Your birth chart is a snapshot of the sky taken at the moment and place of your birth, one that reflects your character, personality, strengths, and challenges. But the moment after that picture was taken, the planets moved on--some quickly, some very slowly. Astrologers call the moving planets "transits," and by comparing their movements to your birth chart you can gain a complete view of how best to prepare for challenges, meet opportunities, and stay grounded in a constantly-changing world. In *Astrological Transits*, astrologer April Elliott Kent will guide you through the best ways to make the most of your birth chart. Learn how to make the most of good transits and harness and transform the energy of "bad" ones. You'll also understand planetary cycles and anticipate your own transits. Finally, you'll know how to read planetary return charts, work with planetary retrogrades, and use eclipses to recognize major patterns and turning points in your life. If you are comfortable reading a birth chart, you are ready to move your chart into the future using transits. Instructions, tables, and worksheets will make tracking your transit cycles simple and exciting!

From the earliest ages of the world's history the subject of Astrology has excited the interest of, and exercised a great influence over, the minds of a certain order of thinking men. The science has never been universal in its acceptance, though it is safe to say that, with its countless adherents in the East and the ever-increasing number of its advocates in the West, there is no faith which has a more universal application than the belief in the influence of the heavenly bodies over the destinies of human beings. It is not possible within the limits of a small handbook such as this to adequately consider the philosophic paradox which makes of Free Will in man a "necessity in play"; but it is obvious that the concept is not altogether unscientific, seeing that it is customary to speak of the "free path of vibration" in chemical atoms while at the same time it is known that these atoms have their restricted characteristics, modes of motion, &c., and are all subject to the general laws controlling the bodies of which they form integral parts. Let it suffice that if we can trace an actual connectedness between the disposition of the heavenly bodies at the moment of a birth and the known life and character of the individual then born, and an exact correspondence between the course of events in that life with the changes occurring in the heavens subsequent to the moment of birth, we shall do well to accept the fact for what it is worth, and arrange our philosophic notions accordingly. As far back as the year B.C. 2154, we find mention of the great importance attaching to the celestial phenomena in the minds of Chinese rulers. It is recorded in the *Historical Classic of China* that at that time the astrologers Hi and Ho neglected their duties so that when, on the 10th of October, there was a great eclipse of the Sun at Peking between seven and nine o'clock in the morning, the people were wholly unprepared for it, and "ran about here and there in the utmost consternation." For this offence Hi and Ho were deprived of their offices, their estates were confiscated and they were driven from the kingdom. Among the Hindus we have the classical writers Garga, Parashara, and Mihira, together with their legions of commentators. The Assyrian records are full of astrological allusions regarding the influence of planetary conjunctions and stellar positions. The Greek mythology is nothing but a vast system of cosmographical astrology, and there is no other history in it than what you may read in the constellations of the heavens and the corresponding evolution of the human race. Aristotle made it a part of his philosophy. Hipparchus, Hippocrates, Thales, Galenus, and others subscribed an intelligent belief in its principles. To Claudius Ptolemy, however, we are indebted for the first concise and scientific statement of its principles and practice, so far as Europe is concerned. He wrote the *Tetrabiblos*, or *Four Books*, and laid the foundations of a true astrological science. Julius Firmicus confirmed Ptolemy and enlarged upon his observations. The subsequent discovery of the planets Uranus and Neptune by Herschel and Adams, widened the field of research and gave to later astrologers the clue to much that hitherto had been imperfectly understood. Not that these discoveries overturned the whole system of astrology, as some have imagined and foolishly stated, or that they negated the conclusions drawn from the observed effects of the seven anciently known bodies of the solar system, but it became possible after a lapse of time to fill in the blank spaces and to account for certain events which had not been traced to the action of any of the already known planets.

**The Zodiac and the Soul** Charles E.O. Carter 2010-05 In this book, Charles Carter (1887-1968) shows how the Zodiac of twelve constellations describes an ideal world. In other words, how the soul - the ideal - reveals itself in astrological terms. In the process, Carter invents a new form of rulerships, based on the traditional exaltations, which includes the outer planets. Carter also teases us with his unpublished system of numerology, which was based on 12, rather than the usual 10. As astrology is based around the numbers 2, 3, 4 and 12 (not 5 or 10), a base-12 number system is of immediate interest. Realizing his subject was abstract and unlikely to appeal to all, Carter also includes innovative ideas on directing, and on transits. The result is a book that fascinates on many levels. Charles E.O. Carter, one of the leading astrologers of the 20th century, was President of the Astrological Lodge at the Theosophical Society from 1920 to 1952. He was first Principal of the Faculty of Astrological Studies, which he helped found in 1948. He edited *The Astrologer's Quarterly* from 1926 until 1959. *The Zodiac and the Soul* was first published in 1928, with revisions in 1947, 1960, and 1968, the year of his death.

**In Search of Destiny** Edith Hathaway 2012-04-15 Called a "path breaker" among astrology books, with original research and in-depth coverage, the author combines non-technical and technical material very effectively in a compelling narrative. This book contains a riveting choice of biographies and historical, cultural events that illuminate both individual AND collective destinies. When Vedic astrology - the astrology of India - is combined with biography, history, politics, the arts and culture, a key missing component is provided to all of the above. *In Search of Destiny* is for astrologers, astrology students as well as for the layperson. The only criterion is an interest and openness to astrology. Find out how the planets affect individuals and whole nations and societies, and how the chart of a national leader is never separate from the nation ruled - for as long as he or she is in power. An extensive glossary, footnotes and index help the reader to navigate through the wide-ranging information provided in this book. For the novice, Chapter 2 provides a succinct summary of Vedic astrology and philosophy. Vedic charts are presented in both North and South Indian format, with the lifetime planetary cycles of the Vimshottari Dasha system - for which Vedic astrology is so famous. Any astrologer will benefit from the depth of research done here, and the layperson will find this a user-friendly book that broadens the horizons. "Edith Hathaway's remarkable new book *In Search of Destiny* is an astrological sensation on many levels. ...A narrative of individual dharma woven in the context of collective destiny.... Her innovative research of the 20-year Jupiter/Saturn cycles over a 1000-year period bears rich historical and thematic fruit... and includes her current and future predictions. I highly recommend *In Search of Destiny* ..." Dennis Flaherty, Vedic astrologer, President of CVA (Council of Vedic Astrology), Washington, USA.

**The Astrology of Accidents** Charles E.O. Carter 2010-04 People often ask if there is "proof" for astrology. Astrologers are not so much worried about proving astrology, as they are in using it to reveal nuance and detail. In 1929, after writing four previous books, Charles Carter (1887-1968) set his sights on discovering the astrological reasons why accidents happen, and which people are most prone to them. In part he wanted to test if astrological fundamentals were true or not. Carter knew that astrology works, but does it work the way it has long claimed, or, if it does not, can the real rules be discovered by analysis? This book is divided into two broad sections. In the first, Carter compiles raw sign and house placements of Sun, Moon and planets, along with the angular separation of pairs of planets, to determine which planets, in which signs, in which houses, and which specific angles, produce the most accidents overall. The results are surprising. In the second section, Carter analyzes specific accidents for common traits. Sixteen different classes of accidents are analyzed, among them drowning, gunshots, burns, falls, and railway accidents. While the number of individual cases were limited, Carter was able to determine critical degree areas. New in this edition, a list of local influences derived from Carter's work, and a useful index. This book was first published in 1932.

**Progressions Directions and Rectification** Zipporah Pottenger Dobyns 2011 Using both a practical and a humanistic approach, Zip Dobyns guides the reader through the proven techniques used to rectify a birth chart. The precise methods she outlines to find the correct birth time are easy to follow, and include the use of various methods of planetary and angle progression, solar arc directions, local house cusps, transits, and more. She also discusses less dependable techniques. About destiny, Zip wrote: "Materialistic science assumes that destiny (experience) creates character. Materialistic astrology assumes that the planets create both character and destiny. Humanistic astrology assumes that our attitudes and actions (including unconscious desires and habit patterns) create our destiny, that we are born when our character-destiny matches the state of the cosmos, and that the planets offer a useful blueprint of the cosmic order, but do not create it. All approaches agree that internal nature and external circumstances match, so that we can understand one more clearly in the light of the other. They differ in where they place the power: in chance and matter (science), in the planets (materialistic astrology), or in the mind (humanistic astrology)."
