*NATO Divided, NATO United* Lawrence Kaplan 2004-05-30 Kaplan (history and European Union studies, Kent State U.) concentrates on the differences within the North American Treaty Organization, particularly between the US and Europe. Internal conflicts, he says, have arguable

*Twilight of Democracy* Anne Applebaum 2020-07-21 A finalist for the Lionel Gelber Prize One of Barack Obama's Favourite Books of the Year A Pulitzer Prize-winning historian explains, with electrifying clarity, why elites in democracies around the world are turning toward nationalism and authoritarianism. From the United States and Britain to continental Europe and beyond, liberal democracy is under siege, while authoritarianism is on the rise. In *Twilight of Democracy*, Anne Applebaum, an award-winning historian of Soviet atrocities who was one of the first American journalists to raise an alarm about antidemocratic trends in the West, explains the lure of nationalism and autocracy. In this captivating essay, she contends that political systems with radically simple beliefs are inherently appealing, especially when they benefit the loyal to the exclusion of everyone else. Despotism does not rule alone; they rely on political allies, bureaucrats, and media figures to pave their way and support their rule. The authoritarian and nationalist parties that have arisen within modern democracies offer new paths to wealth or power for their adherents. Applebaum describes many of the new advocates of illiberalism in countries around the world, showing how

they use conspiracy theory, political polarization, social media, and even nostalgia to change their societies. Elegantly written and urgently argued, *Twilight of Democracy* is a brilliant dissection of a world-shaking shift and a stirring glimpse of the road back to democratic values.

**Global Trends 2040** National Intelligence Council 2021-03 "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

**Destined For War** Graham Allison 2017-05-30 NATIONAL BESTSELLER | NEW YORK TIMES NOTABLE BOOK OF THE YEAR. From an eminent international security scholar, an urgent examination of the conditions

that could produce a catastrophic conflict between the United States and China—and how it might be prevented. China and the United States are heading toward a war neither wants. The reason is Thucydides's Trap: when a rising power threatens to displace a ruling one, violence is the likeliest result. Over the past five hundred years, these conditions have occurred sixteen times; war broke out in twelve. At the time of publication, an unstoppable China approached an immovable America, and both Xi Jinping and Donald Trump promised to make their countries "great again," the seventeenth case was looking grim—it still is. A trade conflict, cyberattack, Korean crisis, or accident at sea could easily spark a major war. In *Destined for War*, eminent Harvard scholar Graham Allison masterfully blends history and current events to explain the timeless machinery of Thucydides's Trap—and to explore the painful steps that might prevent disaster today. SHORT-LISTED FOR THE 2018 LIONEL GELBER PRIZE NAMED A BEST BOOK OF THE YEAR BY: FINANCIAL TIMES \* THE TIMES (LONDON)\* AMAZON "Allison is one of the keenest observers of international affairs around." — President Joe Biden "[A] must-read book in both Washington and Beijing." — Boston Globe "[Full of] wide-ranging, erudite case studies that span human history . . . [A] fine book." — New York Times Book Review *Brookings at Seventy-Five* James Allen Smith 2010-12-01 The historian James Allen Smith traces the evolution of Washington's oldest and prototypical think tank on the occasion of its seventy-fifth anniversary in 1991. Dedicated to bringing expertise to bear on public policy issues, Brookings has been a pioneer in bridging the disparate worlds of social science research and American policymaking. But while its efforts have been made steady, there have been frustrations and controversy over the years. Inspired by the scientific management and government efficiency movements in the Progressive Era, Brookings has evolved from an organization that consulted with government agencies on accounting and personnel practices into an institution with a wide-ranging research and publishing program as well as active public policy education and media outreach efforts. Smith vividly tells of the key individuals, beginning with Robert Brookings, who have shaped the institution. He recounts its

relationships with financial supporters and presidential administrations, and he candidly discusses the problems surrounding efforts at funding. Smith places the Brookings research program in an intellectual context and within the changing policymaking environment of Washington. He reveals how Brookings has withstood seventy-five years of shifts in national politics, external perceptions on the institution, and internal leadership to emerge as one of the most prominent sources of policy expertise in the world. The proliferation of private think tanks and the expansion of governmental research agencies in the past quarter century have changed the policy environment. The Brookings Institution, on its seventy-fifth anniversary, offers a singular vantage point from which to observe the ever-changing relationship between expert knowledge and political decisionmaking in our democracy.
