True to Nature Ger Luijten 2020 In the eighteenth century the tradition of open-air painting was based in Italy, Rome in particular. Artists came from all over Europe to study classical sculpture and architecture, as well as masterpieces of Renaissance and Baroque art. During their studies, groups of young painters visited the Italian countryside, training their eyes and their hands to transcribe the effects of light on a range of natural features. The practice became an essential aspect of art education, and spread throughout Europe in the nineteenth century. This exhibition focuses on the artists' wish to convey the immediacy of nature observed at first hand. Around a hundred works, most of them unfamiliar to the general public, will be displayed. The artists represented include Thomas Jones, John Constable, J.M.W. Turner, Pierre-Henri de Valenciennes, Achille-Etna Michallon, Camille Corot, Christoffer Wilhelm Eckersberg, Johan Thomas Lundbye, Vilhelm Kyhn, Carl Blechen, Johann Martin von Rohden, Johann Wilhelm Schirmer, Johann Jakob Frey, among others. The sketches demonstrate the skill and ingenuity with which each artist quickly translated these first-hand observations of atmospheric and topographical effects while the impression was still fresh. The exhibition and the catalogue will be organized thematically, reviewing, as contemporary artists did, motifs as trees, rocks, water, volcanoes, and sky effects, and favourite topographical locations, such as Rome and Capri. The catalogue will present numerous unpublished plein air sketches, and contains much original scholarship on this relatively young field of art history.00Exhibition: National Gallery of Art, Washington, USA (02.02.-03.05.2020) / The Fondation Custodia, Paris, France (14.06-13.09.2020) / Fitzwilliam Museum, Cambridge, UK (04.10-31.01.2021).

Monet John House 1986-01-01 In this beautifully illustrated book, John House discusses the career and painting techniques of one of the greatest Impressionist painters, providing the fullest account ever written of Monet's working practices and the ways in which they evolved. In so doing House throws much new light on issues central to the understanding of French Impressionist painting as a whole.

Monet Christoph Heinrich 2000 Monet was the most typical and the most individual Impressionist painter. But while the painter was faithful and persevering in the pursuit of his motifs, his personal life followed a more restless course. Parisian by birth, he discovered painting as a youth in the provinces, where one of his homes, Argenteuil, has come to represent the artistic flowering and official establishment of Impressionism as a movement.

Elegance and Refinement Willem van Aelst 2012 The paintings of Willem van Aelst (1627-1683) are known for their fine finish, innovative compositions, sumptuous subject matter, and rich, jewel-toned palette. Published on the occasion of an unprecedented traveling exhibition, this book celebrates Van Aelst's achievements and his significant impact on Dutch still-life painting. Van Aelst masterfully depicted arrangements of fresh fruit and flowers, displays of dead game, and evocations of the forest floor, as well as elegant objects such as nautilus cups, distinctive silver vessels, and Venetian glassware. This book features twenty-five paintings from throughout his career. Catalog entries and a biographical essay are provided by Tanya Paul, James Clifton writes about the Medici court, Julie Berger Hochstrasser analyzes Van Aelst's choice of subject matter, Arthur K. Wheelock Jr. discusses Van Aelst's time in Amsterdam, and a team of conservators reveals his technical process.

The Artist's Garden Jackie Bennett 2019-10-29 The Artist's Garden will feature up to 20 gardens that have inspired and been home to some of the greatest painters of history. These gardens not only supplied the inspiration for creative works but also illuminate the professional motivation and private life of the artists themselves - from Cezanne's house in the south of France to Childe Hassam at Celia Thaxter's garden

off the coast off Maine. Flowers and gardens have often been the first choice for artists looking for a subject. A garden close to the artist's studio is not only convenient for daily material and ideas, but also has the advantage of changing through the seasons and over time. Claude Monet's Giverny was the catalyst for hundreds of great paintings (by Monet and other artists), each one different from the one before. Sometimes a whole village becomes the focus for a colony of artists as at Gerberoy in Picardy and Skagen on the northernmost tip of Denmark. This book is about the real homes and gardens that inspired these great artists - gardens that can still be visited today. The relationship between artist and garden is a complex one. A few artists, including Pierre Bonnard and his neighbour Monet were keen gardeners, as much in love with their plants as their work, while for others like Sorolla in Madrid, his courtyard home was both a sanctuary and a source of ideas.

Monets lavish paintings are re-imagined in zesty, energetic and amusing ways with illustrations that younger readers will find amusing and engaging. They tell the story of Monet and his garden: his arrival; the country clothes he wore; the bright Japanese prints he collected; how the Impressionist artist painted outdoors, rain or shine; the thousands of seed-packets he ordered; his gardeners, who have to leave Giverny to go to war. Spread by spread the garden is explained and built up with Ascaris and Valentiniss original illustrations, which take Monets work as their starting point and transform it in beautiful and unexpected ways.

What Painting Is James Elkins 2004-11-23 Unlike many books on painting that usually talk about art or painters, James Elkins' compelling and original work focuses on alchemy, for like the alchemist, the painter seeks to transform and be transformed by the medium. In *What Painting Is*, James Elkins communicates the experience of painting beyond the traditional vocabulary of art history. Alchemy provides a magical language to explore what it is a painter really does in her or his studio - the smells, the mess, the struggle to control the uncontrollable, the special knowledge only painters hold of how colours will mix, and how they will look. Written from the perspective of a painter-turned-art

historian, *What Painting Is* is like nothing you have ever read about art. **Monet and the Birth of Impressionism** Felix Krämer 2015 Brimming with illustrations of some of the world's best loved Impressionist paintings, this book offers fresh and fascinating insights to explain why, initially, Impressionism was considered radical--and why it remains one of the most popular artistic movements of all time. By focusing on Impressionism's earliest stages, the book offers a thorough and satisfying exploration that paves the way for a deeper understanding of the movement's myriad hybridizations and, eventually, the birth of abstraction. This delightful overview also offers readers a thoughtful context from which to appreciate these most beautiful works of art.

Monet's Garden Claude Monet 2004 "Claude Monet was one of the first artists to move his studio out into the open air, creating works which continue to fascinate and inspire us today as much as they did his contemporaries. One of the founding fathers of Impressionist art, Monet's works consistently reflect the artist's profound love of nature. Many of his paintings were directly inspired by the gardens that played such an important role in his life--the gardens at his two homes in Argenteuil in the 1870s, followed by a garden at his estate in Vetheuil. Yet the most famous of Monet's gardens was the expansive park in Giverny, which inspired his masterful handling of light and color for more than thirty years and provided motifs for hundreds of individual paintings and series that remain immensely popular today--among them the masterpieces of his Water-Lilies series."--Dust-jacket.

Monet's Garden Claude Monet 2004 Claude Monet (1840-1926) was one of the first artists to move his studio out into the open air, creating works which continue to fascinate and inspire us today as much as they did his contemporaries. One of the founding fathers of Impressionist art, Monet's works consistently reflect the artist's profound love of nature. Many of his paintings were directly inspired by the gardens that played such an important role in his life--the garden at his house in Sèvres in the 1860s, those at his two homes in Argenteuil in the 1870s, followed by a garden at his estate in Vetheuil. Yet the most famous of Monet's gardens was the expansive park in Giverny, which inspired his masterful handling of light and color for more than thirty years and provided motifs for hundreds of individual paintings and series that remain immensely popular today--among them the masterpieces of his Water-Lilies series.

This magnificent volume of full-page color plates is devoted to this central theme in the work of the French artist. It presents landscapes, still lifes, and portraits of people in natural settings from nearly all of Monet's creative periods--from his early Impressionist paintings of the 1870s to the Grandes Dacorations of the early 1900s. Also included are photographs of Monet's gardens, diagrammatic recreations of these spaces (based on the artist's paintings), several bills of delivery and planting instructions from horticulturalists.

Monet (World of Art) James H. Rubin 2020-04-14 From a world authority on impressionism and nineteenth-century French art comes this new addition to the World of Art series on the art and life of Claude Monet. One of the most famous and admired painters of all time, Claude Monet (1840- 1926) was the architect of impressionism—a revolution that gave birth to modern art. His technique of painting outside at the seashore or in city streets was as radically new as his subject matter: the landscapes and middle-class pastimes of a newly industrialized Paris. Working with unprecedented immediacy and authenticity, Monet claimed that his work was both natural and true, and therefore, entirely novel. In *Monet*, James H. Rubin, one of the world's foremost specialists in nineteenth-century French art, traces Monet's development, from his early work as a caricaturist to the late paintings of water lilies and his garden at Giverny. Rubin explores the cultural currents that helped shape Monet's work, including the utopian thought that gave rise to his politics, his interest in Japanese prints and gardening, and his relationship with earlier French landscape painters and contemporaries such as E´douard Manet and Pierre-Auguste Renoir. Featuring more than 150 color illustrations of his key works, Rubin establishes Monet as the inspiration for generations of avant-garde artists and a true patriarch of modern art.
