The \$100 Startup Chris Guillebeau 2012-05-08 Lead a life of adventure, meaning and purpose—and earn a good living. “Thoughtful, funny, and compulsively readable, this guide shows how ordinary people can build solid

livings, with independence and purpose, on their own terms.”—Gretchen Rubin, author of the #1 New York Times bestseller *The Happiness Project* Still in his early thirties, Chris Guillebeau completed a tour of every country on earth and yet he’s never held a “real job” or earned a regular paycheck. Rather, he has a special genius for turning ideas into income, and he uses what he earns both to support his life of adventure and to give back. Chris identified 1,500 individuals who have built businesses earning \$50,000 or more from a modest investment (in many cases, \$100 or less), and focused on the 50 most intriguing case studies. In nearly all cases, people with no special skills discovered aspects of their personal passions that could be monetized, and were able to restructure their lives in ways that gave them greater freedom and fulfillment. Here, finally, distilled into one easy-to-use guide, are the most valuable lessons from those who’ve learned how to turn what they do into a gateway to self-

fulfillment. It's all about finding the intersection between your "expertise"—even if you don't consider it such—and what other people will pay for. You don't need an MBA, a business plan or even employees. All you need is a product or service that springs from what you love to do anyway, people willing to pay, and a way to get paid. Not content to talk in generalities, Chris tells you exactly how many dollars his group of unexpected entrepreneurs required to get their projects up and running; what these individuals did in the first weeks and months to generate significant cash; some of the key mistakes they made along the way, and the crucial insights that made the business stick. Among Chris's key principles: If you're good at one thing, you're probably good at something else; never teach a man to fish—sell him the fish instead; and in the battle between planning and action, action wins. In ancient times, people who were dissatisfied with their lives dreamed of finding magic lamps, buried treasure, or streets paved with gold.

Today, we know that it's up to us to change our lives. And the best part is, if we change our own life, we can help others change theirs. This remarkable book will start you on your way.

Become Totally Debt-free in Five Years Or Less Gwendolyn D. Gabriel 2000

Start Your Own Home Watch Business Craig Wallin 2020-01-04 The senior population is growing fast - today one out of six Americans is over 65. That's 52 million seniors! Many of these seniors can afford (and want) second homes, so the number of second homes has grown dramatically in the last 2 decades. In addition to prosperous seniors, the number of highly paid professionals has also grown in recent years, and a second home is high on their wish list as well. As the number of second homes has grown, so has the need for someone to look after both the primary and second home while the owners are away. And because home prices have increased so much, they are a major investment that requires paid professional care to prevent

and control damage and risks from everything from natural disasters to a leaky faucet. Today, almost all home insurance companies require regular home checks by a pro if a home is to be unoccupied for extended periods of time. According to industry insiders, home watch services have now become a multi-billion dollar industry, with steady growth and great prospects for the future, as it's an essential, recession-proof service that's needed every year regardless of whether the economy is booming or not. This growing demand has created a golden opportunity for those who can provide security and peace of mind for homeowners who are away from their homes. It's important to note that home watch services are needed in all communities, not just in vacation or sunbelt areas. For example, when a "snowbird" homeowner leaves their primary residence in the fall to spend a few months in the sunbelt, a skilled home watch pro is needed to look after their home during the winter months to prevent

problems, just after another home watch pro looks after the sunbelt home during the summer months when the owner has returned to their northern home. A home watch business can keep you as busy as you wish, whether you live in a small community or a large city. It requires no formal education or expensive training, just common sense, a can-do attitude, organizational skills and honesty. Plus, a home watch business can be started with very little money - as little as a few hundred dollars. If you have a car and a cellphone, you're almost there. A home watch business offers you: - Flexible hours.- Be your own boss.- A recession proof business. - Start on a shoestring. In this book, you'll discover: - How to get started with just a few hundred dollars. - How to price your services.- How to get a steady stream of new customers.- How to boost your profits with "add-on" services. - How to get free advertising.- The tax deduction that can pay for your new vehicle
