Virtue and the Moral Life William Werpehowski 2014-07-22 The scope of interest and reflection on virtue and the virtues is as wide and deep as the questions we can ask about what makes a moral agent's life decent, or noble, or holy rather than cruel, or base, or sinful; or about the conditions of human character and circumstance that make for good relations between family members, friends, workers, fellow citizens, and strangers, and the sorts of conditions that do not. Clearly these questions will inevitably be directed to more finely grained features of everyday life in particular contexts. *Virtue and the Moral Life: Theological and Philosophical Perspectives* takes up these questions. In its ten timely and original chapters, it considers the specific importance of virtue ethics, its public significance for shaping a society's common good, the value of civic integrity, warfare and returning soldiers' sense of enlarged moral responsibility, the care for and agency of children in contemporary secular consumer society, and other questions involving moral failure, humility, and forgiveness.

A Theology of Compromise Richard Grecco 1991 The impact of Charles E. Curran's thinking on contemporary ethical issues has been extensive, commanding popular attention and scholarly analysis from an international readership. Yet remarkably little has been written of the ethical method which Curran employs to arrive at his conclusions. This dissertation is an exposition and assessment of his four step method in moral theology. To test whether Curran's own thinking actually follows these stages, Grecco applies the four step procedure to Curran's - Theology of Compromise-. There result some fascinating problems, suggestions and questions for those engaged in the methodology of theological ethics."
