Myths and Legends of the Celts James MacKillop 2006-06-01 Myths and Legends of the Celts is a fascinating and wide-ranging introduction to the mythology of the peoples who inhabited the northwestern fringes of Europe - from Britain and the Isle of Man to Gaul and Brittany. Drawing on recent historical and archaeological research, as well as literary and oral sources, the guide looks at the gods and goddesses of Celtic myth; at the nature of Celtic religion, with its rituals of sun and moon worship; and at the druids who served society as judges, diviners and philosophers. It also examines the many Celtic deities who were linked with animals and such natural phenomena as rivers and caves, or who later became associated with local Christian saints. And it explores

in detail the rich variety of Celtic myths: from early legends of King Arthur to the stories of the Welsh Mabinogi, and from tales of heroes including Cúchulainn, Fionn mac Cumhaill and the warrior queen Medb to tales of shadowy otherworlds - the homes of spirits and fairies. What emerges is a wonderfully diverse and fertile tradition of myth making that has captured the imagination of countless generations, introduced and explained here with compelling insight.

The Art of Arranging Flowers Shōzō Satō 1966 "The growing appreciation of Japanese Art and architecture in the West has extended to the Japanese way with flowers. This book is intended as a complete introduction to Ikebana, the Japanese art of flower arrangement. Beginning with the history and development of the art, and its place in Japanese culture, we introduce the reader to the eleven basic styles. Next comes a large section devoted to vases, materials, tools, and methods. Text and pictures explain how to keep flowers fresh, how to select and prepare both fresh and dried materials, and how to make the most effective use of them. Twelve lessons in creating arrangements in the moibana style follow. I have tried to make this the most carefully detailed and profusely illustrated guide of its kind, enabling the reader to create many beautiful arrangements while learning all the necessary techniques of the art. Finally, there is a section devoted to advanced

techniques and designs, both classic and modern, and to the setting of mood. Appedixes suggest ways to keep cut flowers fresh, tell how to make effective arrangements from one's own garden flowers and what plant materials to combine, and describe the symbolism of plants and their enhancement. I hope the reader will find this book enjoyable to read, easy to understand, and fun to follow."--Preface.

Origins of Chinese Law Yongping Liu 1998 "Origins of Chinese Law develops and supports an original, yet controversial, picture of early Chinese law. Casting doubt on the accepted premise that there was a unified system of law and punishment throughout the ancient Chinese empire based on the wuxing, or five punishments, the author suggests a more complicated and diverse picture: that from their earliest origins the Chinese people were subject to different laws and punishments based on their clan or social status." "Using a wealth of literary evidence from the Confucian classics and historical writings, and making use of recent archaeological excavations of oracle bones, bronze inscriptions, and bamboo strips, the author elucidates the central concepts that formed the basis of early Chinese law such as Li, covenant, punishment, and the theories and practice of law of the Qin and Han dynasties."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Bureaucracy of Han Times Hans Bielenstein 1980-09-11 This is a comprehensive and fully documented study of Chinese bureaucracy during the Han period, when many of the basic lines of Chinese government practice were laid down. It is also more detailed and wider in scope than similar works on other periods of Chinese history. The book covers the time from 202 BC to AD 9 and from AD 25 to 189, analysing and describing the central and local administrations, the army, official salaries, civil service recruitment and power in government. Professor Bielenstein translates all Chinese official titles and includes alphabetical lists of these titles with their English and Chinese equivalents. Thus his book will serve both as a description for the names of offices at every level of government. The book will be of interest to all scholars of Chinese history, as well as to experts in other fields of institutional history, government and political science.

Budapest Noir Vilmos Kondor 2012-01-31 "Kondor's impressive first novel, which unfolds against an atmosphere tinged by alienation, fear,

and the threat of violence, stands out for its deft writing, plausible scenarios, vivid sense of place, and noir sensibility.” — Library Journal A dark, riveting, and lightning fast novel of murder, intrigue, and political corruption, set in 1936 Hungary during the rise of Adolph Hitler and the Nazis in Germany. Budapest Noir marks the emergence of an extraordinary new voice in literary crime fiction, Vilmos Kondor. Kondor’s remarkable debut brings this European city to breathtaking life—from the wealthy residential neighborhoods of Buda to the slums of Pest—as it follows crime reporter Zsigmond Gordon’s investigation into the strange death of a beautiful woman. The Modern A-Frame 2018-02-06 Midcentury spaces made new: A-Frame homes from rustic to ultra-modern, mountain retreats to seaside getaways. The A-Frame home surged in popularity in the 1950s, and has captured the public's imagination with its playfully modern, steep-sloping

roofline ever since. The Modern A-Frame celebrates seventeen diverse accounts of these minimalists cabins reinvented for the twenty-first century. Nostalgic escapes, heritage homes, full-time simplicity, and artists at work categorize the A-frames whose engaging stories are shared. Whether fabricated from a 1960s kit or as a new build via retro inspiration, the variety of styles and homeowners in this photo-driven collection beautifully captures the romance of a classic structure, which beckons to travelers and homebuyers today, just as it did sixty years ago. Perfect for the architectural enthusiast, midcentury-minded designer, or armchair traveler. Ben Rahn has been photographing architecture and interiors for more than twenty years. He founded A-Frame Studio in 2003 out of a desire to combine his love of design with his keen photographic eye. His work has been recognized internationally and has appeared in publications such as Dwell, Wallpaper, Conde Naste Traveller, and more. He lives in Toronto, Canada.

Bardot Jeffrey Robinson 1994 Brigitte Bardot, BB, La bebe, is a symbol of the age of the Pill and the Playboy philosophy. After her first film at the age of 17 she was catapulted to fame. She was never a great actress, but she was a great sex symbol. This is an account of her as an international social phenomenon: how she was trapped by fame, how she handled and mishandled it, how fame drove her to become a recluse. It describes her relationships, her failure to find happiness, her litigious nature - she has fought nearly 150 court cases involving invasion of privacy and animal rights - and how she has hidden behind animals to protect herself from humans.
