**On Type Faces, by Stanley Morison** Stanley Morison 1923

*The Writings of Stanley Morison : A handlist* Tony Appleton 1976

**Stanley Morison : Selected Essays on the History of Letter-forms in Manuscript and Print** Stanley Morison 1981

*Stanley Morison: a Typographical Letter...* Stanley Morison 1985

*A Tally of Types* Stanley Morison 1973-06-07 The Tally of Types was first circulated in a privately printed edition in 1953, achieving a fame and influence wholly disproportionate to the comparatively small number of copies in existence. In 1973 Cambridge University Press published a version edited and expanded by Brooke Crutchley and others, making this classic of typographical history and practice available to a wider readership; it is this edition we have reprinted here. Stanley Morison provided the impetus and judgement behind the programme of

typographical revival carried through by the Monotype Corporation in the 1920s and early 1930s. The Tally is an account, historical, critical and functional, of the types cut under Morison's direction during this period. It is an impressive performance: a fine example of what is now recognised as Morison's characteristic blend of erudition and insight. What started as no more than an attempt to record the facts developed, under his hand, into one of the major statements of typographical practice of its time.

**Stanley Morison. An appreciation** Beatrice Lamberton WARDE 1967  
**Selected Essays on the History of Letter-forms in Manuscript and Print** Stanley Morison 2009

**Stanley Morison** John Barr 1940-01

*Early Italian Writing-books* Stanley Morison 1990 Printed in letterpress, with 24 duotone offset illustrations, this book examines the calligraphy of the sixteenth century from Arrighi to Ugo da Carpi, from Tagliente to Celebrino da Udine. As always with Morison, it is full of surprises, for this was Morison's particular passion, and in the area of stylistic comparisons and close observation, Morison was an undisputed master. This is, then, not only the last major Morison text to be published, but also one of fundamental importance, covering the most important period (and the most beautiful examples) in the history of calligraphy.

**First Principles of Typography** Stanley Morison 1936

*Letter Forms* Stanley Morison 1997 "To understand the language and development of type is to know its history. Letter Forms is a collection of essays by and about Stanley Morison, adviser to Monotype, and the greatest type historian of our time. An essay by Beatrice Warde is an illuminating introduction to the man referred to as a "typographic firmament." In his own words Morison then relates the history of classifying typographical variations and delves into the literature on the subject of letterforms. Finally, the author uncovers the significance of the discovery of a 16th century manuscript by Horfei in the Vatican Library."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. [Selected Essays on the History of Letter-forms in Manuscript and Print 2 Volume Set](#) Stanley Morison 2009-10-29 During his long career Stanley Morison held appointments as typographical adviser to Cambridge University Press, to the Monotype Corporation, and to The Times, where he was responsible both for its radical new design in 1932 and for the standard history of the paper. These two volumes bring together the majority of his most lasting essays. Many of them, pioneering in their day, are now classics in their field. The collection, first published in 1980, spans a period of forty years. It includes essays on letter-forms in manuscript and in print, beginning with those published in *The Flueron* in the 1920s, on typefaces in sixteenth-century Italy, on the development of Latin script, on the history of learned presses and on the typography of newspapers.
