From the End of the Peloponnesian War to the Battle of Ipsus 1985-02-21 The second volume of *Translated Documents of Greece and Rome* is a collection of English translations with commentary and bibliography, ancient and modern, of the major inscriptions and historical fragments relating to the history of Greece in the fourth century BC. The book is designed to supplement existing translations of the extant historical works of the period, so that the student who knows neither Greek nor Latin can study the fourth century in greater depth than has previously been possible. The period covered by this collection includes the restoration of the democracy at Athens in 403/2, the creation of the Second Athenian Naval League, the Theban hegemony, the Sacred and Social Wars, the rise of Philip of Macedon, the career of his son Alexander, the Lamian War and, finally, the first rounds of the battle for the succession. There are documents from places as far apart as Priene and Tegea, but the majority come from Athens. This collection includes such material as alliances and peace treaties, honorific decrees, catalogues of temple deposits and naval equipment, laws, accounts, dedications, legal decisions, royal correspondence, constitutions and some important fragments of narrative histories. This book will be welcomed by teachers and students of ancient history.

The Art of Building in the Classical World John R. Senseney 2011-03-14 This book examines the application of drawing in the design process of classical architecture, exploring how the tools and techniques of drawing developed for architecture subsequently shaped theories of vision and representations of the universe in science and philosophy. Building on recent scholarship that examines and reconstructs the design process of classical architecture, John R. Senseney focuses on technical drawing in the building trade as a model for the expression of visual order, showing that the techniques of ancient Greek drawing actively determined concepts about the world. He argues that the uniquely Greek innovations of graphic construction determined principles that shaped the massing, special qualities and refinements of buildings and the manner in which order itself was envisioned.

**The Archaeology of Athens and Attica Under the Democracy** William D. E. Coulson 1994 Contains the proceedings of an international conference celebrating 2500 years since the birth of democracy in Greece, held at the American School of Classical Studies at Athens, December 4-6, 1992. Topics include the date of the old temple of Athena on the Athenian Acropolis.

Greek Theatre in the Fourth Century BC Eric Csapo 2014-06-18 Age-old scholarly dogma holds that the death of serious theatre went hand-in-hand with the 'death' of the city-state and that the fourth century BC ushered in an era of theatrical mediocrity offering shallow entertainment to a depoliticised citizenry. The traditional view of fourth-century culture is encouraged and sustained by the absence of dramatic texts in anything more than fragments. Until recently, little attention was paid to an enormous array of non-literary evidence attesting, not only the sustained vibrancy of theatrical culture, but a huge expansion of theatre throughout (and even beyond) the Greek world. Epigraphic, historiographic, iconographic and archaeological evidence indicates that the fourth century BC was an age of exponential growth in theatre. It saw: the construction of permanent stone theatres across and beyond the Mediterranean world; the

addition of theatrical events to existing festivals; the creation of entirely new contexts for drama; and vast investment, both public and private, in all areas of what was rapidly becoming a major 'industry'. This is the first book to explore all the evidence for fourth century ancient theatre: its architecture, drama, dissemination, staging, reception, politics, social impact, finance and memorialisation.

**Voluntary Associations in the Graeco-Roman World** John S. Kloppenborg 2002-09-11 Based upon a series of detailed case studies of associations such as early synagogues and churches, philosophical schools and pagan mystery cults, this collection addresses the question of what can legitimately be termed a 'voluntary association'. Employing modern sociological concepts, the essays show how the various associations were constituted, the extent of their membership, why people joined them and what they contributed to the social fabric of urban life. For many, those groups were the most significant feature of social life beyond family and work. All of them provided an outlet of religious as well as social commitments. Also included are studies of the way in which early Jewish and Christian groups adopted and adapted the models of private association available to them and how this affected their social status and role. Finally, the situation of women is discussed, as some of the voluntary associations offered them a more significant recognition than they received in society at large.

*Corpus Papyrorum Judaicarum* Avigdor Tcherikover 1957 Transcriptions of documents relating to Jews and Judaism in Egypt, with English translations and commentaries.

*Polis & Politics* Pernille Flensted-Jensen 2000 Contains 35 articles devoted to different aspects of the Greek polis and is intended not only as a present for Mogens Herman Hansen on his sixtieth birthday, but also as a way of thanking him for his significant contributions to the field of Greek history over the past three decades.

*Hypereides* Hypéride 2000 The Athenian lawyer-politician Hypereides (390/89-322 BC)-- a central figure in Athenian political life, patriot, bon viveur, contemporary of Demosthenes, and one of the canonical Ten Attic Orators--was credited in antiquity with more than seventy speeches. All were lost until the second half of the nineteenth century, when papyrus finds in Egypt recovered (in whole or part) six, five of them forensic. David Whitehead has for the first time provided a complete commentary on all five of the surviving forensic speeches. This book includes a general introduction, a new and accurate translation, and lavish historical and literary commentary.

**From Political Architecture to Stephanus Byzantius** Mogens Herman Hansen 1994 What was a polis? The Copenhagen Polis Centre (core-funded by the Danish National Research Foundation) has recently begun a broad series of investigations into the origins, nature and development of the ancient Greek city-

states (poleis). This empirical project will be grounded in a comprehensive inventory of all attested poleis of the late archaic and classical periods (ca. 600 - ca. 323 B.C.); and that in turn necessitates an attempt to establish working principles, in source-criticism and historical methodology generally, for the differentiation of poleis from communities of other types. The present volume is a collection of papers, from members of the Centre, which seek to make preliminary contributions to the clarification of such principles.

#### **Studii Clasice** 1983

**Demosthenes, Speeches 23-26** 2018-01-10 This is the fifteenth volume in the Oratory of Classical Greece. This series presents all of the surviving speeches from the late fifth and fourth centuries BC in new translations prepared by classical scholars who are at the forefront of the discipline. These translations are especially designed for the needs and interests of today's undergraduates, Greekless scholars in other disciplines, and the general public. Classical oratory is an invaluable resource for the study of ancient Greek life and culture. The speeches offer evidence on Greek moral views, social and economic conditions, political and social ideology, law and legal procedure, and other aspects of Athenian culture that have recently been attracting particular interest: women and family life, slavery, and religion, to name just a few. This volume provides introductions, translations, and notes for four speeches found in the Demosthenic corpus that have not been translated in recent times. Against Aristocrates deals with matters of foreign policy involving a mercenary general, Charidemus, and is a valuable source for Athenian homicide law. Against Timocrates involves domestic politics and provides important information about Athenian procedures for enacting legislation. In both speeches, the litigants stress the importance of the rule of law in Athenian democracy and emphasize key ideas, such as the monopoly of legitimate force by the state, the need for consistency in statutes, and the principle of no punishment without a written law. The remaining two speeches, Against Aristogeiton, are forgeries composed in the Hellenistic period, as Edward Harris demonstrates conclusively through a study of laws and legal procedures and an analysis of style and vocabulary.

The Architecture of the Ancient Greek Theatre Rune Frederiksen 2015-12-01 This book is a collection of papers following the conference The Architecture of the Ancient Greek Theatre, held in Athens in January 2012. Fundamental publications on the topic have not been issued for many years. Bringing together the leading experts on theatre architecture, this conference aimed at introducing new facts and important comprehensive studies on Greek theatres to the public. The published volume is, first of all, a presentation of new excavation results and new analyses of individual monuments. Many well-known theatres such as the one of Dionysos in Athens, and others at Dodone, Corinth, and Sikyon have been re-examined since their original publication, with stunning results. New research, presented in this volume, includes moreover less well known, or even newly found, ancient Greek theatres in Albania, Asia Minor, Cyprus, and Sicily. Further studies on the history of research, on regional theatrical developments, terminology, and function, as well as a perspective on Roman theatres built in Greek traditions make this volume a comprehensive volume of new research for expert scholars as well as for students and the interested public.

*Athenian Ostracism and Its Original Purpose* Marek Węcowski 2023-03 Ostracism is by far the most emblematic institution of ancient Athenian democracy. This volume offers a reassessment of recently found ostraka (or potsherds, on which the names of the 'candidates' for exile were inscribed by citizens) from several Greek cities outside Athens, a thorough reconstruction of the history and of the procedure of ostracism in Athens, and a comprehensive account of the political circumstances of the introduction of the law on ostracism by Cleisthenes in 508/507 BCE. Marek Węcowski's original study focuses not only on the final stage, the day of the vote, but on the entire operation and procedure of ostracism. Tracing the logic of the political play in Athens between the opening and final stages of ostracism, Węcowski argues that Athenian ostracism was a mechanism devised to impose compromise on the main players in Athenian political life, thereby avoiding the punishment of political elites by exile of leading politicians resulting from unpredictable votes by the citizenry. To support this hypothesis, Węcowski turns to the theory of the 'evolution of cooperation' as formulated by the American mathematician and political scientist Robert Axelrod based on the iterated prisoner's dilemma in game theory, applied as a probabilistic analogy to the dynamics of Athenian political life under democracy.

*Dylemat więźnia. Ostracyzm ateński i jego pierwotne cele* MAREK WĘCOWSKI 2018 Książce tej przyświeca przekonanie, że dotychczasowe wyjaśnienia mechanizmów działania oraz genezy ateńskiego ostracyzmu są niewystarczające. Mało miejsca poświęca się w niej słynnym ostrakom, czyli ceramicznym skorupom, na których Ateńczycy skrobali imiona nielubianych polityków. Zdaniem autora tym narzędziem ateńskiego ostracyzmu i momentowi głosowania nad wygnaniem jednego z polityków przypisuje się nadmierne znaczenie, zaniedbując inne aspekty i pozostałe etapy długotrwałej procedury. Zadano tu serię nowych albo względnie nowych pytań. Jedno z nich nigdy dotąd nie zostało jasno w nauce postawione: jak wytłumaczyć to, że dla kilkudziesięcioletnich dziejów ostracyzmu dowiadujemy się o zaledwie kilkunastu skutecznych przypadkach jego zastosowania? I jakie wnioski mogą z tego wynikać dla badania tej instytucji? Główną tezę książki jest interpretacja ateńskiego ostracyzmu jako mechanizmu wymuszającego kompromis w środowisku ateńskich elit politycznych. Dla potrzeb takiego wywodu skorzystano z narzędzi teorii „ewolucji kooperacji”, sformułowanej przez politologa i matematyka Roberta Axelroda na podstawie tzw. Iterowanego dylematu więźnia.

**The Athenian Agora** Homer A. Thompson 1990-12-01 In 2006 it will be 75 years since excavations by the American School of Classical Studies at Athens started in the ancient Agora. Almost every year since 1931 new areas of the ancient civic center have been cleared and exciting discoveries made, and this book presents the latest, detailed, account of the monuments and artifacts that can be seen on a visit to the site. After a short introduction to the history of the Agora, each monument is described in turn. Famous buildings like the Tholos or Stoa of Attalos are discussed in detail, but also lesser-known areas, passed over by other books, are revealed. Plans and color illustrations help locate the reader, while a large fold-out map at the back of the book distinguishes the different chronological phases of the Agora. For the first time this map also shows discoveries made in the last few years at the northern edge of the site. A final section presents a guide to the museum, substantially reorganized in preparation for the 2004 Olympic Games. Written by the director of the Agora excavations for over a decade, this book presents the most detailed and up-to-date coverage available of the birthplace of democracy. It will be invaluable for any visitor to or student of the site.

**Chronologies of the Black Sea Area in the Period, C. 400-100 BC** Vladimir F. Stolba 2005 A renewed interest in chronological problems has surfaced in recent years. In this volume deriving from the first international Conference of the Danish National Research Foundation's Centre for Black Sea Studies, thirteen contributions by scholars from Russia, Ukraine, Romania, USA, Canada, Belgium and Denmark review and discuss the elements upon which the chronology used in Black Sea archaeology and history in the period c. 400-100 BC is built. The subjects include: amphora and amphora stamp chronologies (Mark Lawall; Sergej Ju. Monachov; Niculae Conovici; Vladimir Stolba), coin chronology (Francois de Callatay, Athenian pottery (Susan I. Rotroff), epigraphic evidence (Jakob Munk Hojte), and a number of case studies presenting the material on which is based the dating of a series of Greek and barbarian/non-Greek sites and burial monuments on the northern shores of the Black Sea (Valentina V. Krapivina; Valeria Bylkova; Lise Hannestad, Miron I. Zolotarev, Ju. P. Zaytsev, Valentina I. Mordvinceva). VLADIMIR STOLBA is Senior Researcher at The Institute of the History of Material Culture, Russian Academy of Science, St Petersburg, and presently at the Centre for Black Sea Studies, Aarhus. LISE HANNESTAD is Senior Associate Professor at the Department for Classical Archaeology, University of Aarhus.

*Athenian Democracy* Rhodes P. J. Rhodes 2019-08-07 Athens' democracy developed during the sixth and fifth centuries and continued into the fourth; Athens' defeat by Macedon in 322 began a series of alternations between democracy and oligarchy. The democracy was inseparably bound up with the ideals of liberty and equality, the rule of law, and the direct government of the people by the people. Liberty meant above all freedom of speech, the right to be heard in the public assembly and the right to speak one's mind in private. Equality meant the equal right of the male citizens (perhaps 60,000 in the fifth century, 30,000 in the fourth) to participate in the government of the state and the administration of the law. Disapproved of as mob rule until the nineteenth century, the institutions of Athenian democracy have become an inspiration for modern democratic politics and political philosophy. P. J. Rhodes's reader focuses on the political institutions, political activity, history, and nature of Athenian democracy and introduces some of the best British, American, German and French scholarship on its origins, theory and practice. Part I is devoted to political institutions: citizenship, the assembly, the law-courts, and capital punishment. Part II explores aspects of political activity: the demagogues and their relationship with the assembly, the manoeuvrings of the politicians, competitive festivals, and the separation of public from private life. Part III looks at three crucial points in the development of the democracy: the reforms of Solon, Cleisthenes and Ephialtes. Part IV considers what it was in Greek life that led to the development of democracy. Some of the authors adopt broad-brush approaches to major questions; others analyse a particular body of evidence in detail. Use is made of archaeology, comparison with other societies, the location of festivals in their civic context, and the need to penetrate behind what the classical Athenians made of their past.
