family is close-knit. Tom is a popular teacher, father of two teens: Eli, a hockey star and girl magnet, and his sister Deenie, a diligent student. Their seeming stability, however, is thrown into chaos when Deenie's best friend is struck by a terrifying, unexplained seizure in class. Ship Fever: Stories Andrea Barrett 1996-11-17 A collection of stories that consider the struggles of love and science includes the title work, in which a young Canadian doctor, treating Irish immigrants who have been driven out by the Great Famine, experiences one of history's most tragic epidemics

**Ship Fever: Stories** Andrea Barrett 1996-11-17 1996 National Book Award Winner for Fiction. The elegant short fictions gathered hereabout the love of science and the science of love are often set against the backdrop of the nineteenth century. Interweaving historical and fictional

characters, they encompass both past and present as they negotiate the complex territory of ambition, failure, achievement, and shattered dreams. In "Ship Fever," the title novella, a young Canadian doctor finds himself at the center of one of history's most tragic epidemics. In "The English Pupil," Linnaeus, in old age, watches as the world he organized within his head slowly drifts beyond his reach. And in "The Littoral Zone," two marine biologists wonder whether their life-altering affair finally was worth it. In the tradition of Alice Munro and William Trevor, these exquisitely rendered fictions encompass whole lives in a brief space. As they move between interior and exterior journeys, "science is transformed from hard and known fact into malleable, strange and thrilling fictional material" (Boston Globe).

How did Robert Louis Stevenson's cruise to the cannibal-infested South Sea islands prove instrumental in his writing of *The Beach of Falesa* and *The Ebb Tide*? How did Masefield survive Cape Horn and a near-nervous breakdown to write *Sea Fever*? The waters of this world have swirled through storytelling ever since the Celts spun the tale of Beowulf and Homer narrated *The Odyssey*. This enthralling book takes us on a tour of the most dangerous, exciting and often eccentric escapades of literature's sailing stars, and how these true stories inspired and informed their best-loved works. Arthur Ransome, Erskine Childers, Jack London and many others are featured as we find out how extraordinary fact fed into unforgettable fiction.

From the #1 New York Times bestselling author of *These Violent Delights* and *Our Violent Ends*

comes the “equal parts intoxicating and dazzling” (Roshani Chokshi, New York Times bestselling author of *The Gilded Wolves*) first book in a captivating new duology following an ill-matched pair of spies posing as a married couple to investigate a series of brutal murders in 1930s Shanghai. It’s 1931 in Shanghai, and the stage is set for a new decade of intrigue. Four years ago, Rosalind Lang was brought back from the brink of death, but the strange experiment that saved her also stopped her from sleeping and aging—and allows her to heal from any wound. In short, Rosalind cannot die. Now, desperate for redemption for her traitorous past, she uses her abilities as an assassin for her country. Code name: Fortune. But when the Japanese Imperial Army begins its invasion march, Rosalind’s mission pivots. A series of murders is causing unrest in Shanghai, and the Japanese are under suspicion. Rosalind’s new orders are to infiltrate foreign society and identify the culprits behind the terror plot before

more of her people are killed. To reduce suspicion, however, she must pose as the wife of another Nationalist spy, Orion Hong, and though Rosalind finds Orion's cavalier attitude and playboy demeanor infuriating, she is willing to work with him for the greater good. But Orion has an agenda of his own, and Rosalind has secrets that she wants to keep buried. As they both attempt to unravel the conspiracy, the two spies soon find that there are deeper and more horrifying layers to this mystery than they ever imagined.

**Archive Fever** Jacques Derrida 1996 As a depository of civic record and social history whose very name derives from the Greek word for town hall, the archive would seem to be a public entity, yet it is stocked with the personal, even intimate, artifacts of private lives. It is this inherent tension between public and private which inaugurates, for Derrida, an inquiry into the human impulse to preserve, through technology as well as tradition, both a historical

and a psychic past. What emerges is a marvelous expansive work, engaging at once Judaic mythos, Freudian psychoanalysis, and Marxist materialism in a profound reflection on the real, the unreal, and the virtual.

**The Comparative 1st Century Aramaic Bible in Plain English (8th ed.) & King James Version New Testament with Psalms and Proverbs**

Rev. David Bauscher 2011 This is the 3rd comparative edition of the 8th edition translation of The Aramaic New Testament (Aramaic was the language of Jesus and his countrymen of 1st century Israel) in an English prose translation of The Peshitta New Testament displayed in two columns- one has the King James Version on the left and the other has the translation of the Aramaic Peshitta on the right. This translation is derived from the author's Aramaic-English Interlinear New Testament. Aramaic was used in Mel Gibson's film "The Passion of the Christ" to make the film as realistic and accurate as possible. This New Testament will surprise and thrill the reader with its power and inspiration coming from the

words of "Yeshua" ("Jesus" in ancient Aramaic) as He originally spoke them, in a literal and readable English rendering. 659 pages in 6x9" paperback. The parallel Psalms and Proverbs of both versions are included after the NT.

*Terrible Old Games You've Probably Never Heard Of* Stuart Ashen 2015-12-03 *Terrible Old Games You've Probably Never Heard Of* is a full-colour illustrated compendium of the most painfully bad games, based on Ashens' YouTube series of the same name. Everyone's heard of E.T. for the Atari 2600 and Superman for the Nintendo 64, but these are almost nothing next to the abject incompetence of Count Duckula 2

on the Amstrad CPC. There are people who seriously believe that Shaq Fu is the worst fighting game ever made, having never experienced Dangerous Streets on the Amiga. This book will blow their very soul apart. (Not a guarantee.) Terrible Old Games You've Probably Never Heard Of is meticulously researched and written, with the dry humour you'd expect from a man who has somehow made a living by sticking rubbish on a sofa and talking about it. Each entry is accompanied by a series of full-colour images from the games.

It's Los Angeles, 1956, and it takes more than one murdered black girl before the cops get interested. Now they need Easy. As he says: "I was worth a precinct full of detectives when the cops needed the word in the ghetto." But Easy turns them down. He's married now, a father -- and his detective days are over. Then a white college coed dies the

same brutal death, and the cops put the heat on Easy: If he doesn't help, his best friend is headed for jail. So Easy's back, walking the midnight streets of Watts and the darker, twisted avenues of a cunning killer's mind....

Records of Maculated Typhus, Or Ship Fever,

with Suggestions of Treatment J. B. Upham 2017-11-14 Excerpt from Records of Maculated Typhus, or Ship Fever, With Suggestions of Treatment: Being the Result of a Series of Observations Made During the Prevalence of This Disease at South Boston and Deer Island Hospitals in 1847-1848 I. The conditions and appearances of the fever as presented under the exalted and depressing type, in both its mild and severe forms, terminating in recovery and otherwise. II. The secondary intestinal affection or sequel to the fever, with the striking lesions discovered in the intestinal tract. III. The effects of treatment as adapted to these various forms and manifestations of the disease. Some of the cases here selected, are the same published in an isolated form in the Boston Medical and Surgical Journal, in January and February, 1848, and are chosen as showing perhaps more perfectly than any others the different phases of the epidemic as it appeared in the above-named places. The first instance adduced is one of

sporadic 'nature, of medium severity, which could be traced to no definite source, running its course evenly and without any marked phenomena, but of the nature of which there could be no doubt. About the Publisher

**Cabin Fever** Michael Smith 2022-06-21 The true story of the Holland America cruise ship Zaandam, which set sail with a deadly and little-understood stowaway—COVID-19—days before the world shut down in March 2020. This riveting narrative thriller takes readers behind the scenes with passengers and crew who were caught unprepared for the deadly ordeal that lay ahead. In early 2020, the world was on edge. An ominous virus was spreading on different continents, and no one knew what the coming weeks would bring. Far from the hot spots, the cruise ship Zaandam, owned by Holland America, was preparing to sail from Buenos Aires, Argentina, loaded with 1,200 passengers—Americans, Europeans and South Americans, plus 600 crew. Most passengers

were over the age of sixty-five. There was concern about the virus on the news, and it had already killed and sickened passengers on other Holland America ships. But that was oceans away, and escaping to sea at the ends of the earth for a few weeks seemed like it might be a good option. The cruise line had said the voyage (three weeks around the South American coastline to see some of the world's most stunning natural wonders and ancient ruins) would carry on as scheduled, with no refunds. And it would be safe. Among the travelers there is a retired American school superintendent on a dream vacation with his wife of fifty-six years, on a personal quest to see Machu Picchu. There is an Argentine psychologist taking this trip to celebrate her sixty-fourth birthday with her husband, though she finds herself fretting in her cabin on day one, trying to dismiss her fears of what she's hearing on the news. There is an Indonesian laundry manager who's been toiling on Holland America cruise ships for thirty years,

sending his monthly paycheck to his family back home. Within days, people aboard Zaandam begin to fall sick. The world's ports shut down. Zaandam becomes a top story on the news and is denied safe harbor everywhere. With only two doctors aboard and few medical supplies to test for or treat COVID-19, and with dwindling food and water, the ship wanders the oceans on an unthinkable journey.

ROBERTSON 2018-04-20 The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available

in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Medical theory and practice of the 1700s developed rapidly, as is evidenced by the extensive collection, which includes descriptions of diseases, their conditions, and treatments. Books on science and technology, agriculture, military technology, natural philosophy, even cookbooks, are all contained here. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. Boyhood 2014-11-01 In 2002, director Richard

Linklater and a crew began filming the “Untitled 12-Year Project.” He cast four actors (Patricia Arquette, Ethan Hawke, Ellar Coltrane, and Lorelei Linklater) in the role of a family and filmed them each year over the next dozen years. Supported by IFC Productions, Linklater, cast, and crew began the commitment of a lifetime that became the film, *Boyhood*. Seen through the eyes of a young boy in Texas, *Boyhood* unfolds as the characters—and actors—age and evolve, the boy growing from a soft-faced child into a young man on the brink of his adult life, finding himself as an artist. Photographer Matt Lankes captured the progression of the film and the actors through the lens of a 4x5 camera, creating a series of arresting portraits and behind-the-scenes photographs. His work documents Linklater’s unprecedented narrative that used the real-life passage of years as a key element to the storytelling. Just as *Boyhood* the film calls forth memories of childhood and lures one into a place

of self-reflection, *Boyhood: Twelve Years on Film* presents an honest collection of faces, placed side-by-side, that chronicles the passage of time as the camera connects with the cast and crew on an intimate level. Revealing, personal recollections by the actors and filmmakers accompany the photographs.

**Fever Season** Barbara Hambly 1999-05-04 Benjamin January made his debut in bestselling author Barbara Hambly's *A Free Man of Color*, a

haunting mélange of history and mystery. Now he returns in another novel of greed, madness, and murder amid the dark shadows and dazzling society of old New Orleans, named a Notable Book of the Year by the *New York Times*. The summer of 1833 has been one of brazen heat and brutal pestilence, as the city is stalked by Bronze John—the popular name for the deadly yellow fever epidemic that tests the healing skills of doctor and voodoo alike. Even as Benjamin January tends the dying at Charity Hospital during the steaming nights, he continues his work as a music teacher during the day. When he is asked to pass a message from a runaway slave to the servant of one of his students, January finds himself swept into a tempest of lies, greed, and murder that rivals the storms battering New Orleans. And to find the truth he must risk his freedom...and his very life.
