Making Democracy Work Better Richard A. Couto 2003-07-11 The decade of the 1980s marked a triumph for market capitalism. As politicians of all stripes sought to reinvent government in the image of private enterprise,

they looked to the voluntary sector for allies to assuage the human costs of reductions in public policies of social welfare. This book details the "savage side" of market capitalism in Appalachia and explains the social, political, and economic roles that mediating structures play in mitigating it. Profiling the work of twenty-three such mediating structures--community-based organizations that battled to provide social safety nets, fight environmental assaults, and upgrade the education and job skills of Appalachian residents--Richard Couto distills the practical lessons to be found in their successes and shortcomings. Couto argues that a broader set of democratic dimensions be used in taking the measure of civil society and public policy in the twenty-first century. He shows that mediating structures promote the democratic prospect of reduced inequality and increased communal bonds when they provide and advocate for new forms and increased amounts of social capital--the public goods and moral

Transformative Language Arts in Action

Ruth Farmer 2014-11-26 Transformative Language Arts, an emerging field and profession, calls on us to use writing, storytelling, theater, music, expressive and other arts for social change, personal growth, and culture shift. In this landmark anthology, Transformative Language Artists share their stories, scholarship and practices for a more just and peaceful world, from a Hmong storyteller

and spoken word artist weaving traditions with contemporary immigrant challenges in Philadelphia, to a playwright raising awareness of AIDS/HIV prevention. Read the stories, consider the questions raised, and find inspiration and tools in using words as a vehicle for transformation through essays on the challenge of dominant stories, public housing women writing for their lives, histories and communities at the margins, singing as political action, the convergence of theology and poetics, women's self-leadership, embodied writing, and healing the self, others, and nature through TLA. The anthology also includes "snapshots," short features on transformative language artists who make their livings and lives working with people of all ages and backgrounds to speak their truths, and change their communities.

Forced Migration and Mental Health David Ingleby 2006-01-27 Although forced migration is not new in human history it has become, in our time, one of the world's major problems. In the

To Know Each Other And Be Known Womens Writing Workshops

last few decades, armed conflict and political unrest have created vast numbers of asylum seekers, refugees and displaced persons. This has led, in turn to increasing involvement of professional care workers and agencies, both governmental and nongovernmental. While there is no doubt on the part of helping parties that care is necessary, there is considerable debate about the kind of care that is needed. This book presents a critical review of mental health care provisions for people who have had to leave their homeland, and explores the controversies surrounding this topic. Providing fresh perspectives on an age old problem, this book covers humanitarian aid and reconstruction programs as well as service provision in host countries. It is of interest to all those who provide health services, create policy, and initiate legislation for these populations.

Feminist Literacies, 1968-75 Kathryn Thoms Flannery 2010-10-01 In the late 1960s and early 1970s, ordinary women affiliated with the

women's movement were responsible for a veritable explosion of periodicals, poetry, and manifestos, as well as performances designed to support "do-it-yourself" education and consciousness-raising. Kathryn Thoms Flannery discusses this outpouring and the group education, brainstorming, and creative activism it fostered as the manifestation of a feminist literacy quite separate from women's studies programs at universities or the large-scale political workings of second-wave feminism. Seeking to break down traditional barriers such as the dichotomies of writer/reader or student/teacher, these new works also forged polemical alternatives to the forms of argumentation traditionally used to silence women, creating a space for fresh voices. *Feminist Literacies* explores these truly radical feminist literary practices and pedagogies that flourished during a brief era of volatility and hope.

Alix Chamberlain is a woman who gets what she wants and has made a living, with her confidence-driven brand, showing other

women how to do the same. So she is shocked when her babysitter, Emira Tucker, is confronted while watching the Chamberlains' toddler one night, walking the aisles of their local high-end supermarket. The store's security guard, seeing a young black woman out late with a white child, accuses Emira of kidnapping two-year-old Briar. A small crowd gathers, a bystander films everything, and Emira is furious and humiliated. Alix resolves to make things right. But Emira herself is aimless, broke, and wary of Alix's desire to help. At twenty-five, she is about to lose her health insurance and has no idea what to do with her life. When the video of Emira unearths someone from Alix's past, both women find themselves on a crash course that will upend everything they think they know about themselves, and each other. Women of Florida Fiction Tammy Powley
2014-12-03 Florida as symbol and myth is the

subject of this collection of new critical essays exploring fiction written by female Floridian authors. In the words of author Karen Russell, the Sunshine State is “virtually past-less, seasons are out of the question, and it’s built on a primordial park full of monsters.” Discussing the state as setting, the essayists—also Floridians—suggest that it is a creation of the stories told about it. Each of the book’s 12 chapters covers one author, including a brief biography followed by one (and twice, two) essays on some of the author’s works. The book’s final section includes interviews with authors Lynne Barrett, Jeannine Capó Cruz, Vicki Hendricks and Angela Hunt.

[Writing African American Women \[2 volumes\]](#)

Elizabeth A. Beaulieu 2006-04-30 Women have had a complex experience in African American culture. The first work of its kind, this encyclopedia approaches African American literature from a Women's Studies perspective. While Yolanda Williams Page's Encyclopedia of African American Women Writers provides biographical entries on more than 150 literary figures, this book is much broader in scope. Included are several hundred alphabetically arranged entries on African American women writers, as well as on male writers who have treated women in their works. Entries on genres, periods, themes, characters, historical events, texts, places, and other topics are included as well. Each entry is written by an expert contributor and relates its subject to the overall experience of women in African American

literature. Entries cite works for further reading, and the encyclopedia closes with a selected, general bibliography. African American culture is enormously diverse, and the experience of women in African American society is especially complex. Women were among the first African American writers, and works by black women writers are popular among students and general readers alike. At the same time, African American women have been oppressed, and texts by black male authors represent women in a variety of ways. The first of its kind, this encyclopedia approaches African American literature from a Women's Studies perspective, and thus significantly illuminates the African American cultural experience through literary works. Included are several hundred alphabetically arranged entries, written by numerous expert contributors. In addition to covering male and female African American authors, the encyclopedia also discusses themes, major works and characters, genres, periods,

Writing Groups Inside and Outside the Classroom Beverly J. Moss 2014-04-04 This unique collection considers the nature of writing groups inside and outside the academic environment. Exploring writing groups as contextual literacy events, editors Beverly J. Moss, Nels P. Highberg, and Melissa Nicolas bring together contributors to document and

To Know Each Other And Be Known Womens Writing Workshops

reflect on the various types of collaborations that occur in writing groups in a wide range of settings, both within and outside the academy.

The chapters in this volume respond to a variety of questions about writing groups, including:

*What is the impact of gender, race, and socioeconomic class on power dynamics in writing groups? *When is a writing group a community and are all writing groups communities? *How does the local community of a writing group impact the participation of group members in other local or global communities? *How does the local community of a writing group impact the participation of group members in other local or global communities? *What actions contribute to a strong community of writers and what actions contribute to the breakdown of community? *When and for whom are writing groups ineffective? *What is it about belonging to a community of writers that makes writing groups appealing to so many within and beyond the

academy? Each chapter highlights how writing groups, whether or not they are labeled as such, function in various spaces and locations, and how collaboration works when writers from a variety of backgrounds with diverse interests come together. Writing Groups Inside and Outside the Classroom illustrates that writing groups outside of the academy are worthy of study and serve as important sites of writing and literacy instruction. Offering significant insights into the roles of writing groups in literacy and writing practice, this volume is appropriate for scholars and teachers of writing, rhetoric, composition, and literacy; for writing center administrators and staff; and for writing group participants.

Writing Alone and with Others Pat Schneider
2003-08-28 For more than a quarter of a century, Pat Schneider has helped writers find and liberate their true voices. She has taught all kinds--the award winning, the struggling, and those who have been silenced by poverty and hardship. Her innovative methods have worked in classrooms from elementary to graduate level, in jail cells and public housing projects, in convents and seminaries, in youth at-risk programs, and with groups of the terminally ill. Now, in *Writing Alone and with Others*, Schneider's acclaimed methods are available in

a single, well-organized, and highly readable volume. The first part of the book guides the reader through the perils of the solitary writing life: fear, writer's block, and the bad habits of the internal critic. In the second section, Schneider describes the Amherst Writers and Artists workshop method, widely used across the U.S. and abroad. Chapters on fiction and poetry address matters of technique and point to further resources, while more than a hundred writing exercises offer specific ways to jumpstart the blocked and stretch the rut-stuck.

Schneider's innovative teaching method will refresh the experienced writer and encourage the beginner. Her book is the essential owner's manual for the writer's voice.

Women/Writing/Teaching Jan Zlotnik Schmidt
1998-01-01 This book presents autobiographical visions of women writing teachers -- their complex lives as writers, as instructors, as feminists, as professionals in the academy. The authors explore their complex identities as

To Know Each Other And Be Known Womens Writing Workshops

teachers: the particular configurations of their pasts, gender, class, ethnic backgrounds, personalities, and cultures that have shaped their personae as instructors of writing. The contributors explore the intersections of their past and present experiences that influence and guide their development as writers and as instructors of writing. The book discusses how women can emerge from silence, gain authority and power as professionals, and balance the private and public aspects of their lives. In addition, it addresses how women constitute themselves as literacy teachers and what models of feminist pedagogy emerge.

Women/Writing/Teaching is notable for the range, depth, and richness of the chapters; the dynamic interplay of voices, approaches, issues, and concerns; the multiethnic focus; and the high quality of the writings. It will prompt readers to explore their own life stories and to comprehend more fully women's complex lives as teaching professionals.

Incarcerated Women Erica Rhodes Hayden

To Know Each Other And Be Known Womens Writing Workshops

2017-02-06 The story of the rise of prisons and development of prison systems in the United States has been studied extensively in scholarship, but the experiences of female inmates in these institutions have not received the same attention. Historically, women incarcerated in prison, jails, and reformatories accounted for a small number of inmates across the United States. Early on, they were often held in prisons alongside men and faced neglect, exploitation, and poor living conditions. Various attempts to reform them, ranging from moral instruction and education to domestic training, faced opposition at times from state officials, prison employees, and even male prison reformers. Due to the consistent small populations and relative neglect the women often faced, their experiences in prison have been understudied. This collection of essays seeks to recapture the perspective on women's prison experience from a range of viewpoints. This edited collection will explore the challenges

women faced as inmates, their efforts to exert agency or control over their lives and bodies, how issues of race and social class influenced experiences, and how their experiences differed from that of male inmates. Contributions extend from the early nineteenth century into the twenty-first century to provide an opportunity to examine change over time with regards to female imprisonment. Furthermore, the chapters examine numerous geographic regions, allowing for readers to analyze how place and environment shapes the inmate experience.

Master Class Nancy Bunge 2009-05-01 Master Class: Lessons from Leading Writers gathers more than two decades of wisdom from twenty-nine accomplished authors. It offers previously unpublished interviews along with freshly edited

versions of ten interviews from Nancy Bunge's well-received previous collection, *Finding the Words*. The magic of getting women together to share their stories has wrought this collection of powerful, moving writing. The pieces are funny, angry, joyful, sad, full of hope, tragedy, and transformation—each a revelation in its own right. The Palgrave Encyclopedia of Victorian Women's Writing Lesa Scholl 2022-12-15 Since the late twentieth century, there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature. However, with the increased understanding of the importance of interdisciplinarity in the twenty-first century, there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century, a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement.

The Way of the Woman Writer Janet Lynn Roseman 2014-01-14 The Way of the Woman Writer, Second Edition continues the work of the inspirational original, offering guidance to

When we pass down our stories and share them with family and friends, we provide future generations with the opportunity to not only understand the lives of each woman, but we are able to gain insight into their unique experiences." The Way of the Woman Writer, Second Edition includes new

writing samples and new chapters on: “The Creative Spirit,” which presents a seven-step guide to the creative process—ritual, surrender, silence, waiting, trust, recognition, and distance “The Ethics and Integrity of Writing,” which addresses the discipline and courage a writer needs when dealing with the effects of her autobiographical “truths” on others The Way of the Woman Writer, Second Edition is an essential resource for creative writing courses, oral history courses, writer's workshops, and women's studies programs, and an invaluable guide for any woman who wishes to tell her story.

Storying Relationships Richard Phillips 2021-03-25 Storying Relationships explores the sexual lives of young British Muslims in their own words and through their own stories. It finds engaging and surprising stories in a variety of settings: when young people are chatting with their friends; conversing more formally within families and communities; scribbling in their

diaries; and writing blogs, poems and books to share or publish. These stories challenge stereotypes about Muslims, who are frequently portrayed as unhappy in love and sexually different. The young people who emerge in this book, contradicting racist and Islamophobic stereotypes, are assertive and creative, finding and making their own ways in matters of the body and the heart. Their stories – about single life, meeting and dating, pressure and expectations, sex, love, marriage and dreams – are at once specific to the young British Muslims who tell them, and resonant reflections of human experience.

Women and Literacy Beth Daniell 2020-08-18 Path-breaking research on women and literacy in the past decade established conventions and advanced innovative methods that push the making of knowledge into new spheres of inquiry. Taking these accomplishments as a point of departure, this volume emphasizes the diversity—of approaches and subjects—that

To Know Each Other And Be Known Womens Writing Workshops

characterizes the next generation of research on women and literacy. It builds on and critiques scholarship in literacy studies, composition studies, rhetorical theory, gender studies, postcolonial theory, and cultural studies to open new venues for future research. Contributors discuss what literacy is—more precisely, what literacies are—but their strongest interest is in documenting and theorizing women’s lived experience of these literacies, with particular attention to: the diversity of women’s literacies within the U.S., including but not limited to the varying relations that exist among women, literacy, economic position, class, race, sexuality, and education; relations among women, literacy, and economic contexts in the U.S. and abroad, including but not limited to changes in women’s private and domestic literacies, the evolution of technologies of literacy, and women’s experience of the commodification of literacies; and emergent roles of women and literacy in a globally

interdependent world. This broad, significant work is a must-read for researchers and graduate students across the fields of literacy studies, composition studies, rhetorical theory, and gender studies.

Writing for Wellbeing Katrin Den Elzen
2023-07-07 Writing can support our wellbeing even under the most difficult life circumstances, helping us to adapt to significant change, make sense of loss, improve our physical and emotional resilience, and foster personal growth. Numerous studies of Expressive Writing have confirmed this, and there are other established methodologies for practice. However, to date, few accounts have offered detailed descriptions showing how and why putting pen to paper can be so beneficial. This book delves deeply into the landscape of Writing-for-wellbeing and demonstrates the transformative power of writing in a wide range of contexts. Topics include personal trauma narratives within the Humanities; a participatory Writing-for-

wellbeing study that demonstrates the effectiveness of writing in the context of grief and loss; surprise as the hidden mainspring of poetry's therapeutic potency; the empowerment and healing potential offered by Black women's blogs; playwriting positioning LGBTQIA+ identities as positive through stories of belonging; how writing workshops have helped newly literate Indigenous adults and other participants in the Australian outback; and how the smuggled writings of Behrouz Boochani have enabled global witnessing of the stories of refugees held in offshore detention. This resource sets out the theory and research at the foundation of Writing-for-wellbeing in close relation to full and engaging accounts of practice. It aims to make the topic accessible and affirms its place as an effective reconstructive practice alongside other expressive arts therapies, providing a holistic and inspiring resource for anyone wishing to practice, teach, or research Writing-for-

wellbeing.

Does the Writing Workshop Still Work?

Dianne Donnelly 2010-05-28 This book explores the effectiveness of the workshop in the Creative Writing classroom, and looks beyond the question of whether or not the workshop works to address the issue of what an altered

pedagogical model might look like. In visualising what else is possible in the workshop space, the sixteen chapters collected in 'Does the Writing Workshop Still Work?' cover a range of theoretical and pedagogical topics and explore the inner workings and conflicts of the workshop model. The needs of a growing and diverse student population are central to the chapter authors' consideration of non-normative pedagogies. The book is a must-read for all teachers of Creative Writing, as well as for researchers in Creative Writing Studies.

Women's Liberation! Alix Kates Shulman
2021-02-16 Two pioneering feminists present a groundbreaking collection recovering a generation's revolutionary insights for today. When Betty Friedan published *The Feminine Mystique* in 1963, the book exploded into women's consciousness. Before the decade was out, what had begun as a campaign for women's civil rights transformed into a diverse and revolutionary movement for freedom and social

justice that challenged many aspects of everyday life long accepted as fixed: work, birth control and abortion, childcare and housework, gender, class, and race, art and literature, sexuality and identity, rape and domestic violence, sexual harassment, pornography, and more. This was the women's liberation movement, and writing—powerful, personal, and prophetic—was its beating heart. Fifty years on, in the age of #MeToo and Black Lives Matter, this visionary and radical writing is as relevant and urgently needed as ever, ready to inspire a new generation of feminists. Activists and writers Alix Kates Shulman and Honor Moore have gathered an unprecedented collection of works—many long out-of-print and hard to find—that catalyzed and propelled the women's liberation movement. Ranging from Friedan's *Feminine Mystique* to *Backlash*, Susan Faludi's Reagan-era requiem, and framed by Shulman and Moore with an introduction and headnotes that provide historical and personal context, the

anthology reveals the crucial role of Black feminists and other women of color in a decades long mass movement that not only brought about fundamental changes in American life—changes too often taken for granted today—but envisioned a thoroughgoing revolution in society and consciousness still to be achieved.
