The Assist Neil Swidey 2008-11-11 Jack O'Brien is a high school basketball coach extreme in both his demands and his devotion. With monastic discipline, he has built a powerhouse program that wins state championships year after year while helping propel players to college. He does this as a white suburban guy working exclusively with black city boys who make the daily trek across Boston to attend Charlestown High School, where the last battles of the city's school desegregation wars were fought a generation ago. The Assist is a gripping, surprising story about fathers, sons, and surrogates, all confronting the narrow margins of urban life. The book follows the players on their hunt for a state title. But it also stays with them, to see how young men who seldom get

second chances survive without their coach hovering over them—and how he survives without them.

Assist Me to Proclaim John R. Tyson 2007

Charles Wesley (1707-1788) was the cofounder of Methodism and the author of more than 9,000 hymns and sacred poems, including such favorites as "Hark the Herald Angels Sing," "O for a Thousand Tongues to Sing," and "Christ the Lord Is Risen Today." John Tyson here traces the remarkable life of this influential man from

cradle to grave, using rare -- including previously unpublished -- hymns, letters, and journal materials. As the younger brother of John Wesley, Charles was a vital partner in the Methodist revival. While often standing in the shadow of his more famous brother, Charles Wesley was arguably the founder of the Oxford Holy Club, and he actually experienced evangelical conversion three days prior to John. In *Assist Me to Proclaim* Tyson explores, among other things, behind-the-scenes questions about the brothers' sometimes-stormy relationship. Notwithstanding all his accomplishments as an evangelist and itinerant preacher, Charles is chiefly remembered for his startling facility at writing hymns that show God at work in almost every instance of life. His remarkable legacy endures around the world, as hundreds of Charles Wesley hymns are still sung in churches everywhere today. *Assist Me to Proclaim* draws a picture of a man whose fidelity to both the Church of England and the original vision of

Methodism energized his remarkable abilities as a revivalist and hymn writer. Readers also get a glimpse into Wesley's heart and mind through the window of his hymn texts. This is a biography that any student of church history or hymnody will welcome.

Heart 2 Heart Ruth Halben 2016-11-21 Heart 2

Heart brings together stories of patients who suffered from a serious heart condition and therefore received an LVAD (Left Ventricular Assist Device). The patients describe the various hardships they and their families endured as

well as how many found hope after receiving an LVAD. Each chapter is written by a different patient or a patient's family member, creating a unique collection of stories that reveals the realities of living life with an implanted heart pump. Heart 2 Heart is composed of seventeen patient voices, where fourteen males and three females of different ethnicities and ages share with the reader their tale--from their initial diagnosis, to their eventual LVAD procedure performed at the University of Michigan Hospital. The editor, Ruth Halben, M.S.W., is a clinical social worker in the University of Michigan Health System who works with LVAD patients and their families. Ruth is one of the first LVAD social workers in the nation, and she draws both from her expertise and her heartfelt relationships with her patients to bring together this wonderful resource for current and future LVAD patients.

Ventricular Assist Devices in Advanced-Stage Heart Failure Shunei Kyo 2013-11-25

This book focuses on how ventricular assist devices (VADs) can help provide destination therapy for patients with terminal heart failure,

one of the most serious diseases in the world today because of the tremendous number of patients, the high mortality rate, and the cost of care. One means of providing cardiological support for patients suffering from heart failure is with VADs, and more than 10,000 patients worldwide have now been implanted with these devices. Half of them already have lived more than one year, and 2,000 patients more than two years, after surgery. This improved survival means that we have reached a point where VADs can be used for destination therapy, not just for bridge-to-recovery or bridge-to-transplant. In view of the increasing number of patients with advanced-stage heart failure and the availability and longevity of transplanted hearts, VADs can solve many problems. In addition to providing information about the devices themselves, this book includes vital guidelines on long-term management and support of VAD-implanted patients' everyday lives.

Yoga Assists Sharon Gannon David Life

2012-01-11 Let's slow down and ask some basic questions about the whole idea of a yoga assist - because offering and receiving great assists depends first on knowing what an assist is. Back in the old days of yoga assists were called "corrections". The idea was that the student was doing something wrong and the teacher could manipulate the wrongness away. Later came the word "adjustment", which is a little better, conveying the student is on the right track and some adjustments are needed. In this book, world renowned Jivamukti Yoga practitioners Sharon Gannon and David Life use the word "assist" to communicate the idea that in yoga there are actually two beings interacting together on various levels of consciousness to

foster a decrease in avidya, "mis-knowing," and an increase in vidya, or the knowing principle. A yoga assist then, is action taken in a microcosmic relationship that reveals macrocosmic truths. It is action undertaken in mutuality with the best of intentions and the blessing of the teacher's teachers. The giving of yoga is an art. Yoga assists are not static; they comprise a flowing dance of body, breath, and energy. They are based on continuous focus and awareness of the relationship between partners in the process. It takes two to Tango! As in Tango, in each encounter with yoga student and teacher there is an equation of reciprocity. Whether we receive or give an assist is an active process in the resolution of a relationship, a transmission, a dance. In this sense, the relationship between teacher and student is a microcosm of the flowing inter-relation among all people, all species, all living beings. Through this book, with the "assistance" of

Sharon and David, practitioners will deepen their understanding of the fundamental principles of yoga assists and apply them in practice and in service to others. *The Assist* Brian Smith 2018-03-15 Most Christian athletes know they are supposed to play for the glory of God, but what does that actually mean?
