*The Old Pro Turkey Hunter* Gene Nunnery 2018-10-15 During his life, Gene Nunnery was recognized as a master turkey hunter and an artisan who crafted unique, almost irresistible turkey calls. In *The Old Pro Turkey Hunter*, the vaunted sportsman shares over fifty years of personal experience in Mississippi and surrounding states, along with the decades-old wisdom of the huntsmen who taught him. Throughout the book, his stories make clear that turkey hunting is more than just killing the bird--it is about matching wits with a wild and savvy adversary. As Nunnery explains, "To me that's what it's all about: finding a wise old gobbler who will test your skill as a turkey hunter." Through his stories, Nunnery reveals that the true reward for successful turkey hunting lies in winning the contest, not necessarily exterminating the foe. Real sportsmen know that every now and then the turkey should and will elude the hunter. As Nunnery looks back on his extensive career, he analyzes vast differences in practice, old and new. The shift, he decides, came during his last twenty years on the hunt, and that difference has only increased in the decades since this book was originally published. Michael O. Giles, Bass Pro staff team member, master turkey hunter, and award-winning outdoors writer and author of *Passion of the Wild*, writes a new foreword that brings the practice of turkey hunting into the present day. Filled with a tested mixture of common sense and specific examples of how master turkey hunters honor their harvest and heritage, *The Old Pro Turkey Hunter* is the perfect companion for the novice or the adept.

**Big Bucks the Benoit Way** Bryce M. Towsley 2016-04-19 See what it takes to track trophy-sized bucks like the legends do. If there is such a thing as hunting royalty, then the Benoit family is it. They have been raking in trophy-sized bucks since Larry Benoit first began to pioneer his unique tracking methods. As the family grew, so did the Benoit hunting repertoire, expanding beyond simple snow tracking to all-season tracking. Author Bryce M. Towsley had a unique opportunity in the late nineties: to deer hunt with the Benois for an extended period in the deep woods of Maine. He spent time with the Benoit family observing and learning their hunting tactics, techniques, and long-protected secrets. The product of Towsley's inclusion in the Benoit family tradition is *Big Bucks the Benoit Way*. Fully illustrated with Towsley's beautiful, full-color photography and written with his trademark prose and with a new introduction by the author, it tracks his experience following in the footsteps of the great Benoit hunters, learning their craft and sharing it with you. *Big Bucks the Benoit Way* is more than an exploration of the fine art of tracking bucks; it's a glimpse at the heart and beauty of American big-game hunting. Hunting Farm Country Whitetails Dragan Vujic 2005-06-07 In their formative years, whitetails develop an intimate relationship with their environment. Thereafter, these big game animals resonate in perfect harmony with their specific surroundings. Behavior patterns of timberland, mountain bred, prairie flats and farm country deer vary substantially. Whitetails behave differently depending on where they are hunted. Predominantly, habitat dictates habits and routines in daily activity. Deer patterns become relatively uniform and reasonably predictable in any particular region. Irrespective of where they live, all whitetails become creatures of habit. Dragan Vujic has hunted whitetails extensively in the checkered agricultural belts scattered along both sides of the border between Canada and the United States. He shares forty years of hunting experience in this informative book. Initially, Dragan examines and explores the common characteristics of farm country deer. Subsequently, he enumerates and analyzes the drivers and motivators of whitetail behavior. Thereafter, having integrated all of the relevant information, the author suggests several effective strategies for

harvesting farm country whitetails. draganvujic1205@gmail.com

*Whitetail Lessons* Dragan Vujic 2016-04-06 A collection of valuable lessons learned within the context of specific whitetail hunts. This book is not an organized, smooth flow of information. On the contrary, this work is a collage of discrete pockets of knowledge gleaned on particular outings. Hit or miss, there is usually something to appreciate and build on in the pursuit of game animals. The purpose of this book is to give a more detailed account of what exactly was learned and when. There is no chronological order to the presentation of material. All of the excerpts are independent of one another and can be read separately. Inadvertently, whitetails teach us many lessons to their detriment. We just have to pay attention.
