Heaven is High, the Emperor Far Away Valery M. Garrett 2002 Through a richly illustrated text, this book recounts the vivid history of Canton, which in its heyday was the center of the China Trade and was for centuries the wonder of the Far East,  
Liverpool China Traders Christina Baird 2007 Perhaps the most enduring image of the China Trade is the clipper ship carrying tea from China. In 1869 the clippers were finally overshadowed by the introduction of steam vessels which could make passage through the Suez Canal, significantly shortening the length of the voyage. Letters, journals and order books have survived which tell us about the traders, their private trading activities, motivation, tastes and private lives. This book examines the role played by the port of Liverpool in this time of great change. The book examines Liverpool's early participation in the China Trade following the cessation of the British East India Company's monopoly of the trade in 1834 and maps the changes in artistic tastes that the commencement of free trade gave rise to. These new tastes represented a true fusion of European and Chinese cultural influences and replaced the pastiche of 'The Orient' that chinoiserie represented during the period of the monopoly.--Amazon.com.

**Renaissance Of Asia: Evolving Economic Relations Between South Asia And East Asia** Pradumna Bickram Rana 2012-03-14 A recent study by the Asian Development Bank notes that by 2050, Asia's per capita income would rise six-fold to reach Europe's levels today, one of many indications of Asia's "re-emergence". By then, Asia's share of global GDP would have doubled and it would have regained the dominant economic position it once held some 300 years ago before the industrial revolution. What is less well-known is that during the previous eras of globalization, Asia was also regionally integrated and globally connected. During the 19th and the first half of the 20th centuries, Asia was divided and fragmented. This unique book argues that, led by the economic dynamism and "re-encountering" between China and India, we are witnessing the "Renaissance of Asia". As in the bygone eras, Asia is integrating within itself and the global economy is intensifying, now driven by market-oriented production networks and economic policies. Asia is starting to be "re-centered" as trade and investment relations between South Asia and East Asia surge. Asia's rise is a restoration of the past, not a revolution. This book is a must-read for anyone interested in the economic development of Asia.

**Far China Station** Robert Erwin Johnson 2013-08-15 Far China Station was the first work to put nineteenth century American naval and diplomatic affairs in the Far East into clear perspective. Johnson examines the origins of the East India Squadron, defines its import role in the implementation of foreign policy and describes the dangers routinely faced by the squadron's ships and sailors. Great and gallant ships move through the pages from the famous Olympia and the majestic Columbus to the plodding Palos. Naval heroes and the not-so-great, angry mobs, Japanese rebels, leaky boilers, imperious officials and infirm admirals are set against a background of uncertain anchorages, storms at sea, and the ravages of disease in the last years of the Old Navy.

*True Yankees* Dane A. Morrison 2014-12-22 With American independence came the freedom to sail anywhere in the world under a new flag. Drawing on private journals, letters, ships' logs, memoirs, and newspaper accounts, this book traces America's earliest encounters on a global stage through the exhilarating experiences of five Yankee seafarers.

*The Long Game* Rush Doshi 2021-06-11 For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive

regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

**Gold Rush Port** James P. Delgado 2009-03-04 Described as a "forest of masts," San Francisco's Gold Rush waterfront was a floating economy of ships and wharves, where a dazzling array of global goods was traded and transported. Drawing on excavations in buried ships and collapsed buildings from this period, James P. Delgado re-creates San Francisco's unique maritime landscape, shedding new light on the city's remarkable rise from a small village to a boomtown of thousands in the three short years from 1848 to 1851. Gleaning history from artifacts—preserves and liquors in bottles, leather boots and jackets, hulls of ships, even crocks of butter lying alongside discarded guns—*Gold Rush Port* paints a fascinating picture of how ships and global connections created the port and the city of San Francisco. Setting the city's history into the wider web of international relationships, Delgado reshapes our understanding of developments in the Pacific that led to a world system of trading.

**China and the Gulf Cooperation Council Countries** Muhamad S. Olimat 2016-09-21 This book examines China's relations with member states of the Gulf Cooperation Council. It highlights the depth of China's

ties with the region bilaterally and multilaterally on a five-dimensional approach: political relations, trade relations, energy security, security cooperation, and cultural relations.

**China and Iran** Edward Burman 2009-08-03 China and Iran have featured heavily in the news in recent years. China is both a military and an economic superpower with 20% of the world's population; Iran is suspected of developing nuclear weapons and arming terrorists, and sits on the world's second-largest oil and gas reserves. They are also surprisingly close geographically: Iran is only 700 miles across Afghanistan from China's extreme western border. A 25-year, \$100 billion deal to supply China with oil and gas and the large number of Chinese companies operating in Iran shows that the two are moving increasingly close in both political and economic terms. But what does this mean for the rest of the world, and especially for 'the West?' Edward Burman examines how the strikingly similar histories of these two ancient civilisations can inform what the likely consequences for the world of an alliance between them might be.

**Salem** Dane Anthony Morrison 2015-01-16 How is a sense of place created, imagined, and reinterpreted over time? That is the intriguing question addressed in this comprehensive look at the 400-year history of Salem, Massachusetts, and the experiences of fourteen generations of people who lived in a place mythologized in the public imagination by the horrific witch trials and executions of 1692 and 1693. But from its settlement in 1626 to the present, Salem was, and is, much more than this. In this volume, contributors from a variety of fields examine Salem's multiple urban identities: frontier outpost of European civilization, cosmopolitan seaport, gateway to the Far East, refuge for religious diversity, center for education, and of course, "Witch City" tourist attraction.

**The United States and China** Dong Wang 2021-07-28 Now fully

revised and updated, The United States and China offers a comprehensive synthesis of US-Chinese relations from initial contact to the present. Balancing the modern (1784-1949) and contemporary (1949-present) periods, Dong Wang retraces centuries of interaction between two of the world's great powers from the perspective of both sides. She examines state-to-state diplomacy, as well as economic, social, military, religious, and cultural interplay within varying national and international contexts. As China itself continues to grow in global importance, so too does the US-Chinese relationship, and this book provides an essential grounding for understanding its past, present, and possible futures.

**Chinese Strategy and Military Modernization in 2015** Anthony H. Cordesman 2016-01-12 China's emergence as a global economic superpower, and as a major regional military power in Asia and the Pacific, has had a major impact on its relations with the United States and its neighbors. China was the driving factor in the new strategy the United States announced in 2012 that called for a "rebalance" of U.S. forces to the Asia-Pacific region. At the same time, China's actions on its borders, in the East China Sea, and in the South China Sea have shown that it is steadily expanding its geopolitical role in the Pacific and having a steadily increasing impact on the strategy and military developments in other Asian powers.

Destined For War Graham Allison 2017-05-30 NATIONAL BESTSELLER |

NEW YORK TIMES NOTABLE BOOK OF THE YEAR. From an eminent international security scholar, an urgent examination of the conditions that could produce a catastrophic conflict between the United States and China—and how it might be prevented. China and the United States are heading toward a war neither wants. The reason is Thucydides's Trap: when a rising power threatens to displace a ruling one, violence is the likeliest result. Over the past five hundred years, these conditions have occurred sixteen times; war broke out in twelve. At the time of publication, an unstoppable China approached an immovable America, and both Xi Jinping and Donald Trump promised to make their countries "great again," the seventeenth case was looking grim—it still is. A trade conflict, cyberattack, Korean crisis, or accident at sea could easily spark a major war. In *Destined for War*, eminent Harvard scholar Graham Allison masterfully blends history and current events to explain the timeless machinery of Thucydides's Trap—and to explore the painful steps that might prevent disaster today. SHORT-LISTED FOR THE 2018 LIONEL GELBER PRIZE NAMED A BEST BOOK OF THE YEAR BY: FINANCIAL TIMES \* THE TIMES (LONDON)\* AMAZON "Allison is one of the keenest observers of international affairs around." — President Joe Biden "[A] must-read book in both Washington and Beijing." — Boston Globe "[Full of] wide-ranging, erudite case studies that span human history . . . **Sailors, Whalers, Fantastic Sea Voyages** Valerie Petrillo 2003-06-01 Children are fascinated with sailing ships, lighthouses, whaling, shipwrecks, and mutinies, and these 50-plus activities will provide them with a boatful of fun. This activity guide shows kids what life was like for the greenhands, old salts, and captains on the high seas during the great age of sail in the 19th century: aboard square-riggers, clippers, whalers, schooners, and packet ships. Life aboard ship was an exciting subculture of American life with its own language, food, music, art, and social structure. Children will learn that many captains brought their wives and children aboard ship, and that kids who learned how to walk at sea often found it difficult to walk on dry land. The book begins with the China Tea trade in the late 18th century and ends with the last whaler leaving New

Bedford in 1924. Kids will create scrimshaw using black ink and a bar of white soap; make a model lighthouse using a bike reflector, an oatmeal box, and a plastic soda bottle; and paint china with traditional designs using a blue paint pen and a basic white plate. Included are additional simple activities requiring common household objects that are sure to please busy parents and teachers alike.

**China's Presence in the Middle East** Anoushiravan Ehteshami  
2017-12-04 Chinese President Xi Jinping's "One Belt, One Road" (OBOR) vision, heralded as an attempt to revive the pre-modern Silk Route, is intended to strengthen West Asia's economic links with China through ambitious infrastructural projects. Central to this are fast-track rail links, funded by the newly-established Asia Infrastructure and Investment Bank (AIIB), which has its headquarters in Beijing. This book explores the implications of OBOR and the AIIB for the Middle East/West Asia, and addresses a number of key strategic questions arising from China's new initiatives. These include: how far are the strategic imperatives underpinning China's policies connected to the political dynamics of Xinjiang and the spread of radical Islam in Central Asia? How are Middle Eastern stakeholders' views of China affected by the new initiatives? How does China's increasing involvement in the Middle East/West Asia affect other regional powers with ambitions in the region, notably Russia? The book also considers the impact of China's increasing presence on individual countries, including Saudi Arabia and Israel.

Fitz H. Lane James A. Craig 2006-08-01 Fitz H. Lane's maritime masterpieces are known throughout the world, but the man himself has eluded both historians and art critics for over a century. The Luminist painter's successful career began in his early childhood in picturesque Gloucester, Massachusetts and his talents developed and matured over time, making him one of the nation's premier nineteenth-century artists. Throughout his career, Lane painted with a vitality and attention to detail that was purely American at heart, and it is in pursuit of this ideal that James Craig embarks on a detective's investigation to reconstruct with accuracy and honesty the details of a man about whom much has been written but little revealed. Few clues remain today about the artist

who so thoroughly embodied the American spirit during "one of humanity's most dramatic and confusing historical epochs." Lane's era was one of great change for America, and both he and his art were there to capture that spirit. This dazzling and exhaustive effort provides the first glimpse behind the canvas, beyond the career and into the soul of Fitz H. Lane. Passionate, stunning and thrilling, this is a narrative that returns life and color to a man intent on preserving and presenting the life of the culture he loved. James Craig has given Gloucester back one of her favorite sons.
