Stripes Linda O'Keeffe 2012-10-23 In *Stripes: Design Between the Lines*, writer and design expert Linda O'Keeffe explores the lineage of lines as they shape culture, art, and style. The illustrations create a rollicking visual ride while the accompanying text—by turns witty and weighty—shows how these potent, sometimes-charged symbols have even changed the course of world history. The simplest and most ancient of all decorative markings, stripes perpetually fascinate. Natural inspirations in the forms of zebra stripes, rippled sand dunes, and intricately gnarled wood grain have led us to use stripes in every permutation: on human bodies from elaborate woven textiles to the iconic Breton T-shirt to sharp pin-striped suits, in art from the earliest cave paintings to vibrant op art canvases, and in industrial design from World War II-era dazzle battleships to the ubiquitous bar code. Their appeal endures. With over 250 full-color images, *Stripes: Design Between the Lines* provides a wholly original look at one of the most recognizable patterns of all time. Eight thematic chapters present stripes in every conceivable manifestation, from diabolical to decorative, historic to postmodern. The result is a wonderfully varied visual collage that shows how design-savvy people throughout the ages and recent design stars including Jonathan Adler, Geoffrey Beene, Jamie Drake, Jean Paul Gaultier, Josef Hoffman, Sol LeWitt, Todd Oldham, Alberto Pinto, Giò Ponti, Karim Rashid, David Rockwell, Carolyne Roehm, Paul Smith, and Vivienne Westwood have incorporated stripes into their work and daily lives.

House Beautiful Judith Gura 2002

American House Now Susan Doubilet 2002 "The houses in this volume share a common point of origin: all draw upon the established principles of American Modernism. At the same time, they differ markedly from one another and in so doing demonstrate the diversity implicit in that style.

At one end of the spectrum are the cerebral, unviolated sculptural forms of Richard Meier's Grotta House; at the other end is the rugged expressionism of Eric Owen Moss's Lawson/Western House. The collection represents both established American architects, such as Meier and John Lautner; such internationally known contemporaries as Stephen Holt, Mark Mack, and Arquitectonica; and newcomers Carlos Zapata and UKZ."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. How Design Makes Us Think Sean Adams 2021-03-30 From posters to cars, design is everywhere. While we often discuss the aesthetics of design, we don't always dig deeper to unearth the ways design can overtly, and covertly, convince us of a certain way of thinking. *How Design Makes Us Think* collects hundreds of examples across graphic design, product design, industrial design, and architecture to illustrate how design can inspire, provoke, amuse, anger, or reassure us. Graphic designer Sean Adams walks us through the power of design to attract attention and convey meaning. The book delves into the sociological, psychological, and historical reasons for our responses to design, offering practitioners and clients alike a new appreciation of their responsibility to create design with the best intentions. *How Design Makes Us Think* is an essential read for designers, advertisers, marketing professionals, and anyone who wants to understand how the design around us makes us think, feel, and do things.

The Big Idea Scott Johnson 2006-06-29 Scott Johnson is the highly acclaimed designer of some of L.A.'s most recognized architecture. As partner in the award-winning Los Angeles architecture firm Johnson Fain he was the creative force behind extraordinary buildings such as the Sun America Building and the Fox Tower affectionately nicknamed the "Die Hard Building" after its starring role in the film. In this engaging memoir, Johnson shares his personal experiences as a designer and considers the relationship between practice and theory over the last forty years of American architecture. From his childhood days in California's Salinas Valley, to his tenure with legendary architect Philip Johnson, to his time with Skidmore Owings & Merrill, to the formation of his own firm and its rise toward the top of the architectural firmament, Johnson's unique insight makes for a fascinating discussion of each of the major movements that have characterized the world of architecture since Modernism in one of America's most interesting metropolises.

Joyful Ingrid Fetell Lee 2018-09-04 Make small changes to your surroundings and create extraordinary happiness in your life with groundbreaking research from designer and TED star Ingrid Fetell Lee. Next Big Idea Club selection—chosen by Malcolm Gladwell, Susan Cain, Dan Pink, and Adam Grant as one of the "two most groundbreaking new

nonfiction reads of the season!" "This book has the power to change everything! Writing with depth, wit, and insight, Ingrid Fetell Lee shares all you need to know in order to create external environments that give rise to inner joy." —Susan Cain, author of *Quiet* and founder of Quiet Revolution Have you ever wondered why we stop to watch the orange glow that arrives before sunset, or why we flock to see cherry blossoms bloom in spring? Is there a reason that people—regardless of gender, age, culture, or ethnicity—are mesmerized by baby animals, and can't help but smile when they see a burst of confetti or a cluster of colorful balloons? We are often made to feel that the physical world has little or no impact on our inner joy. Increasingly, experts urge us to find balance and calm by looking inward—through mindfulness or meditation—and muting the outside world. But what if the natural vibrancy of our surroundings is actually our most renewable and easily accessible source of joy? In *Joyful*, designer Ingrid Fetell Lee explores how the seemingly mundane spaces and objects we interact with every day have surprising and powerful effects on our mood. Drawing on insights from neuroscience and psychology, she explains why one setting makes us feel anxious or competitive, while another fosters acceptance and delight—and, most importantly, she reveals how we can harness the power of our surroundings to live fuller, healthier, and truly joyful lives. [Loft](#) Mayer Rus 1998 The loft is increasingly the residential image most identified with New York. Originally popularized by artists and designers, the enormous raw spaces, most often in old industrial buildings in lower Manhattan, have been laboratories for the creativity of architects. Some of the most striking and important residential design of the latter part of the twentieth century has been created for lofts. Celebrated design arbiter Mayer Rus has had unparalleled access to the most exceptional new projects. He has gathered a great variety of architects and designers -- all widely published in popular and trade magazines -- for the book: Henry Smith-Miller and Laurie Hawkinson, Peter Stamberg and Paul Aferiat, Architecture Research Office, and Deborah Berke. Paul Warchol's exquisite photographs, most taken especially for this volume, capture not only the design and details but the qualities of light, context, and history that make each loft unique. The engaging text highlights the designers, owners, and their residences, in addition to evoking the dramatic qualities of loft living.
