Corporate Criminal Liability Mark Pieth 2011-04-20 With industrialization and globalization, corporations acquired the capacity to influence social life for good or for ill. Yet, corporations are not traditional objects of criminal law. Justified by notions of personal moral guilt, criminal norms have been judged inapplicable to fictional persons, who ‘think’ and ‘act’ through human beings. The expansion of new corporate criminal liability (CCL) laws since the mid-1990s challenges this assumption. Our volume surveys current practice on CCL in 15 civil and common law jurisdictions, exploring the legal conditions for liability, the principles and options for sanctioning, and the procedures for investigating, charging and trying corporate offenders. It considers whether municipal CCL laws are converging around the notion of ‘corporate culture’, and, in any case, the implications of CCL for those charged with keeping corporations, and other legal entities, out of trouble.

Why SNAP Works Christopher John Bosso 2023-10-10 The first book to tell the whole story of SNAP and to explain why all Americans should support it. The Supplemental Nutrition Assistance Program is the nation’s largest government effort for helping low-income Americans obtain an adequate diet. How did SNAP, formerly the food stamp program, evolve from a Depression-era effort to use up surplus goods into America’s foundational food assistance program? And how does SNAP survive? Incisive and original, *Why SNAP Works* is the first book to provide a comprehensive history and evaluation of the nation’s most important food insecurity and poverty alleviation effort. Everyone has an opinion about SNAP, not all of them positive, but its benefits are felt broadly and across party lines. Christopher Bosso makes a clear, nuanced, and impassioned case for protecting this unique food program, exploring its history and breaking down the facts for readers across the political spectrum. *Why SNAP Works* is an essential book for anyone concerned about food access, poverty, and the “welfare system” in the United States.

Lifegivers James L. Gritter 2000 In this book, open adoption practitioner Jim Gritter examines all the ways in which birthparents are marginalized. He provides a glimpse of birthparents' emotional roller coaster ride as they struggle with grief, ambivalence, and regret. Most importantly, he makes the case that if adoption exists to benefit children, then adopted children are best served when birthparents and adoptive parents work together.

Generous Spaciousness Wendy VanderWal-Gritter 2014-05-13 Committed Christians may respond differently to gay and lesbian Christians. How can we engage those with whom we might disagree and navigate our journey together in a way that nurtures unity, hospitality, humility, and justice? Through her extensive experience in ministering to gay and lesbian Christians, Wendy VanderWal-Gritter has come to believe we need a new paradigm for how the church engages those in the sexual minority. She encourages generous spaciousness, a hope-filled, relational way forward for those in turmoil regarding a response to gay and lesbian Christians. This book offers a framework for discussing diversity in a gracious way, showing that the church can be a place that welcomes a variety of perspectives on the complex matter of human sexuality. It also offers practical advice for implementing generous spaciousness in churches and organizations.

Homicide in Criminal Law Alan Reed 2018-09-03 This volume presents a leading contribution to the substantive arena relating to homicide in the criminal law. In broad terms, the ambit of homicide standardisations in extant law is contestable and opaque. This book provides a logical template to focus the debate. The overall concept addresses three specific elements within this arena, embracing an overarching synergy between them. This edifice engages in an examination of UK provisions, and in contrasting these provisions against alternative domestic jurisdictions as well as comparative contributions addressing a particularised research grid for content. The comparative chapters provide a wider background of how other legal systems treat a variety of specialised issues relating to homicide in the context of the criminal law. The debate in relation to homicide continues apace for academics, practitioners and within the criminal justice system. Having expert descriptions of the wider issues surrounding the particular discussion and of other legal systems’ approaches serves to stimulate and inform that debate. This collection will be a major source of reference for future discussion.

Advanced Condition Monitoring and Fault Diagnosis of Electric Machines Irfan, Muhammad 2018-09-14 The reliability of induction motors is a major requirement in many industrial applications. It is especially important where an unexpected breakdown might result in the interruption of critical services such as military operations, transportation, aviation, and medical applications. Advanced Condition Monitoring and Fault Diagnosis of Electric Machines is a collection of innovative research on various issues related to machinery condition monitoring, signal processing and conditioning, instrumentation and measurements, and new trends in condition monitoring. It also pays special attention to the fault identification process. While highlighting topics including spectral analysis, electrical engineering, and bearing faults, this book is an ideal reference source for electrical engineers, mechanical engineers, researchers, and graduate-level students seeking current research on various methods of maintaining machinery.

Young Adult Literature and Spirituality William Boerman-Cornell 2022-09-28 This book offers revolutionary approaches to in-class discussions about young adult literature. It shows teachers how to think more widely than the themes of a book to consider how they might operate as prayers of lament, yearning, anger, confession, thankfulness, reconciliation, joy, obedience, pilgrimage, contemplation, and equanimity. It also offers a variety of ways for classroom discussion to consider a representative sentence or two from a young adult novel, and from that allow students to connect to linked passages in the rest of the novel. These approaches for classroom discussion are drawn from a variety of contemplative traditions, including Jewish and Christian faith traditions and include florilegium, lectio divina, PaRDeS, Ignatian Imagination, havruta,

and marginalia. Drawing from a range of in-class experiences, the authors explain each approach in the context of twelve popular and critically interesting young adult novels including *The Hate U Give*, *Long Way Down*, *Speak*, *The Poet X*, *The Fault in our Stars*, *Brown Girl Dreaming*, and others. This book will transform discussions that are disconnected from the book, lacking in relevance, or missing the energy that drives good conversation into meaningful and energetic class discussions that students and teachers alike will value.
