers to see his body of work as a whole, and to appreciate the unique combination of quantitative and qualitative skills on which it rests. It is essential reading for anyone who wants to cut through the myths that pervade debates about policy and practice in civil justice.” — Robert Dingwall, Nottingham Trent University, UK

Lawyers in Society Richard L. Abel 1995-01-01 Among all those who encounter the law in the conduct of their lives or who consider it as a career, few have a solid understanding of the legal profession in America, and fewer still know anything about systems in other parts of the world. *Lawyers in Society* offers a concise comparative introduction to the practice of law in a number of countries: England, Germany, Japan, Venezuela, and Belgium. Extracted from the editors' three highly successful volumes *Lawyers in Society*, these essays guide readers through the differing worlds of civil and common law, law in Europe and

Asia, and first and third world legal systems. One contribution addresses the changing role of women in the profession--women comprise half of all new lawyers in most countries--and the changes they are bringing. A new introduction and concluding essay reflect on the place of this volume in current and future research.

Vulnerability, the Accused, and the Criminal Justice System Roxanna Dehaghani 2023-06-15 This book is concerned with the vulnerability of suspects and defendants in criminal proceedings and the extent to which the vulnerable accused can effectively participate in the criminal process. Commencing with an exploration of how vulnerability is defined and identified, the collection examines and analyses how vulnerability manifests and is addressed at the police station and in court, addressing both child and adult accused persons. Leading and emerging scholars, along with practitioners with experience working in the field, explore and unpack the human rights and procedural implications of suspect and defendant vulnerability and examine how their needs are supported or disregarded. Drawing upon different disciplinary approaches and a range of analyses – doctrinal, theoretical and empirical – this book offers unique insights into the vulnerability and treatment of the criminal accused. In bringing together a diverse range of perspectives, the book offers key insights into the recognition of and responses to vulnerability among suspect and defendant populations in criminal justice systems across European jurisdictions. The book will be a valuable resource for

academics, practitioners and policymakers interested in how vulnerable suspects and defendants are protected throughout the criminal process, and those working in the areas of law, criminology, sociology, human rights and psychology.

Standing Accused Michael McConville 1994 Based on a large study of legal professional practice, involving nearly 50 solicitors' firms, this book offers a critical examination of the practices and organization of defence lawyers in Britain - from the moment of initial contact through to the preparation and presentation of defendants.

The Trial on Trial: Volume 3 R A Duff 2007-11-20 The criminal trial is under attack. Traditional principles have been challenged or eroded; in England and Wales the right to trial by jury has been restricted and rules concerning bad character evidence, double jeopardy and the right to silence have been substantially altered to "rebalance" the system in favour of victims. In the pursuit of security, particularly from terrorism, the right to a fair trial has been denied to some altogether. In fact trials have for a long time been an infrequent occurrence, most criminal convictions being the consequence of a guilty plea. Moreover, while this very public struggle over the future of the criminal trial is conducted, there is also a less publicly observed controversy about the significance of trials in modern society. Trials are under normative attack, their value being doubted by those who seek different kinds of process - conciliatory or restorative - to address the needs of victims and move away from the imposition of state power through trials and punishments. This book seeks to develop a normative theory of the criminal trial as a way of defending the importance of trials in our criminal justice system. The trial, it is suggested, calls defendants to answer a charge and, if they are criminally responsible, to account for their conduct. The trial is seen as a communicative process through which the defendant can challenge claims of wrongdoing made against him, including the norms in the light of which those claims are made. The book develops this communicative theory by first making a careful study of the history of trials, before moving on to outline the theory, which is then developed through chapters looking at the practices and principles of trials, alternative

regulatory models, the roles of participants, the relationship between investigation and trial and trials as public fora.

Lawyers in 21st-Century Societies Richard L Abel 2022-05-05 This book presents an invaluable collection of essays by eminent scholars from a wide variety of disciplines on the main issues currently confronting legal professions across the world. It does this through a comparative analysis of the data provided by the reports on 46 countries in its companion volume: *Lawyers in 21st-Century Societies: Vol. 1: National Reports* (Hart 2020). Together these volumes build on the seminal collection *Lawyers in Society* (Abel and Lewis 1988a; 1988b; 1989). The period since 1988 has seen an acceleration and intensification of the global socio-economic, cultural and political developments that in the 1980s were challenging traditional professional forms. Together with the striking transformation of the world order as a result of the fall of the Soviet bloc, neo-liberalism, globalisation, the financialisation of capitalism, technological innovations, and the changing demography of lawyers, these developments underscored the need for a new, comparative exploration of the legal professional field. This volume deepens the insights in volume 1, with chapters on legal professions in Africa, Latin America, the Islamic world, emerging economies, and former communist regimes. It also addresses theoretical questions, including the sociology of lawyers and other professions (medicine, accountancy), state production, the rule of law, regional bodies, large law firms, access to justice, technology, casualisation, cause lawyering, diversity (gender, race, and masculinity), corruption, ethics regulation, and legal education. Together with volume 1, it will inform and challenge conceptions of the contemporary profession, and stimulate and support further research.

Experiences of Criminal Justice Newman, Daniel 2022-01-18 Austerity continues to impact the criminal justice process in England and Wales: police numbers are down, the Crown Prosecution Service is in disarray, legal aid has been reduced, courts are closing and magistrates are leaving. Research into the criminal process usually focuses on England,

however this book offers a rare insight into South Wales. Drawing on first-hand accounts of lawyers, police, suspects, and the convicted and their families, it uncovers how these affected individuals navigate the challenges caused by austerity, what has changed and what can be done to improve the system. This book is a reliable and evocative account of the reality of criminal justice in Wales.
